Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquefies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. McMahon, Hampton, Ga.: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal." Stricken With Paralysis.

Henderson Grimmett, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured. Geo. R. McDonald, Man, Logan county, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of this liniment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. Sold by Slocum Drug Co.

George Benoit was instantly killed in a planing mill at Everett, Wash., Tuesday, by being struck in the head with a board he was planing.

A Typical South African Store.

O. R. Larson, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by Slocum Drug Co.

Look Out For Fever.

Biliousness and liver disorders at this season may be prevented by cleansing the system with DeWitt's Little Early Risers. These famous little pills do not gripe. They move the bowels gently, by copiously, and by reason of the tonic properties, give tone and strength to the glands. Slocum Drug Co.

Increasing Land Values.

W. H. Moore, of the Moro Land Co. was in Ione Tuesday, says the Post, with a view to adding more land to the several hundred acres which the company has already purchased during the past summer from parties here. Mr. Moore said to a Post reporter:

"We realize that the Morrow county land is as good for wheat raising as the Sherman county land, but needs better farming. In Sherman county the summerfallows are perfectly clean, free of vegetation, while in your county most of them are covered with weeds. When the farmers learn the nature of the soil and cultivate it accordingly better results will be gained. We are now offering from five to eight dollars for Morrow county land, as we did in the Horse-heaven country in Washington and in Sherman and Wasco counties several years ago when we first began our operations there.

"Wherever we have engaged in this business we have advanced the value of land from seven and eight dollars to \$15 and \$20 and we firmly believe that within three years most of the land in Morrow county will be worth not less \$20 per acre."

The Possibilities Developed.

The success of the Disc type of Graphophone which uses flat, indestructible records, is largely due to the fact that the Columbia Phonograph company, pioneers and leaders in the talking machine art, has developed the possibilities in both the machines and the records beyond all expectations. It was able to do this because it is the only company in the talking machine field having a complete laboratory and a manufacturing plant on a broad and comprehensive basis. Its facilities for experimentation and for manufacturing are on a very large scale. It does not have to rely on inexperienced manufacturers for any part of the product it offers for sale. It makes its own machines and its own records from start to finish which is a fundamental advantage of the first magnitude.

The Disc Graphophone is made in three types, selling at \$15, \$20 and \$30. Seven inch records 50c each, \$5 per dozen; 10 inch records \$1 each, \$10 per dozen. The Graphophone and Columbia records were awarded the grand prize at the Paris Exposition of 1900.

The Columbia Phonograph company, 125 Geary Street, San Francisco, headquarters for graphophones and talking machine supplies of every kind, will send you catalogues on application.
