Mr. Turner will soon commence the erection of a new two story frame building on the corner of Main and Center streets near the Fair store. The new structure will be used for a lodging house.

Jack Matlock and son and Miss Nora Matlock of Heppner, accompanied by Miss Blanche Wood and Johnny Muldrick of this city, arrived in town last Monday evening from Heppner.—Grant County News.

A GAZETTE representative visited the prosperous little city of Ione, Friday. Many new buildings have been built recently and several more are in course of construction. Ione is surrounded by a good country and will always be a good town.

Mrs. E. D. Bartholomew and daughter Miss Bonnie and son Earl, who have been visiting Mr. Herb Bartholomew and Judge Bartholomew, departed Wednesday morning for Trout Lake, Wash., and from there will go to the seaside. After a short sojourn at the coast, they will return to their home in St. Louis, Mo.

Harvest in Morrow county is now in full blast. Headers and threshers are now busy taking care of the grain crop. The yield will be below the average but the quality of wheat is better than last year, or in fact several seasons. A few places have yielded as high as 30 bushels to the acre in the vicinity of Ione.

Mr. Bert Bryant has gone to Rowena to accept a position as chief telegraph operator in the civil engineer's department of the O. R. & N. Co. This is a good position and one of much responsibility and Young Bryant is to be congratulated upon his success. It shows that steady and studious application to an object in life is sure to meet with reward.

Little Eva Morrison, of Heppner, spent several days visiting at the hotel this week. C. W. Ingraham was a Heppner visitor Friday. Mrs. Deaton and daughter Nellie visited Heppner last Friday.

Mrs. Ralph Brackett and daughter, Miss Egan, went to Heppner Wednesday, where they will visit until Saturday when they will return to their home at Portland—Ione Post.

The work of tearing down the old wooden building on Main street to make room for Frank Roberts' new stone building has been commenced. The new building 33x90 feet, two stories, will be built out of Morrow county stone which will be obtained near this city. The work will be pushed as rapidly as possible. The new structure will be a modern building and will be an ornament to the city.

NEW ROAD TO RITTER.

The New Road Will Be a Big Advantage to Ritter People.

The question of building a road from this city over the mountains to Ritter is now being agitated and solicitors are asking for funds to defray the expense. It is estimated that the cost will be about \$500. Already a good portion of this amount has been subscribed and the balance will be made up in a short time.

What is known as the Ritter country is a large territory and a rich and prosperous country located about 45 miles from Heppner, which is the nearest point with railroad facilities.

To get to Ritter from this place now freighters are compelled to go away around by Monument and Long Creek, which is about 100 miles. To go this round about way makes it easier for Ritter people to go to Pendleton, which is 80 miles, thus taking this business to Pendleton when it should come here if there was a good road, on account of the advantage in distance.

It will be a big saving for Ritter people to come to Heppner when this road is finished.

Improvements at State Fair Ground.

The State Board of Agriculture is making some wonderful improvements at the state fair grounds, and old timers will hardly recognize the place when they attend Oregon's greatest fair this fall. The old pavilion is being enlarged to double its size, and after the best exhibits ever seen in the state are arranged there will be ample room left for an auditorium, a thing that has been needed for a long time. A bran new up to date creamery building is being erected; also where the best dairy display ever made in the state will certainly be seen. The machinery hall is being enlarged, new cattle stalls, sheep pens, hog sty, and horse stables are being built. A cozy farm cottage, hay barn, and new side-walks are also on the list of improvements, and nothing will be left undone to accommodate the exhibitor and entertain the visitor at the state fair this fall.

Real Estate Transfers.

The following real estate transfers were filed with the county clerk the past week:

OREGON SURE OF PRIZES.

Judges Surprised at the Excellence of the Exhibit.

The preliminary work for awards at the Buffalo Exposition began last Tuesday, and exhibitors are awaiting the announcements. Oregon stands a good show to receive a liberal share of the prizes. The judges express great surprise at the excellent showing made by this state in all departments. Superintendent Dusch has worked early and late for several weeks getting every exhibit properly labeled. This meant the placing of several thousand labels in the Agricultural, Horticultural, Mining, Forestry and Educational buildings. Writing from Buffalo, Mrs. Edyth Tozier Weathered, one of the Oregon Commissioners says:

"Our cherries are being admired, and it is difficult to convince some that they are cherries and not plums. The fact that this fruit was shipped 3300 miles and had been 13 days off the trees created much interest, especially when they were still in good condition."

"The Dolly Varden and Rain, w. trout continue to be coveted by sportsmen. Fish Commissioner Van Dusen and the Rod and Gun Club have added a pleasing exhibit to the Oregon display."

