BLUFFING THE BURGLARS.

A South Side man residing in a big apartment house, says the Chicago Chronicle, has been robbed two or three times in the past few years and finally grew tired of it and set about devising some means of warning off the robbers, which would not necessitate some one remaining in the flat every evening. Not only does he leave the gas lighted, but he has purchased a graphophone which talks in loud resonant tones for a time and then throws out a few remarks in a deeper voice, accompanied by much laughter. The record is that of a conversation between two men and was made to order. The listener outside of the door of the flat would swear two large burly men were in the room, and as the conversation is a long one relative to the case with which one of the men threw two other men downstairs, a few nights before, it is calculated to make a burglar pause and reflect. A big brass horn is attached to the machine, which increases the volume of the voices, and when the owner of the device wishes to take his wife to the theatre he sets the repeat switch, which will reproduce the conversation as long as the battery lasts, turns on the machine and goes blithely away. He has not been robbed since he invented the device.

The Columbia Phonograph Co., No. 125 Geary street, San Francisco, headquarters for graphophones and talking machine supplies of every kind, will send you catalogues on application.

A new postoffice ruling has gone into effect imposing a fine of \$20 or one year imprisonment on any one who carelessly or otherwise takes mail not belonging to them from the postoffice and fails to return it immediately. This applies to newspapers as well as letters and other valuables.

Clean newspapers to cover shelves, put under carpets and line houses are sometimes scarce, but just now there is a full supply on sale at the Gazette office at 15 cents a package.

GEORGE WASHINGTON'S QUEUE.

It Had a Luxuriant Suit of Straight and Very Dark Hair.

The Father of his Country concealed a luxuriant suit of hair beneath his queue wig. Many now wish the old fashion were in vogue, to conceal thinned hair or baldness. Yet no one need have thin hair nor be bald, if he cure the dandruff that causes both. Dandruff cannot be cured by scrubbing the scalp, because it is a germ disease, and the germ has to be killed. Newbro's Herpicide kills the dandruff germ no other hair preparation will. "Destroy the cause, you remove the effect." There's no cure for dandruff but to kill the germ.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c size. Ely Brothers, 56 Warren St., N. Y. The balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.
