PLANS ACCEPTED

For Morrow County's New Court House—Cost Not to Exceed \$20,000.

The Morrow county court met in adjourned session at the court house Thursday last week, Judge A. G. Bartholomew and Commissioners Ed. C. Ashbaugh and J. L. Howard were present.

The court met for the purpose of investigating the different plans and specifications that were offered by architects for the new court house.

The plans were taken under advisement and the court decided to accept the plans of Edgar M. Lazarus of Portland, and he was awarded the contract for furnishing the plans and supervision of construction of the building.

The contract specifies that the architect shall receive 3 1/2 per cent of the cost of construction of the building and improvements in accordance with the contract.

On Friday the court held another short session to finish up the business. The session was taken up mainly with the matter of plans for laying off the grounds for the new building, which will be superintended by County Surveyor J. J. McGee.

The following bills were ordered paid: Ed. C. Ashbaugh, com salary \$47 20; J. L. Howard, " " " " 10 00; Benn. Mathews, jury acct. " " 8 20; J. W. Matlock, stationery acct. " " 21 50.

Mr. Lazarus, the Portland architect, who was awarded the contract to furnish the plans, will furnish a working plan for the grading of the site. The \$2000 which was donated by the people will be used for this purpose.

The new building will be nearer the street than the old one and will be two stories where the old building now stands and the street. The architect guarantees that good and substantial bids shall be received at less than \$25,000, and this figure will also include a clock and stoking bell to cost from \$1000 to \$1050, and all necessary steam heating apparatus. There will be a good, strong jail attached with four cells, and two good fire-proof vaults 14x20 feet.

The plans also include all counters and platforms throughout the building. The main building will be 52 feet 6 inches in width by 82 feet in length. From the level of the street to the top of the dome will be 80 feet.

The building will be constructed of blue basaltic rock obtained from quarries near this city, and the trimmings will be of red or light sandstone.

At the March term of court it will be determined when work will be commenced on the building.

Drying preparations simply developed early; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c size. Ely Brothers, 56 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. Reproaches itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Care. Send for circulars, Free.

The Elks' Ball.

Heppner Lodge No. 358, B. P. O. E., gave their annual ball in the opera house last Saturday, which was well attended. The committee on decorations had the hall beautifully decorated. On the stage there was a forest of fir trees with a large elk standing in front, which was very natural. On one side of the opera house a large flag was hung, and streamers of purple and white were strung the full length and across the hall, making in all a very pretty effect.

The dance commenced promptly at 8 p. m., and it was noticeable that all present came with the intention of having a good time and were not disappointed, as the Elks are noted for their sociability.

At 12 o'clock lunch was announced at Roberts' hall and there was a great rush for fear that there would not be room for all, but this was unnecessary for two tables the full length of the hall were spread with everything that could be desired in the way of eatables. J. A. Hart delivered the toast and all the Elks drank to the health of the absent brothers.

Messrs. Wickersham and Smith played a trombone and cornet duet, which was well received and appreciated.

We have heard many comments in regard to this occasion and all seem to have been pleased and say the Elks are royal entertainers.
