Frogs and the Telegraph.

One of the great enemies of the overland telegraph line in central Australia is the common green frog. In order to save the insulators from being broken by lightning they are provided with wire "droppers" leading round them at a little distance to conduct on to the iron poles in case of need. The frogs climb the poles and find the insulators cool and pleasant to their bodies, and fancy that the "dropper" is put there to furnish them with a back seat. After a nap they yawn and stretch out a leg until it touches the pole—result, sudden death to the frog, and as the body continues to conduct the current to earth we have a paragraph in the papers to the effect that "in consequence of an interruption to the lines probably caused by a cyclonic disturbance in the interior, we are unable to present our readers with the usual cables from England."

SAVED FROM AN AWFUL FATE

"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa., "I was so low after six months of severe sickness, caused by Hay Fever and Asthma, that few thought that I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For desperate throat and lung diseases it is the safest cure in the world, and is infallible for coughs, colds and bronchial affections. Guaranteed bottles 50c and $1.00. Trial bottles free at Slocum Drug Co.

Strawberries in the vicinity of Lebanon, this year are unusually cheap. Heretofore berries have never sold for less than 10 cents per gallon in the patch, but this year one grower put the price down to 5 cents per gallon, when one of his competitors immediately dropped to 3 cents. The berries this year are not up to the standard, on account of the late spring.

VIRULENT CANCER CURED.

Startling proof of a wonderful advance in medicine is given by druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at Slocum Drug Co's store.

Nine bids for the building of the Riparia-Lewiston line were received and opened by the management of the O. R. & N. Company, Tuesday. These cover the work of the entire line. No awards were made and none will be made for a day or two at least. Something in the neighborhood of $1,000,000 will be involved in the improvement.

A LIBERAL OFFER

WEEKLY CROP BULLETIN.

Portland June 24, 1902.

The past week has been dry; its first few days were unseasonably cool and light frosts occurred in many sections of the state. The frosts did no harm to the staple crops, but some tender garden truck was slightly injured by them. During the middle of the week it was unseasonably warm, especially in the western half of the state, and the soil dried out rapidly.

Correspondents generally report that while the crops have made rapid advancement and have not been injured by drouth more rain is needed.

The maximum, or day temperatures during the week in Western Oregon ranged between 62 and 88 degrees and the minimum, or night temperatures between 42 and 70 degrees. In Eastern Oregon the maximum temperatures ranged between 58 and 88 degrees and the minimum temperatures between 36 and 70 degrees, and the week as a whole, while the warmest one of the season, was not sufficiently hot to injure wheat.

Fall wheat continues filling nicely and the bulk of the crop is now too far advanced to be injured by hot winds. Springsown grain is making excellent progress. The grain aphis is reported as having done some injury to fall wheat in portions of Linn county, but all crops so far this year have been unusually free from insect pests. Oats are heading rather short in some sections of the Willamette valley. Barley is beginning to ripen and turn yellow.

The first crop of alfalfa has been harvested and the second crop is growing nicely. A large amount of clover was cut and safely secured during the week. Pastures and range grass are drying up, but the condition of stock is excellent. Corn, hops, potatoes, onions, gardens, and sugar beets, continue doing well.

The weather has been favorable for fruit of all kinds, and the only complaints this week are from Douglas county, where it is reported that peaches are dropping badly. Strawberry shipments from Hood River have nearly ended.

A WOMAN'S RISK

As a matter of fact there is greater risk and a more serious one, than a woman's courage and a man's ability to surmount. But she must also work under conditions of which a man knows nothing. Many an accident to women accounts must be attributed to the sudden weakness to which all women are subject at certain times.

Dr. Pierce's Favorite Prescription heals the womanly diseases which cause weakness. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"With pleasure I write to-day in praise of Dr. Pierce and his medicines," says Miss Mary Cornelius Addison, Lawrence Co., Penn. "Was troubled with female disease in the back of my head, but my self could not lie to rest and I would have to sit up, and then I would have such pains from my waist down I could scarcely raise up. My feet and ankles would feel almost like ice. Since taking Dr. Pierce's Favorite Prescription I can sleep well all night. Could hardly drag around before I took your medicine and now can do my housework and help my father in the field. Words cannot express the thanks I owe to Dr. Pierce."

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Common Sense Medical Adviser, containing more than a thousand large pages, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.
