

A BIG REUNION

TO BE HELD IN HEPPNER, SATURDAY, SEPTEMBER 18.

Different Committees Now at Work in Making the Necessary Arrangements.

The old folks and pioneers of Morrow county will be entertained in Heppner at a big reunion to be held on Saturday September 18.

This was the unanimous sentiment of a very enthusiastic meeting held at the council chamber last Friday evening.

Mayor Gilliam presided and R. F. Hynd was elected secretary. By motion of W. L. Salting, the date for the reunion was fixed for Saturday, October 10.

G. W. Phelps moved that an executive committee consisting of eight citizens be appointed.

Mayor Frank Gilliam who makes a good presiding officer, and who is always ready for an emergency, had anticipated the proceedings and had carefully prepared a list of all the committees which he had in his pocket.

In stating this fact it caused a great deal of merriment, and cries came from all over the house of "put up job," "it has all been fixed," etc.

"Trot out your list" was the response from the crowd. The list was read and approved by all present, and much time was saved in dispensing with the usual formality of appointing.

By motion Mayor Gilliam was made chairman of the executive committee.

Following are the committees appointed:

Executive committee—Frank Gilliam, George Conser, A G Bartholomew, Geo Whities, S P Garrigues, A C Giger, E L Freeland, Frank Roberts, G W Phelps, E M Shutt.

Program—G W Phelps, Dr A K Higgs, E M Shutt.

Music—Vawter Crawford, W L Salting, Mrs H W Bartholomew.

Dinner—Mrs A G Bartholomew, Mrs A M Gunn, Mrs Henry Blackman, Mrs G W Phelps, Mrs E M Shutt, Mrs S W Meadows, Mrs Phil Cohn, J J Roberts, F Hynd.

Lodging—A G Bartholomew, George Conser, M Lichtenthal, Henry Blackman, Phil Metschan, Geo Wells, J R Simons, T W Ayers, W G Minor, M B Galloway.

Printing—Fred Warnock, A J Hicks, W L Salting.

Night entertainment—Dr. M B Metzler, Percy Garrigues, Mrs Conser, Miss Elizabeth Matlock.

Finance—Geo Conser, M Lichtenthal, R C Wills, P O Borg.

Care of teams—Geo Whities, J W Matlock, Geo. Thornton.

Marshal of the day Sheriff E. M. Shutt.

By motion of E. M. Shutt the age limit and time of residence in the county was fixed same as last year, viz:

All persons who are over the age of 35 years, or all persons who are over 40 years of age and have resided in Morrow county for 20 years. In cases where the husband or wife is over the age limit and the other is not, neither will be excluded.

The committee appointed to solicit funds has already secured a liberal sum. The reunion will be a success. Programme in full will be published next week.

Independent and reliable—The Oregonian.

DAMAGED BY VIOLIN-PLAYING.

An Architect Says the Vibration Is Injurious to the Walls of Buildings.

"What force least expected does the greatest damage to buildings?" is a question which a representative of the Indianapolis News asked a well-known architect. The architect's answer may be a surprise to those who do not understand that it is the regularity of vibration that makes it powerful.

"It is difficult to tell," replied the architect, "but I will venture to say that you would never expect violin-playing to injure the walls of a building. Yet it certainly does. There have been instances when the walls of stone and brick structures have been seriously damaged by the vibrations from a violin. Of course these cases are unusual, but the facts are established.

"The vibrations of a violin are really serious in their unseen, unbounded force, and when they come with regularity they exercise an influence upon structures of brick, stone or iron. Of course it takes continuous playing for many years to loosen masonry or to make iron brittle, but it will do it in time.

"I have often thought of what the result might be if a man would stand at the bottom of the 12-story light well, on the first floor of the great Masonic temple, in Chicago, and play there continuously. The result could be more easily seen here than almost anywhere else, because the vibration gathers force as it sweeps upward.

"A man can feel the vibrations of a violin on an ironed ocean vessel, and at the same time be unable to hear the music. It is the regularity which means so much. Like the constant dripping of water which wears away a stone, the incessant vibration of the violin makes its way to the walls, and attacks their solidity."

Was Wu's Name Explained?

Mr. Wu Ting-Fang acquired his pungent English in London, says the Chronicle, of that city. He was a student in the Middle Temple in 1876, and was known by his proper and unpronounceable name of Ng Choy. Subsequently, after he had entered the public service of his country at Tientsin and had been promoted to be a mandarin, he followed the custom of adopting an official name. Ting-Fang is said to mean "hall fragrance," and is intended to indicate that the one so designated is so sweet and eminent a lawgiver that the sweet savor of his reputation "fills the court." A penny weekly in search of novelties might do worse than offer a prize for official names for our public men.

Akophone Makes Deaf Hear.

There are many smiling faces at the New York institution for the instruction of the deaf and dumb just now, owing to successful experiments with a new apparatus which enables the deaf to hear. It is called the akophone. The machine employs electric sound valves, which penetrate the deafest ear and have a reviving effect on the diseased parts of the ear. The machine does not increase the volume of sound, but makes it more penetrating. It is on the same principle as the Roentgen light rays, which do not produce a greater degree of light, but a kind of light which penetrates bodies hitherto impervious to it. The instrument is of no benefit to the small percentage of the deaf, says the Pittsburg Dispatch. With the partially deaf it does away with the eager straining to catch the sound of the human voice, and an ordinary conversation tone can be used.

The Name of "Pelee."

"Pelee" was the name which the Hawaiians in their pagan days gave to the goddess who, according to their belief, inhabited one of their largest volcanoes.

Ireland's Population Decreasing.

The recent census of Ireland shows a marked decrease in its population, which has been largely attributed to the famine throughout the island, causing the death of thousands of people, and forcing many others to emigrate. This brings to mind quite forcibly the absolute necessity of having plenty of good food if we would prolong life, but after all it is not a question of the amount eaten that makes the people strong and healthy, but the way it is digested. Dyspeptic people cannot enjoy their meals, and consequently always feel depressed, irritable and nervous. They should try Hostetter's Stomach Bitters at once. It is a specific remedy for flatulency, belching, indigestion, dyspepsia and nervousness, and is backed by a record of fifty years of cures.

THE DRAUGHT'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Draught's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Draught's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Draught's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901. I have used The Draught's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.

Mother's Girl.

There exists often a very beautiful companionship between the mother and her daughter. The intimacy is frank, free and sympathetic. But some day the mother feels as if something had chilled this intimacy. The child is silent and sad, and seems to shun her mother instead of seeking her.

This change very often occurs when the young girl is crossing the border line of womanhood. She is morbid, nervous, fearful, as she enters upon this new experience.

The use of Dr. Pierce's Favorite Prescription at such a time will do more than restore the normal balance of mind and body. It will establish the womanly function upon a basis of sound health, as well as improve the appetite, nourish the nerves, and promote the general physical health.

"Two years ago my daughter's health began to fail," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout; weighed 170—the picture of good health, until about the age of fourteen; then in six months she was so run down her weight was but 120. I felt I could not give her up as she was the only child I had, and I must say, Doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave today. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.
