THE QUESTION OF LAND MONOPOLY.

An Able Article From the columns of the

Johnstown Democrat.

The Philadelphia Times is to be

credited with a remarkable discovery.

It says:

"The Henry George theory is only a

special form of socialism. George was

a land socialist. The ordinary social-

ist wants to abolish capital and the

capitalist of wealth. The Georgeist

wants to expropriate the land and

to do away with rent. Each would

only the state, and would establish

in place of the private individual

now paying on society, helping to

make the rich richer and the poor

poorer."

"The editorial fault with this theory

is that the same as that which in-

validates socialism. In production

three factors must cooperate, capital,

labor and land, and the possessor

of each must share in the product.

It is not the state, but the possessor

of the land, who is the capitalist

and the state, not the possessor

of the land, who is the capitalist

and the state, not the possessor

of the land, who is the capitalist

and the state, not the possessor

of the land, who is the capitalist

WHAT TO DO WITH ANARCHISTS.

Baltimore Herald.

Their presence in

this country is a cancerous growth

upon our republican form of govern-

ment, and the most drastic measures

must be taken to remove them. It will not

be enough to banish them from the

country, for they will return.

They will return, for they are

not a foreign element, but a native

one. They are the product of our

own civilization, and they will

continue to grow as long as we

allow them to exist.
