## GOVERNOR BEER IN OHIO

Speech Received With Great Applause by 6000 People.

## AUDIENCE WAS CAPTIVATED

Senator Hanna Asked That Well Enough be Let Alone—Cost of Public Schools in Oregon.

Waverly, O., Oct. 22.—When Governor Beer of Oregon, said this afternoon, in substance, that "Democrats are worse than trusts," the 6000 people who had assembled to hear him and Senator Hanna nearly went wild. It was one of the first catchy utterances of the political season, and is likely to be taken up as a campaign cry. Before he had spoken two minutes, the big and brilliant Oregon Executive had his audience completely captivated and his speech was frequently interrupted by applause.

Senator Hanna emphasized the importance of the present campaign both as regards the state and the nation. He said the country is now prosperous as it never has been before, and that it would be best to let things alone. He pleaded for republicans to support the McKinley policies and triumphantly to reject Governor Nash and return Foraker to the Senate.

## Cost of Public Schools in Oregon.

Salem, Ore., Oct. 22.—The total expenditures for public education in Oregon in the last school year amounted to nearly \$1,000,000. The expenditures for what are called common schools and high schools aggregated \$1,400,000, and to this should be added about \$80,000 expended for the support of educational institutions of higher grade, or open only to persons of certain classes, such as the blind, deaf, etc. The expenditures for the year ending in March, 1901, show a decrease of \$137,000, as compared with previous year.

## Eastern Oregon Mining Notes.

W. M. Miller and W. T. Young have secured a controlling interest in the Brazos mine in the Verde district at a consideration of \$30,000, or thereabouts. The property is equipped with a ten-stamp mill, but the shaft is not deep enough yet to give sufficient water supply.

C. C. Nepple has bonded two claims in the Greenhorn district. The consideration is about \$80,000 on a long time bond. Three tunnels and two shafts have opened the property up to a considerable depth, showing the vein to be about six or seven feet wide, and in the lowest tunnels a value of from \$50 to \$100 per ton is shown.

E. J. Foster, W. F. Shaler, M. D. Winder and L. B. Hammond, acting for the Hoosier Roy company, of Spokane, purchased the Prairie Diggins mine, near Prairie City, for which they paid \$60,000. The property has a five-stamp mill on it, with which about \$2500 per month is produced. The new owners will install a 20-stamp mill at once and put a large force of men at work.

## Resolutions of Condolence.

Whereas it has pleased the supreme commander of the universe to take from our midst Comrade Samuel Lettler by death, now, therefore, be it

Resolved by Rawlins Post, No. 31, G. A. R., of Heppner, Oregon, that in the loss of Comrade Lettler, Rawlins Post has lost a good and faithful comrade and his family a loving husband and father. And be it further

Resolved that Rawlins Post hereby extends the sympathy of its comrades to the stricken wife and children of our comrade. And be it further

Resolved that a copy of these resolutions be sent to the wife of our comrade and that a copy be given to each of the Heppner papers for publication.

G. W. RAY,  
G. W. SMITH,  
G. W. SMITH,  
G. W. SMITH,  
J. L. HICKLEY,  
Committee.

In speaking of the prize Oregon grain exhibit, Commissioner H. E. Bosch says: "The highest award for our grain exhibit is especially gratifying, as it consists exclusively of actual farm products furnished by 63 farmers, consisting of 742 bundles of grain and 28 varieties, 287 bundles of grass and forage plants, and 211 varieties. The exhibits of all other states are from agricultural colleges and experimental stations. In the mineral department gold medals were only given to foreign countries, while silver medals were the largest awarded by American exhibitors. Oregon securing two of the three, going to the Pacific coast, one for the best exhibit of gold nuggets, Nevada secured the other on miniature exhibit. A distribution shown is undoubtedly a desire on the part of the exposition management to express their appreciation of the friendly spirit displayed by foreign countries."

