Eczema

How it reddens the skin, itches, oozes, dries and scales. Some people call it tetter, milk crust or salt rheum.

The suffering from it is sometimes intense. Local applications are resorted to—they mitigate, but cannot cure.

It proceeds from humors inherited or acquired and persists until these have been removed.

Hood's Sarsaparilla

positively removes them, has radically and permanently cured the worst cases, and is without an equal for all cutaneous eruptions.

MEETING OF CITY FATHERS.

Council Ordered Sixteen-New Hydrants for Fire Protection.

The city council met in special session Tuesday evening.

Mayor Gilliam and Councilmen Quaid, Farnsworth, Roberts and Cohn were present.

The object of the meeting was for the purpose of taking action in relation to questions that have arisen between the Light & Water Company and the city.

One of the main questions was the matter of irrigation. The original rules and regulations for irrigation specify that the hours for irrigation shall be from six to eight a. m. and from five to 9 p. m.

H. V. Gates who represented the water company stated that with the water supply these rules could not be complied with as the water could not be obtained.

Last year water for sprinkling lawns could be furnished for only one hour a day, but this year with the improvements that have been made water can be furnished for two hours a day.

Mr. Gates asked that new rules regulating this be adopted which was taken under advisement by the council.

Another question was in relation to a resolution that was passed at the last meeting of the council ordering the water company to furnish water for domestic purposes from the high pressure reservoir.

This resolution was rescinded by the council.

Motion by Councilman Farnsworth that the proposition of the Heppner Light & Water Company to furnish five standard hydrants and eleven fire plugs to be placed where the council directs on the present water mains of the city, the water company to pay all expense of putting in the hydrants, for a consideration of \$25 per month for a term as long as the present water company conducts the plant, was carried.

Wool Season Over.

The wool business in Heppner has withered down to small dimensions. The wool is nearly all baled and most of it has been shipped.

Taking it all the way through the season has been very active and conditions have been favorable and satisfactory.

From the Southern portion of Morrow county, and Grant and Gilliam counties, more wool came to Heppner this season than ever before, while about 400,000 pounds of heavy wools down in the Sand country are purchased by the Pendleton Scouring Mills and shipped by way of Federal other points.

Sheepmen generally are well pleased with the prices received for their wools in Heppner.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

TO ADVERTISE OREGON.

Representatives of Harriman Lines Visit Heppner.

The Harriman lines will advertise Oregon and do it in a manner that will be of great benefit to the state, was evidenced last night at a mass meeting in this city which was addressed by G. M. McKinney, immigration agent of the Harriman lines, and J. H. O'Neil, traveling passenger agent of the O. R. & N.

The Harriman lines have outlined and will advertise Oregon in a manner never before undertaken in the history of the state.

The principal towns have been visited and more than 2,000,000 pamphlets have been pledged for Eastern distribution.

The company will have agents in Indianapolis, Ind., Milwaukee, Wis., Des Moines, Iowa, Kansas City, Mo., Louisville, Ky., and Pittsburg, Pa., who will look after immigration to this state.

The resources, the advantages and inducements of Oregon will be presented to the People of the Middle West in a most thorough manner.

In less than a year the agents will have a list of over 2,000,000 names of farmers and homeseekers among whom advertising matter will be distributed.

The party which came to Heppner last night by special train in charge of J. H. O'Neil, traveling passenger agent of the O. R. & N., consisted of G. M. McKinney, immigration agent and first assistant, C. McKenzie of Chicago; W. H. Burke who will be located at Indianapolis; I. N. Conklin who will be stationed at Milwaukee; H. A. Townsend who will be at Des Moines; H. S. Crouse who will be at Kansas City, and R. M. Hall, editor of advertising publications of the O. R. & N. Co.

A meeting was held at the reception room of the Palace hotel. There was a good attendance of representative citizens and business men.

Mr. McKinney addressed the meeting. He spoke at length on the great resources of the state. That everything is awaiting development. To do this there must be people come here and to get them here they must be told something about the country. That the agents were brought out to Oregon so that they could see the country as it is and go back and tell the people of the Middle West and East.

He spoke of the great advancement of the state of Washington which was brought about by thorough advertising.

Mr. McKinney dwelt on the grand climatic conditions, the wonderful wealth in the forests, the mines, agriculture, etc. He stated that the value of the timber in the State of Oregon was enough to make every man, woman and child residing within the borders of the State worth \$25,000 each.

J. H. O'Neil followed Mr. McKinney and gave an outline of the plan of advertising. He said that the proportion of the O. R. & N. Co's expense in this method of getting descriptive matter before homeseekers would cost \$100,000.

After Mr. O'Neil's speech a meeting was held by the citizens present with Mayor Gilliam in the chair. A motion by Hon. J. W. Morrow that Morrow county furnish 50,000 pamphlets, was carried unanimously.

The chair appointed the following committee to solicit funds: Hon. J. W. Morrow, George Conser, and Vawter Crawford.

The meeting was enthusiastic and the advertising plan was encouraged by all.

The work of getting out the advertising pamphlet will be commenced as soon as possible.
