Poor Richard Says:

"The worst wheel of the cart makes the most noise."

We have often heard it said in defence of poor printing that it attracts attention.

Attracting attention is only a part of its mission.

Printing that will do you good should attract favorable attention.

There are some things which are better overlooked.

The kind of commercial printing which a great many merchants are willing to use belong to this class.

You want your printing to attract attention not by its defects but through its merits.

It should be so good, so perfectly suited to its purpose that it will attract attention only through the clean, clear and satisfactory way in which it delivers its message.

This applies just as much to the printing you put upon the head of your letters, statements and things of that kind as it does to the printing used in a pamphlet, booklet, folder, circular or card.

Whatever is printed is printed to be read.

The best printing is none too good for your purpose if your business depends upon the opinion of other people.

If you wish to practice what this sermon preaches, let us see you at our office.

SHEEP NOTES.

The movement of Arizona sheep is now beginning to be on in full swing.

Three carloads of spring lambs were shipped to Chicago from the Ketchum stock yards, in Idaho, June 22. It goes on record as the earliest shipment of lambs from Idaho to eastern merchants. No previous shipments have ever been made before the middle of July.

The opening of the northern Montana wool market shows prices from two to four cents higher than last year. Eighteen-cent wool on the Great Falls market seems to be almost a certainty, and 19 cent wool is probable. Such a showing is better than the wool men of northern Montana would have expected last year. The first wool sold was that of the "trailer" band belonging to J. R. Long G. Co. of Great Falls, and the price paid was 16 cents. The sheep were mostly yearlings and had been started from Great Falls several months ago, driving east. At the Long shearing pens near Glasgow the band was shorn and will be shipped from that point on to the feeding farms of the firm in Illinois and south St. Paul. There were 45,000 fleeces in the lot and the weight was 300,000 pounds. The Long yearling band was driven last year the same as this and the clip was sold for 14½c., though later in the season than the present sale and the first bid made upon the Great Falls market last year was 12 cents so that the opening gun in northern Montana is four cents higher than the first bid received at the opening of last season and 7½ cents higher than was paid for the same wool class last year.

Wils Norred, the well known cattle buyer from Dakota, is in these parts again buying yearling and two year-old steers, for which he is paying $19 and $27 respectively. E. E. Mathews is out in the Mitchell section buying for Mr. Norred, and Henry Heidtman is out in the same section buying for Tom Rhea of Heppner.—Fossil Journal.

Star Route Box Delivery.

Notice is hereby given to the public that the contracts in effect July 1, 1902, for the performance of mail service on the star routes in the states and Territories hereinafter named provide that, in addition to carrying the mails to the various post offices, the carrier will be required to deliver mail into all boxes and hang small bags or satchels containing mail on cranes or posts that may be erected along the line of the route, under the following regulations of the department:

Any person living on or near the route and not within the corporate limits of any town or within 80 rods of any post office, who desires his mail deposited at a given point on the line of the route by the carrier may provide and erect a suitable box or crane on the roadside, located in such manner as to be reached as conveniently as practicable by the carrier without dismounting from the vehicle or horse, and such person shall file with the postmaster at the post office to which his mail is addressed (which shall be one of the two post offices on the route on either side of and next to the box or crane) a request in writing for the delivery of his mail to the carrier for deposit at the designated point, at the risk of the addressee. The small bag or satchel above described, as well as the box or crane, must be provided by the person for whose use it is intended without expense to the department.

It shall be the duty of the postmaster at every such post office, upon a written order from any person living on or near the route, to deliver to the mail carrier for that route any mail matter—placing in the respective satchels, where such are used, the mail for the persons to whom such satchels belong—with instructions as to the proper mail box or crane at which said mail matter shall be deposited; but registered mail shall not be so delivered unless expressly requested by the addressee in his written order. No mail matter so delivered to the carrier shall be carried past another post office on the route before being deposited into a mail box or hung on a crane or post.

The carrier on the route will be required to receive from any postmaster on the route any mail matter or private mail satchel that may be entrusted to him outside of the usual mail bag, and shall carry such mail matter or private mail satchel to and deposit it into the proper mail box or hang it on the proper mail crane placed on the line of the route for this purpose; such service by the carries to be without charge to the addressees.

The mail carriers must be of good character and of sufficient intelligence to properly handle and deposit the mail along the route.

The department does not prescribe any particular design of box or satchel to be used for this service, but the person providing either should see that it is of such character as to afford ample protection to his mail. If there is a lock attached to the box, a key is not to be held by the carrier, as he is expected to deposit the mail without the necessity of unlocking the box. The box or crane should be so located on the roadside that the carrier can deposit the mail without leaving his vehicle or horse, and yet not where it will obstruct public travel.

The carrier is not required to collect mail from the boxes, but there is no objection to his doing so if it does not interfere with his making the schedule time. The law provides that every carrier of the mail shall receive any mail matter presented to him if properly prepaid by stamps, and deliver the same for mailing at the next post office at which he arrives, but that no fees shall be allowed him therefor.

The box delivery above described is required by the contracts effective July 1, 1902, on all the star routes with but few exceptions in Arkansas, Louisiana, Texas, Indian Territory, Oklahoma, Kansas, Nebraska, South Dakota, North Dakota, Montana, Wyoming, Colorado, New Mexico, Arizona, Utah, Idaho, Washington, Oregon, Nevada, California, Alaska, and Hawaii.

MILWAUKEE PEOPLE

Could Hardly Believe It. A Prominent Woman Saved From Death by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suppose a large number of people who read of my remarkable cure will hardly believe it; had I not experienced it myself, I know that I should not.

MRS. [illegible]

"I suffered ... troubles ... gradually ... my very ... with pain ... skill I consulted ... bring me relief.

"My attention ... E. Pinkham's Vegetable Compound; the ... lief, and the ... cure. I could ... and felt sure it ... but blessed fact, I ... for a year, enjoy ... and cannot in words ... itude. Sincerely yours, ... 124 10th St., Milwaukee, Wis."

Such unquestionable testimony proves the power of Lydia E. Pinkham's Vegetable Compound over diseases of women.

Women should remember that they are privileged to consult Mrs. Pinkham, at Lynn, Mass., about their illness, entirely free.
