FURNISH FOR GOVERNOR
Williamson Nominated by Acclamation for Congress.
MOODY WAS NOT PRESENTED
G. W. Phelps of Heppner was Chairman of Congressional Convention—Teague Renominated.
Just before going to press news was received by telephone that V. J. Furnish was nominated for Governor on the first ballot, at the Republican State Convention.
J. N. Williamson was, Tuesday, nominated by acclamation, for Representative from the Second-Congressional District, by the Republican district convention. There was no opposition, the supporters of M. A. Moody, Mr. Williamson's only opponent, having decided not to present his name.
G. W. Phelps of Heppner, was chosen chairman of the Congressional Convention, by acclamation.
The proceedings of the convention were harmonious.
Teague Renominated.
Representative Thomas H. Teague was unanimously renominated by the Republican Congressional Convention for the First Oregon District at Roseburg, Tuesday. Resolutions were passed urging Congress to pass a bill granting pensions to Indian war veterans, and against the leasing of the public domain.
Miles to Stay Isolated.
Washington, March 31.—It is stated that General Miles intends to preserve a "splendid isolation" in his future relations with the Administration. The attitude of the President and Secretary of War is not criticized in the main, although it is suggested that the strictures are rather harsh. One thing is sure, if General Miles violates any of the military proprieties in the future he will receive more than a criticism. He will be immediately retired. It is a well understood fact that Roosevelt, when he became President, was well disposed toward Miles, but he soon realized that he could not support the Commanding General unless he should turn down his Secretary of War. After an investigation of all conditions, he determined to support the Secretary rather than the General, but he has said that he might be able to get along without any rupture with the General, as McKinley did. His rebuke of Miles in relation to the Schley controversy is regarded here as rather uncalled for, but it is well understood that he could by no possible means support General Miles in his recent contention. General Miles, in taking a strong position against the establishment of military posts near large cities on the ground that it would tend to overawe the laboring classes, and also the reversal of his opinion on the canteen question, in both of which instances he opposed the Secretary of War and the Administration, was regarded as making a bid for the Presidency.
The General's personal friends deeply regret the situation in which he finds himself placed and feel that the President has been unduly harsh.
Rates Again Reduced.
From all points east.—Before you make definite arrangements for that trip east let us quote you rates via the Illinois Central Railroad. Our rates are the lowest to be had, and it will pay you to write us. If you haven't time to communicate with us tell the agent from whom you purchase your ticket that you want to travel by the way of the Illinois Central, and you will never regret the trip.
If any of your relatives or friends in the east are coming west while the low rates are in effect write us about them, and we will see that they get the lowest rates with the best service.
Through tourist cars, personally conducted excursion cars, free reclining chair cars, in fact all the latest conveniences known to modern railroading.
For particulars regarding rates, time, service, stop overs, different connections and routes, etc., etc., call on or address
R. H. TATEWELL, Com'l. Agt.
142 Third Street, Portland, Ore.