"Many people are in position to assist the state by forwarding products that compliment the state, even though the producer or manufacturer has no need of advertising his goods for personal or commercial advantage. Too often those able to add to a general exhibit of the states resources stop and consider individual interests. In sending fruits, the packers should exercise great care and judgment."

"A few days ago the Oregon people were entertained at our department in the Horticultural building by Professor Van Deman, superintendent of the fruit and floral exhibits. We had most delicious pineapples from Florida, an extra fine variety; coconuts from Jamaica cottage, grape juice from New York, and apples from Illinois. The Oregon people have received many courtesies from other states. Many states have an allowance to be used as an entertainment fund, the practical citizens realizing that friendly social relations go a long way toward leaving favorable impressions of a state long after the size of potatoes, trees and other products has been forgotten."

"Quite a number of visitors from Oregon have registered at headquarters this week, each one being well pleased with the showing of our exhibits. No person can give our display a moment's consideration without feeling proud of his own state as compared with that of others. This time Oregon could have made a much grander display on a larger appropriation, yet the one collected and installed is deserving of much credit."

"The Pan-American Exposition in a thunder storm is not a lovable sight. The Oregonians who hardily appreciated it until all danger had passed. Streaks of lightning came straight down like heated iron being passed from the heavens, and the thunder was so loud that one could not hear another speaking three feet away. At the Temple of Music a very crowded house was listening to an organ recital when the storm began. At the first loud burst of thunder the electric lights went out, and with the forces of nature lighting the building with tremendous roar, there was a shriek and in a moment it seemed that the mass of people were on the verge of a panic. The organist started to play "Nearer My God to Thee," the choir began singing, here and there over the house the audience picked up a line, and in a few moments several hundred voices could be heard above the roar of the storm."

THE UNIVERSITY OF OREGON.

The University of Oregon, the State University, has had an exceedingly prosperous year. The successes in athletics have been only surface indications of the enthusiastic and loyal spirit of the students, and of a strong determination to put the University to the front and make it stand strongly for Oregon.

A better and truer indication of the prosperous condition of the University is the high standard of scholarly work done during the past year. The University of Oregon is fast becoming a true university and is doing a continually advancing grade of work. Indications of this are the winning of the debating contest with the University of Washington and the three University men, two graduates and one a graduate student to scholarships in great eastern universities where the competition is very heavy.

The orations on commencement and the graduating thesis required of every one receiving a degree, were of unusual merit.

The outlook for next year is bright. The departments of the University have been strengthened by the addition of seven new instructors, men of the highest scholarship and training. McClure Hall, the new laboratory for chemistry and mining is being fitted up at a cost of nearly \$7000 and will be one of the complete and best in the country. The new engineering and power plant will be in the process of erection and will greatly increase the facilities of the University in engineering. The University will then have eight good buildings, six of these brick.

The present year will see the largest increase to the library in the whole history of the University. Nearly 5000 volumes will be added by exchange, gift and purchase, and by 1902 the University will have the largest library for scholarly research in the state. The number of volumes will be by the end of 1901 about 12000 besides several thousand pamphlets.

A system of special lectures was inaugurated during the past year by which prominent men from different parts of the state were brought to Eugene to lecture on topics related to courses of instruction carried on at the University. The growth of the University in numbers has been somewhat remarkable. The total number of students for all departments at Eugene for the year 1900-01 was 181; for the year 1900-1901 it was 220 and for 1901-02 it was 262, or a gain on 100 per cent in two years.

The work of tearing down the old wooden building on Main street to make room for Frank Roberts' new stone building has been commenced. The new building 33x90 feet, two stories, will be built out of Morrow county stone which will be obtained near this city. The work will be pushed as rapidly as possible. The new structure will be a modern building and will be an ornament to the city.

Messrs. Price Florence, Marlatt Brook and Oscar Minor have contracted about 200 head of two and three year old steers, feeders, to Oscar Thomson of Butter Creek. Mr. Thomson, the Butter Creek stock man has a large ranch and plenty of hay and will feed the cattle for market. The price was 3 1/2 cents per hundred. Will Wattenburg, another Butter Creek stockman also purchased 60 head of two year old feeders from O. D. Justus, paying 3 1/2 cents per hundred.

Horse Shipments.

W. F. Hamilton shipped 17 head of horses to Portland, Friday last from this city.

On Tuesday there was another shipment of 300 head to South Omaha, Nebraska. The animals were in charge of E. P. Weir of Arlington. These horses all came from the John Day country and were owned by J. W. Gilman, Alex. Beard, W. W. Stiver and Joseph Frizzel.

They brought an average price of \$12 per head.