## Murderers Hate Him.

Even by the other members in "Condemned row" at Auburn prison, Oregon, the assassin of President McKinley is despised and hated with an intensity not easy to understand. Lonely and deserted, the wretch has begun to ask for books from the prison library.

One of the other convicts—Egnor, who killed a keeper several months ago—has planned an unpleasant surprise for Mr. McKinley's slayer. He has obtained a portrait of the president, which he has framed and draped in mourning. He proposes to hang the picture, face outward, at the cell door, so that the murderer must see it as he goes by on the dead march October 28.

When the assassin of the president was received at the prison, every man in the institution knew of his conviction and sentence through the system of silent communication by which news permeates the place with astonishing rapidity. The unanimous sentiment of the convicts was that if the assassin were handed over to them they would satisfy vengeance in an unmistakable way. The men in stripes, murderers and all, hate the poor fool who destroyed the nation's ruler, and they would like to put him to death in awful agony. The felons in stripes loathe him and do not regard him as a wrongdoer in the same class with themselves.

In commenting on the attitude of the prisoners to the assassin, one of the officials said: "If they get hold of the assassin they would tear him to pieces. I do not believe there is any place in the world where he is hated more bitterly than here among the inmates of this prison. The inmate want the world to know that they are no such criminals as he. I might explain better the difference by saying that if the inmates of this prison were to be organized into a regiment and marched forth to battle for the flag, they would fight to the last ditch, fight gloriously, fight like devils and die like heroes."

"If 1200 anarchists were to be marched forth, they would spit at the flag and die like dogs. That is the difference. No one feels it more keenly than do the prisoners. You know it was the Duke of Wellington to whom the saying is attributed that if he were asked where to look for the best soldiers, he would answer, in the prisons and the penitentiaries, among the sinners and the scoundrels."

In the chamber of the condemned, where four other than the assassin await execution, the murderer of the president is especially despised. The last to arrive, he will be the first to leave.

The assassin's cell is No. 4, between those of Egnor and Krist. When he was dragged howling into the sombre place, Egnor cried out roughly to him, "Ah, stop your blubbering!" Krist tauntingly called the whining assassin's attention to the entrance to the execution room, called the door of doom. It is directly opposite his cell. "Look at it," said Krist, "you'll go through there and you'll never come back. If you enter you'll hear us cheer as you go."

Philip Campbell, of New York, who has bonded the old Flagstaff mine, a few miles southeast from Baker City, for the reported sum of \$120,000, has made payment and will shortly put the mine into active operation.

The Conger, near Granite, is to resume at an early day, a strong company having been organized in Spokane recently to take over the property, which consists of four claims and a fine reduction plant, including a 200-ton cyanide mill and other modern machinery. The property is developed by over 1500 feet of work, nearly all of which is on the vein. Values vary greatly, but the average is about \$12 per ton.

## SCOTT'S EMULSION

OF COD-LIVER OIL WITH HYPOPHOSPHITES

should always be kept in the house for the following reasons:

FIRST—Because it is the most perfect and purest form of cod-liver oil.

SECOND—Because it is the most palatable and easiest to take.

THIRD—Because it is the most effective and most reliable.

FOURTH—Because it is the most economical and most practical.

No house should be without it. It can be taken in summer as well as in winter.

SCOTT &amp; BOWNE, Chemists, New York.

## The Finest Cake

Is made with Royal Baking Powder. Always light, sweet, pure & wholesome.

## INDIANS IN NORTHWEST

Little Change in Numbers in Last 10 Years.

## TRAIN WRECK IN IDAHO

Went Down an Embankment 20 Feet—Engineer and Fireman Killed—No Passengers Injured.

WASHINGTON, Oct. 18.—Based on figures gathered by the census office last year, the American Indian is no disappearing race so rapidly as some of his sympathizers would have us believe. The facts and figures speak forcefully, but truthfully, and show that while we had 275,000 Indians in 1890, their total number has decreased less than 5000 in 10 years, for in 1900 there were 269,700 red men counted by census enumerators.