According to a report just issued by the Census Bureau there were 33,025 saw mills gnawing the vitals out of the American forests in the year 1900. An aggregate capital of \$611,611,524 is invested in these establishments. The latter are owned by 43,322 persons. Employment is given by them to 283,260 wage-earners, drawing \$104,640,561 in wages, and to 12,530 officials, clerks etc., drawing salaries amounting to 11,260,608. Miscellaneous expenses amount to \$17,731,519, and materials cost \$317,923,548. The total value of the products is placed at \$566,832,984. But the loss to this and future generations through the denudation of the forest lands is beyond computation.
The O. R. & N. now has en route ninety-six miles of 80 pound steel rails, to be used in relaying track between Umatilla and Huntington. These rails are thirty-two feet in length, three feet longer than those heretofore in use, which is considered an economy. To lay a mile of track with rails weighing eighty pounds to the yard requires a fraction more than 115 tons of steel. Something more than 12,000 tons will be required for ninety-six miles, or between thirty and forty trainloads. All these rails will be laid in the coming season, largely on the mountain divisions, in continuance of the policy of bringing the O. R. & N. railroad to the highest state of working efficiency.—Dalles Chronicle.
Quite a number of stock cattle are being offered for sale in the vicinity of Ritter. Some entire bands are being offered, while others are desirous of reducing only. The stockmen are becoming aware of the fact that the time is not far distant when stock will have to be kept up in pastures entirely. It is reported that more than double the usual amount of cattle from adjoining counties will be brought into Northern Grant for summer range during the coming season. Reports from Desolation say that country is being rapidly taken up, and with what is being fenced up in this vicinity, our outside range is becoming limited.—Long Creek Ranger.
Articles of incorporation of the Waneoma Manufacturing Co. of Hood River, have been filed with the county clerk of Wasco county. The purpose of the company is to engage in the manufacture of wood and lumber, acquire title to timber lands, build roads, etc.
The entire village of Halberton, N. J., was sold by the Sheriff the other day for the paltry sum of \$1000. The village was started in 1893 as a cooperative colony by Russian Jews from New York, but it proved a failure. The property disposed of at Sheriff's sale consisted of 5000 acres of land, 200 houses and a large factory building.
A DOCTOR'S BAD FLIGHT.
"Two years ago, as a result of a bad cold, I lost my voice," writes Dr. M. L. Seabrook, of Hebron, Ohio, "then began an obstinate cough. Every remedy known to me as a practicing physician for 35 years, failed, and I daily grew worse. Being urged to try Dr. King's New Discovery for Consumption, Coughs and Colds, I found quick relief, and for last ten days have felt better than for two years." Positively guaranteed for Throat and Lung troubles, by Stearns Drug Co. 50c and \$1.00. Trial bottles free.

ROYAL Baking Powder
Makes the bread more healthful.
Safeguards the food against alum.
Alum baking powders are the greatest menaces to health of the present day.

Reports from flockmasters in Idaho are all to the effect that sheep are looking well, having passed the winter in good flesh and free from disease of any kind. During the past three weeks the flocks have been turned out to graze. Shearing has already begun in the vicinity of Boise, with prospect of a larger and better clip than last year. The bucks are taken first. Reports thus far indicate the average buck fleece weighs 15 pounds, even at this early date of shearing. The shearing of ewes will follow.
At points in Wasco and Crook counties, there are for sale between four and five thousand ewes, comprising two-year-olds and from that to six and past, all carrying lambs due to arrive in April, also between 1,200 and 1,500 lambs, ewes and wethers—Merinos and Srophshires.
George Young & Son have a yearling Lincoln lamb which was raised on whole milk, which weighed when five months old, 180 pounds.
The Harney County Stockman's Association, in a protest against the Millard land leasing bill, investigated the condition of land holdings in that county: "Harney county has an area of 10,504 square miles, or 6,730,160 acres, of which, the assessment-roll for 1900 shows 671,492 acres to be deeded. The Williams Valley and Cascade Mountain Wagon Road Co. owns 264,755 acres; the French Glenn Live Stock Co. 142,071 acres, and the Pacific Live Stock Co. 82,689 acres—a total of 449,516 acres owned by three California corporations—nearly three fourths of the deeded land of the county. Of the remainder, the Oregon and California Land Co. owns 18,481 acres; the Oregon Stock and Butchering Co., 20,232 acres; Hardin & Riley, 8,621 acres, and the estate of J. Devine, 12,569 acres. This leaves but little more than one-sixth of the deeded land of the county in the hands of farmers and stock raisers of limited means."
Morris & Julian of Sisters, have sold out their sheep business, consisting of 8000 head of sheep and 1600 acres of land, to the Pilot Butte Land & Live Stock Company, of Prineville, the principal stockholders of which are Warriner & Thompson. Mrs. W. P. Morris of The Dalles, a sister of the late A. J. Friday of Cross Keys, is the senior member of the firm of Morris & Julian.—Antelope Herald.
A meeting of the Oregon Wool Growers' Association Executive Committee has been called to convene here. (Antelope Herald.)

NOTICE TO SHEEPMEN.
We the undersigned, members and residents of Grant county, situated in the Green Horn mining district, do solemnly refuse to let sheep graze on said ground.
