## NEW MEN.

Fred Warnock and E. P. Michell have bought the Heppner GAZETTE and with this issue will start it on a new career of usefulness and soon bring it back to the leading position it occupied when conducted by Otis Patterson.

Messrs. Warnock & Michell are active, practical young men, who have lived in Oregon all their lives, and they are thoroughly posted as to the state's best interests. They have had extensive experience in the newspaper business, and will give to Heppner and Morrow county the full benefit of that experience.

J. W. REDINGTON,

The GAZETTE this week appears to its readers under new management, the undersigned having purchased the plant, business, good will, etc., of Mr. J. W. Redington. There will be no radical change in the future policy of the paper. The main object will be to give the news just as it happens in a plain, reliable manner. At all times the GAZETTE will earnestly labor to advance the interests of Heppner and Morrow county. Believing in the principles of the republican party, the paper will be republican in politics. It will be the aim to allow no prejudice to influence the handling of public questions or the dissemination of news, but to follow the lines of justice and fairness in every transaction. Believing this to be a duty, the GAZETTE hopes to be worthy of the favor of the people. About the only promise offered is that we will do our best to get out a clean, newsy, reliable newspaper.

WARNOCK & MICHELL.

## A SOUTHERN OPINION.

The Times, the leading democratic paper of Richmond, Va., in a recent issue, in discussing the political conditions of the South, says:

There are signs of political revolution in the South and it is always an error to shut one's eyes to the signs of the times. We have no idea that the republican party is going to capture the South. Southern people are by birth and education democrats, and we expect to see the democratic party in the ascendancy for many years to come. It is a reflection upon them to say that they can be caught by "McKinley's bait for suckers." But there are many white men all through the South who believe in the principles and politics of the republican party, and who have been kept in the democratic party only by fear of negro rule. This fear has been in a number of states removed, and steps are being taken in other Southern states to put it out of the way, and when that shall have been accomplished these men shall shake off the party yoke and will go where their political inclinations lead them.

The Albany strike of street railway employes will terminate like all other strikes where a lawless element controls. Both employe and employer will suffer. Already innocent blood has been shed in the riots caused by strikers who have allowed their temper to get the best of judgment and reason. The strikers undoubtedly had a just and honest grievance to start with and with proper management could have elicited sympathy from all. The strikers will lose by not concentrating their forces into one head or management where deliberate and reasonable action could have surmounted the difficulties without trouble.

Average monthly exportations for the nine months ending with March, 1901:

England	117,816,246

Average ending with December, 1900.	
Germany	\$ 87,551,000
France	56,467,000
Russia	29,550,000
British India	26,747,000
Austria-Hungary	25,743,255
Belgium	23,558,000
Italy	20,518,000

The above is from the U. S. Treasury Bureau of Statistics.

The official figures as to immigration and the forecasts of experts indicate that the steamer quarters of the transatlantic steamships are likely to be well filled on their westward voyages this year. An unusual number of newcomers have already landed, and it is believed that the rising tide this way will

reach flood in the next few months. There is plenty of room in Morrow county for a great many more people of the right kind. It's an easy matter to get a good home here.

The Indian Bureau at Washington has directed the different Indian agents to inquire into the complaints made by Willowa county, Oregon, citizens in relation to depredations committed by Indians from the Umatilla, Colville and Lapwai reservations with instructions to correct irregularities and prevent any further interference on the part of these Indians. The Indians should be kept on the reservations.

The city of Astland is having a lively time over the question of saloon or no saloon. Last January an ordinance was passed by the city council prohibiting the sale of liquor within the corporate limits. The saloon men ignore the law and of the six saloons in the town five of them have been running every since and the city has not received a cent of license money.

Kansas is no more a clammy bowler this year than it was last year. The wheat crop promises to harvest 100,000,000 bushels, and there is a call for 15,000 men at \$2 per day to supply the labor. The railroads have been invited to help get it, by offering special rates to bring laborers to the field.

Trusts and combinations are not wholly confined to this country by any means. The chief metal industries of Russia, which embrace sixty-three different firms, are about to consolidate into one limited liability trust, in imitation of the United Steel and Iron Trust of the United States.

