Rheumatism

What is the use of telling the rheumatic that he feels as if his joints were being dislocated?

He knows that his sufferings are very much like the tortures of the rack. What he wants to know is what will permanently cure his disease.

That, according to thousands of grateful testimonials, is
Hood's Sarsaparilla
 It promptly neutralizes the acid in the blood on which the disease depends, completely eliminates it, and strengthens the system against its return. Try Hood's.

Hon. Asa Thompson, of Butter creek, was a visitor, Monday.

J. H. McGregor was an incoming passenger Monday evening.

Miss Leach announces that her stock of Fall Millinery is now in and on display. Miss Leach spent about two weeks in San Francisco in selecting this stock which was purchased with great care as to correct styles and handsome effects. The ladies of Heppner and vicinity are respectfully invited to call and inspect this beautiful stock which for style, effect and appearance is not outclassed in Eastern Oregon.

E. J. Bayley, of John Day, who was in the city this week, states that the prosperous little city of John Day is building up rapidly. A new electric plant will soon be put in. A steam laundry will be installed, and the place will soon have a newspaper. Clarence Black will launch the newspaper adventure. The big dredge on the John Day which is being used to take out gravel which is washed for gold, is now being operated successfully. The capacity of this big machine is 3000 cubic yards of gravel per day, and it requires eight men to operate it. The engines used in operating it burn about 10 cord of wood per day. This dredge is a good paying proposition, and taking it all around makes quite a lot of business for John Day. The company owning the dredge has control of a large body of pay gravel and another dredge will probably be needed to handle the work.

QUIET SHEEP MARKET.

Conditions in Idaho are Affecting Oregon Market.

The sheep market is quiet in Morrow county, in fact the whole state is quiet so far as the sheep market is concerned.

It is yet early in the season and there is about as much business in this line being transacted as there was at this time last year, but there is not much encouragement for the future.

Sheep offerings are about the same as last year at this time. There are plenty of sheep for sale.

The new law in Idaho which provides that no sheep shall be run within two miles of an inhabited dwelling, is playing havoc with the sheep industry in that state, and sheep owners are letting loose of their herds as fast as possible.

The fact that this law compels sheep men to sell, and they are freely offering, has attracted the bulk of the buyers to that place as a natural consequence. Feeders are being sold in large numbers which is satisfying the Eastern demand. This is having and will have a marked effect on the Oregon market so long as it continues.

Indications are that the present conditions will not be changed during this season.

Owing to a big corn crop the Eastern demand for feeders is very good, but the supply is coming from Idaho.

In the long run, the Oregon market will not be injured, for when Idaho is cleaned up, buyers will have to look to Oregon and the demand will be increased.

A few transactions are reported in the local market.

Herb Bartholomew sold 3000 yearling and 2-year-old ewes to an Idaho buyer at Baker City for \$3.00 per head. This is considered a good price.

The Penland Livestock company sold 1500 lambs at \$1.75 per head.

A few other sales are reported at the same price.

The season is near at hand when sheep will be brought in from the summer ranges. Stockmen are generally supplied with feed for the winter.

SALES OF CATTLE.

Purchases of Winter Feeders for Butter Creek.

As usual a large number of cattle are being purchased to be taken to Butter creek for feeding. The Butter creek ranchers have an immense amount of alfalfa this season and a large number of cattle will be fed this winter.

Geo. Vincent purchased 73 head of cattle from C. A. Rhea. The lot averaged 1025 pounds and the price was \$3.50 per hundred.

Carstner & Royce, of Spray brought in 58 head which were purchased by David McCarty, at \$5.50 per hundred.

John Hayes brought in 100 head yesterday which were sold to Stas Wright of Rhea creek for \$8.50 per hundred.

Stockmen complain that cattle are weighing light this season.

During the past two weeks over 800 head of cattle have been brought to Heppner to be weighed.

Uncle Billy Gilliam who has a ranch out on Rhea creek, 10 miles from Heppner, is now making his regular trips to Heppner, selling garden vegetables. Mr. Gilliam stated to the GAZETTE that he has about three acres in garden vegetables which nets him between \$500 and \$600 each year, principally in the Heppner market. This is evidence that Morrow county soil is productive when put under a high state of cultivation. From only three acres of land, Mr. Gilliam makes a good sum of money each year.

The first shoot of the Heppner Rod and Gun club occurred at the grounds near the depot, Sunday. There was a good attendance of the members and some good scores are reported.

The city council of Ione has ordered the saloons to be closed on Sunday. Gambling has also been ordered stopped.
