Hon. Henry Blackman has returned from a visit to the Inter-State Fair at Spokane. Mr. Blackman states that both fairs were a success and were well attended. The exhibits in agriculture and manufacturing were very interesting and everything was conducted in a most satisfactory manner. Mr. Blackman says that Spokane is very prosperous, there being one sale while he was there of business property amounting to \$146,000. Spokane is now the wheat center of the great Palouse wheat district, and being head quarters for the Cour d'Alene and British Columbia mines, is a lively city.

Teacher's Institute.

A local teacher's institute will be held at the schoolhouse, Ione, Oregon, Saturday, October 25, 1902, commencing at 10 o'clock a. m. The train from Heppner and Lexington arrives at Ione at 9 o'clock a. m., and leaves Ione on its return at 4 o'clock p. m. All teachers and friends of education are cordially invited to attend this meeting.

THE KNOCKER.

He Takes a Shot at the Morrow County Coal Fields.

Heppner has a knocker, and who is he? A communication from Heppner to the Pendleton Tribune, under date of October 17, says that the Morrow county coal fields are uncertain and will be nothing above the ordinary, if they equal that.

The correspondent quotes for his authority Geo. A. Wells, the able expert in the employ of the O. R. & N. who has been prospecting the coal field for several weeks.

When the article was shown to a prominent member of the company, he said:

"You can brand this as a contemptible lie. Mr. Wells never said anything of the kind."

It is a well known fact that Mr. Wells is more enthusiastic over the prospects, than any expert that ever visited the coal fields.

Before leaving he did not hesitate to state that he was satisfied that the Morrow county coal fields are the greatest ever discovered in the west.

As development work progresses the prospects become more flattering. Experienced coal miners are now at work and at a depth of 60 feet in tunnel No. 5, a well defined measure of coal is now being worked upon. This coal will be used in Heppner before snow flies.

Good Wheat Sale.

Phil Cohn of Heppner & Co's warehouse purchased a lot of 3500 bushels of No. 2 club wheat last Saturday for 53 1/2 cents per bushel. This is one of the best wheat sales of the season. Heppner dealers are keeping up with the competition, making this place a good wheat market.

Heppner Boys Were Easy.

The Lexington baseball team crossed bats with the Heppner boys Saturday

last at the school house grounds. It was a case of too much beef on the side of Lexington and the Heppner boys were outclassed. The home team put up a plucky game for youngsters, but when up against men were too light. The score was 25 to 3 in favor of Lexington.

An Off Day.

The regular weekly shoot of the Heppner Rod and Gun Club occurred at the grounds on the Dutton hill, Sunday morning last. There was a light breeze and the trap was located so that the sun blinded the shooters. The usual amount of ammunition was used but the blue rocks sailed away unscathed and untouched in numbers not pleasing to the crack shots. It was an off day all around.

The club has purchased three new Expert traps. One of the new traps was used Sunday. It is lively and the unknown angles made it difficult shooting with the wind and sun striking the shooters in the face.

After the scores were recorded there was a sort of a consolation shoot for a small purse which was won by Lee Matlock in a tie shootoff.

Owing to the hard climb of getting to the present shooting grounds, the place for shooting will be changed to a place near the steam laundry which is easier of access.

The new traps will be installed for next Sunday's shoot.

Following is last Sunday's score:

NAMES	1	2	3	4	5	Total
Percy Garrigue	3	2	0	1	1	7
Lee Matlock	3	3	3	1	3	13
Clarence Bisbee	0	3	3	2	1	9
Guy Minor	3	3	4	4	2	16
Wm. Irwin	1	1	3	3	3	11
Dr. Metzler	0	2	3	2	3	10
Frank Roberts	5	2	3	4	3	17
Jack Matlock	1	1	1	0	2	5

The regular price for the San Francisco Weekly Examiner is \$1.50. You can get it and the Gazette for \$2.25.

FUEL SUPPLY SHORT.

Morrow County Coal Will be a Relief in the Situation.

Just now Heppner's fuel supply is very short. For some reason dealers are unable to obtain coal. The supply which has been coming from Rock Springs Wyoming, has been cut off but this will probably be only temporary. Nevertheless, it has caused considerable inconvenience. Many people are entirely without coal and the cool fall evenings are beginning to be felt.

The supply of pine wood from the Blue mountains is also short this season. Teamsters are now hauling. For this wood \$6 a cord seems to be the ruling price which is an advance of a dollar a cord above the price asked last fall.

Some wood has been shipped from Mosier, down in the Cascade mountains. This has been selling readily at \$5.75 per cord delivered.

Plenty of slab wood can be obtained in Portland which can be delivered here at \$4.50 per cord, but as this wood is green and wet it is not desirable.

The announcement that there will soon be plenty of coal at the Willow creek mines, will be a great relief. A large amount of this coal can yet be hauled out before the roads get bad.

From tunnel No. 5 at the Heppner Railroad and Coal Company's mine coal is now being taken out, and as soon as the company can get the coal sorted hauling will be commenced.

Look Out For Fever.

Biliousness and liver disorders of this season may be prevented by cleansing the system with DeWitt's Little-
 Early Risers. These famous little pills do not gripe. They move the bowels gently, by copiously, and by reason of the tonic properties, give tone and strength to the glands. Stocum Drug Co.