The Oregonian predicts that the senatorial contest next year will be between Joe Simon, Sol Hirsch and Charley Fulton, with H. W. Corbett a possibility. Of this quartet Fulton, the brainy man of Clatsop, is the most popular with the masses. — Eugene Register.

Mining in South Africa just now is not very pleasant. Three of the principal gold mines of Johannesburg are open and operating on a large scale but it requires over a thousand troops to protect them, the expense of maintenance being borne by the mine-owners.

When you buy a dollar's worth of home products in preference to products shipped in from somewhere else you prevent the drain of shipping a dollar out to somewhere else. It helps the town; it helps you; it's wise business. — Fairhaven Times.

At the beginning of May, on a basis of 77,536,000 inhabitants in the United States, the per capita circulation was \$28.31. This is the highest figure that has ever been reached in the history of the nation.

The interest shown by the members of Heppner's volunteer fire department is commendable and the fire boys should certainly be encouraged by the citizens. Good fire protection is of vast importance to any city.

One of the extraordinary importations recently made by New York from Europe consisted of 16,363 bags of onions, at a cost of \$42,350. The importation was due to a temporary scarcity in the New York market.

An American firm has recently secured a contract from Calcutta, India, to furnish nine locomotives. There were several other foreign bidders, but American enterprise outstripped them all.

"Heppner is the biggest town of its size in Oregon," was the remark of a prominent man who does not reside here, one day this week. He is about right in the statement.

Tom Johnson and Jerry Simpson have been suggested as the democratic presidential ticket in 1904. Tom and Jerry would not be bad, remarks an exchange.

The news of the serious illness of Mrs. McKinley is sad and the abandonment of the Oregon visit is a great disappointment to the people of this state.

The United States treasury now contains a larger amount of gold than any other like institution in the world. The amount has reached

the enormous sum of \$361,469,468. These are republican times.

Col. Bryan announces that he will not be a candidate in 1904 unless it is absolutely necessary. The world will probably move just the same.

The new submarine boat has been found to be of some practical use. Coal barges wrecked on Long Island Sound have been located by the use of this boat.

Thirst for knowledge by the people of this country keeps apace with progress. In the past twenty years public libraries have doubled.

## LYRIAN RANGERS.

Grand Chancellor and Past Grand Chancellor, Visit Doric Lodge.

Judge W. L. Bradshaw of the Dalles, Grand Chancellor, and Judge W. M. Calk of Portland, Past Grand Chancellor of the Grand Domain of Oregon, K. of P., officially visited Doric Lodge No. 20, of this city, Tuesday evening.

There was a good attendance of the members and everything was nicely arranged for the entertainment of the officials.

After a short session of the lodge, there was a pleasant banquet served by the members and their families of Doric Lodge. Grand Chancellor Bradshaw and Past Grand Chancellor Calk responded with appropriate and able speeches which greatly added to the enjoyment of the evening.

The exercises closed at 11 o'clock and all departed with the best wishes for the order that stands on the grand principles of friendship, charity and benevolence.

## WOOL MOVEMENTS.

Spring Clip is Now Coming in Freely to the Heppner Warehouses.

Wool is now coming in daily to the warehouses in this city. At the Woolgrowers' warehouse wool is being baled for shipment. One lot of 320,000 pounds will be finished Wednesday of next week. This is being shipped as fast as possible to H. C. Judd & Root of Hartford, Conn.

At the Henry Heppner warehouse there is considerable activity in wool business.

## DEMAND FOR NORMAL GRADUATES.

The State Normal School at Monmouth reports that the demand for its graduates during the past year has been much beyond the supply. Graduation from the school practically assures a place worth from \$40 to \$75 per month. The students take the state examinations during the regular course, and are easily able to pass on all subjects required for state papers before graduation. The school has a well equipped training department consisting of a nine-grade town school and of a typical country school.

## Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; and cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Cure. Send for circulars, free.

## COST OF FARMING.

County Commissioner Ed C. Ashbaugh, a pioneer farmer of Morrow county, who raised 15,000 bushels of wheat the past season, says that the cost of raising wheat here is about as follows:

Plowing old ground per acre	\$.75
Heading	1.00
Harrowing	.55
Sowing	.35
Threshing	1.20
	\$3.55

The contract has been let for building a school house at John Day. The price is \$3460.

**Nasal CATARRH**

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.