The Indian population of Oregon and Idaho during the past 10 years has undergone but slight changes in point of numbers, although in Washington there has been a falling off from 11,181 to 10,479. There are now 4651 Indians in Oregon, as against 4971 in 1890, and in Idaho there are 4226, a gain of three for the 10 years.

At the same time there is a marked decrease in the number of Indians taxed in these three states. In 1890 there were in Oregon 1258 Indians taxed, and 3713 not taxed. In 1900, the whole number, 4651, are reported as taxed. In Washington, 3053 Indians were taxed in 1890, and 7520 not taxed. In the last census year, the number taxed increased to 7508 and those not taxed dwindled to 2531. Again in Idaho, the taxed Indians in 1890 were 159, and in 1900 they were 1929. Those not taxed were 4964 in 1890 and 2297 in 1900.

## Train Wreck in Idaho.

POCAHONTE, Idaho, Oct. 22.—Oregon Short Line west-bound fast mail No. 1 was wrecked four miles east of McCammon at 3:20 this afternoon, and Engineer Purtell and Fireman Paul Spindel, both of Pocahonite, were instantly killed. The engine climbed the rail on a filled-in curve and went down the embankment, 20 feet, taking the mail baggage and buffet cars with it. The remainder of the train remained on the tracks. It is believed that Purtell and Spindel jumped from the train and were buried in the wreckage. The mail clerks and the express messenger were slightly bruised. No passengers were injured. Purtell leaves a widow and three children. The dead engineer had been in the employ of the Oregon Short Line for 19 years.

Nearly 2,000,000 pounds more of wool was produced in Oregon this year than last, the total 1901 clip, according to the best information obtainable, reaching about 19,700,000 pounds, says the Telegram. Eastern Oregon alone produced 18,000,000 pounds this year. The Willamette valley produced about \$1,500,000 pounds and the Umpqua valley 200,000.

