Poison Oak Poison Ivy

are among the best known of the many dangerous wild plants and shrubs. To touch or handle them quickly produces swelling and inflammation with intense itching and burning of the skin. The eruption soon disappears, the sufferer hopes forever; but almost as soon as the little blisters and pustules appeared the poison had reached the blood, and will break out at regular intervals and each time in a more aggravated form. This poison will loiter in the system for years, and every atom of it must be forced out of the blood before you can expect a perfect, permanent cure.

SSS Nature's Antidote FOR Nature's Poisons,

is the only cure for Poison Oak, Poison Ivy, and all noxious plants. It is composed exclusively of roots and herbs. Now is the time to get the poison out of your system, as delay makes your condition worse. Don't experiment longer with salves, washes and soaps—they never cure.

Mr. S. M. Marshall, bookkeeper of the Atlanta (Ga.) Gas Light Co., was poisoned with Poison Oak. He took Sulphur, Arsenic and various other drugs, and applied externally numerous lotions and salves with no benefit. At times the swelling and inflammation was so severe he was almost blind. For eight years the poison would break out every season. His condition was much improved after taking one bottle of S. S. S., and a few bottles cleared his blood of the poison, and all evidences of the disease disappeared.

People are often poisoned without knowing when or how. Explain your case fully to our physicians, and they will cheerfully give such information and advice as you require, without charge, and we will send at the same time an interesting book on Blood and Skin Diseases.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Owing to the great number of buildings being constructed in Pendleton, contractors there are having trouble in securing enough carpenters to do the work. Ten or a dozen could secure permanent employment at once, it is said. The wages paid are $3 to $3 50 per day, according to proficiency.

The laws of health require that the bowels move once each day and one of the penalties for violating this law is piles. Keep your bowels regular by taking a dose of Chamberlain's Stomach and Liver Tablets when necessary and you will never have that severe punishment inflicted upon you. Price 25c. Tell a boy to do as he pleases and he will undo it without a murmur.

Worry often comprises a lot of fool things that never happen.

What most people want is something mild and gentle, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by Conser & Ayers, druggists.

A MINISTER'S GOOD WORK.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." For sale by Conser & Ayers, druggists.

If a man has a light heart the reflection will light up his countenance.

Govern your thoughts when alone and your tongue when in company.

"Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach," says O. P. M. Holliday, of Deming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water and he got better at once." Sold by Conser & Ayers.

Replies are not always answers.

Indolence is to the mind what rust is to iron.

Deliberate long before doing what it is impossible to undo.

"My baby was terribly sick with diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave immediate relief and a complete cure." Sold by Conser & Ayers, druggists.

WEEKLY CROP BULLETIN.

Portland, Aug. 12, 1901.

The past week has been dry, except during Wednesday local showers occurred in the southern and eastern sections of the State. These rains were very beneficial to the ranges and to root crops, but they were not general enough to wholly relieve the droughty conditions prevailing in that section, and more rain is still needed in all parts of the State for late crops. The maximum temperatures during the week in western Oregon ranged between 74 and 98 degrees, and the minimum temperatures between 50 and 61 degrees. In eastern Oregon the maximum temperatures ranged between 78 and 102 degrees, and the minimum temperatures between 48 and 72 degrees. The week, on the whole, was slightly cooler than the previous one, and generally favorable for the ripening of grain and fruit.

Thrashing is now in active progress in all parts of the State and the yields are generally turning out better than expected. Those reported this week averaged as follows: Washington county, wheat, 23 bushels, oats 37, rye 18. Yamhill county, wheat, 25 bushels, oats 22, rye 20. Marion county, wheat, 25 bushels, oats 45. Polk county, wheat 22 bushels, oats 35. Linn county, wheat 15 to 30 bushels, oats 15 to 45. Lane county, wheat 12 to 22 bushels, oats 22 to 40. Douglas county, wheat 22 bushels, oats 25 to 30, barley 27. Jackson county, wheat 12 to 20 bushels, oats 20 to 30, barley 20 to 25. Sherman county, wheat 15 to 30 bushels. Umatilla county, wheat 35 to 40 bushels, barley 50 to 65.

Hops are a little backward, but the crap promises to be an average one in quantity and above the average in quality. The lice are doing no damage and the only complaint made is that the soil is too dry for rapid growth. The potato crop is being shortened somewhat by drouth, but no injury has so far occurred through insect pests, and with good rains in the near future the potato crop will be nearly an average one. Corn shows slight improvement, but it is still backward. Range grass is getting poor and stock continues to lose in flesh.

Fruit of all kinds is making good advancement, except that in Marion and Benton counties the Italian prunes are reported to be dropping more than usual. Apples are doing nicely.

BOSTON WOOL MARKET.

Boston, July 6—There was a good business recorded in the wool market this week. The demand for wool continues good, and the tone is strong. The market continues to show an absence of speculative feeling, sales made being to supply the present need of manufacturers. The supply of wool available is large, the curtailed consumption by the mills during the last week allowing considerable surplus to accumulate. The activity of the mills during the past few weeks has cut into the surplus, but, with the new clip coming upon the market, there is no scarcity of general supplies. Quotations:

The Grand Ronde River is lower at present than it has been for many years. Fishermen declare that there is not enough water above Hilgard for a fish to swim in. At Oro Dell the electric light plant has been operated for several days entirely by steam, in spite of the fact that splash boards have been put in to catch the overflow.

Some five years ago Mr. Osborne, who lives near Dallas, killed a wild goose and found two large grains of wheat in its craw. He planted them and replanted the product until now he has 2½ acres of fine looking grain. The heads are extra long and the grains large, the yield being perhaps one-third more than ordinary wheat. He has no name for the new variety, but believes it to be a prospective big thing.