Last year's total clip was approximately 17,500,000 pounds. This year Eastern Oregon alone produced this amount, being an increase of 2,000,000 pounds over the clip of last year. The Willamette valley clip was this year about half a million pounds larger than last year, while the Umpqua clip this year shows a decrease as compared with the clip of last year. The quality of the clip of Eastern Oregon is exceptionally fine this year. The same cannot be said of the Willamette valley clip, which, if anything, is coarser and of a poorer grade than last year. The clip of the Umpqua valley of this year is also of a poorer grade than last year. The clip of the Willamette valley was about 100,000 pounds more than last year. The clip of the Umpqua valley was about 200,000 pounds more than last year. The clip of the Willamette valley was about 1,000,000 pounds more than last year. The clip of the Umpqua valley was about 2,000,000 pounds more than last year. The clip of the Willamette valley was about 3,000,000 pounds more than last year. The clip of the Umpqua valley was about 4,000,000 pounds more than last year. The clip of the Willamette valley was about 5,000,000 pounds more than last year. The clip of the Umpqua valley was about 6,000,000 pounds more than last year. The clip of the Willamette valley was about 7,000,000 pounds more than last year. The clip of the Umpqua valley was about 8,000,000 pounds more than last year. The clip of the Willamette valley was about 9,000,000 pounds more than last year. The clip of the Umpqua valley was about 10,000,000 pounds more than last year. The clip of the Willamette valley was about 11,000,000 pounds more than last year. The clip of the Umpqua valley was about 12,000,000 pounds more than last year. The clip of the Willamette valley was about 13,000,000 pounds more than last year. The clip of the Umpqua valley was about 14,000,000 pounds more than last year. The clip of the Willamette valley was about 15,000,000 pounds more than last year. The clip of the Umpqua valley was about 16,000,000 pounds more than last year. The clip of the Willamette valley was about 17,000,000 pounds more than last year. The clip of the Umpqua valley was about 18,000,000 pounds more than last year. The clip of the Willamette valley was about 19,000,000 pounds more than last year. The clip of the Umpqua valley was about 20,000,000 pounds more than last year. The clip of the Willamette valley was about 21,000,000 pounds more than last year. The clip of the Umpqua valley was about 22,000,000 pounds more than last year. The clip of the Willamette valley was about 23,000,000 pounds more than last year. The clip of the Umpqua valley was about 24,000,000 pounds more than last year. The clip of the Willamette valley was about 25,000,000 pounds more than last year. The clip of the Umpqua valley was about 26,000,000 pounds more than last year. The clip of the Willamette valley was about 27,000,000 pounds more than last year. The clip of the Umpqua valley was about 28,000,000 pounds more than last year. The clip of the Willamette valley was about 29,000,000 pounds more than last year. The clip of the Umpqua valley was about 30,000,000 pounds more than last year. The clip of the Willamette valley was about 31,000,000 pounds more than last year. The clip of the Umpqua valley was about 32,000,000 pounds more than last year. The clip of the Willamette valley was about 33,000,000 pounds more than last year. The clip of the Umpqua valley was about 34,000,000 pounds more than last year. The clip of the Willamette valley was about 35,000,000 pounds more than last year. The clip of the Umpqua valley was about 36,000,000 pounds more than last year. The clip of the Willamette valley was about 37,000,000 pounds more than last year. The clip of the Umpqua valley was about 38,000,000 pounds more than last year. The clip of the Willamette valley was about 39,000,000 pounds more than last year. The clip of the Umpqua valley was about 40,000,000 pounds more than last year. The clip of the Willamette valley was about 41,000,000 pounds more than last year. The clip of the Umpqua valley was about 42,000,000 pounds more than last year. The clip of the Willamette valley was about 43,000,000 pounds more than last year. The clip of the Umpqua valley was about 44,000,000 pounds more than last year. The clip of the Willamette valley was about 45,000,000 pounds more than last year. The clip of the Umpqua valley was about 46,000,000 pounds more than last year. The clip of the Willamette valley was about 47,000,000 pounds more than last year. The clip of the Umpqua valley was about 48,000,000 pounds more than last year. The clip of the Willamette valley was about 49,000,000 pounds more than last year. The clip of the Umpqua valley was about 50,000,000 pounds more than last year. The clip of the Willamette valley was about 51,000,000 pounds more than last year. The clip of the Umpqua valley was about 52,000,000 pounds more than last year. The clip of the Willamette valley was about 53,000,000 pounds more than last year. The clip of the Umpqua valley was about 54,000,000 pounds more than last year. The clip of the Willamette valley was about 55,000,000 pounds more than last year. The clip of the Umpqua valley was about 56,000,000 pounds more than last year. The clip of the Willamette valley was about 57,000,000 pounds more than last year. The clip of the Umpqua valley was about 58,000,000 pounds more than last year. The clip of the Willamette valley was about 59,000,000 pounds more than last year. The clip of the Umpqua valley was about 60,000,000 pounds more than last year. The clip of the Willamette valley was about 61,000,000 pounds more than last year. The clip of the Umpqua valley was about 62,000,000 pounds more than last year. The clip of the Willamette valley was about 63,000,000 pounds more than last year. The clip of the Umpqua valley was about 64,000,000 pounds more than last year. The clip of the Willamette valley was about 65,000,000 pounds more than last year. The clip of the Umpqua valley was about 66,000,000 pounds more than last year. The clip of the Willamette valley was about 67,000,000 pounds more than last year. The clip of the Umpqua valley was about 68,000,000 pounds more than last year. The clip of the Willamette valley was about 69,000,000 pounds more than last year. The clip of the Umpqua valley was about 70,000,000 pounds more than last year. The clip of the Willamette valley was about 71,000,000 pounds more than last year. The clip of the Umpqua valley was about 72,000,000 pounds more than last year. The clip of the Willamette valley was about 73,000,000 pounds more than last year. The clip of the Umpqua valley was about 74,000,000 pounds more than last year. The clip of the Willamette valley was about 75,000,000 pounds more than last year.
