#### HIS BUG ALREADY CLASSIFIED

Mrs. Professor Had Paid Two Dollars for It and It Belonged on Her New Bonnet.

As the stogie man stood at the end of the bar he chuckled to himself and blew clouds of smoke until the mixer had serious thoughts of sending in a call for the fire department. Fortunately the broker's clerk and the meek man came in together and the oracle let it out, relates the New York Times.

"Got a laugh on that college professor up my way. His reg'lar graft is anatomy, you know; but he makes a side issue of zoology in general-'specially insects and bugs. Reg'lar bug hunter-one of these fellers that chase butterflies and such with a young fish net, and impales the specimens on a big-headed pin, and, as though that wasn't bad enough, insults the poor creatures by writing unpronounceable names under 'em.

"Well, he was returning from church with his family last Sunday when he discovered a new and singular insect on the front doorstep. He was naturally mighty pleased, and, forming his handkerchief into a net, he pounced down upon and succeeded in capturing

"'Bring the microscope, children,' says he, 'an' tell your ma to hurry; I want her to look at it. I'm sure it belongs to the hemiptera class, and is a new specimen. Here, Charlie, put your eye to the glass and tell me what you see.'

"'Oh, pa, ain't it splendid! It's got four wings, eight eyes, and don't it sparkle! Red and green and yellowoh, it's getting away, ain't it?'

"'Then it isn't dead!' cried the professor in cestasy. He's so nearsighted that he passes his next door neighbor on the street without knowing him. 'I wasn't quite sure whether it moved or not. Let me look! Yes, after all, I think it belongs to the genus pentamera-the antennae have that peculiar flexible look; and yet, now that I look again, the eyes seem to indicate that it is a phytoeoridae, in which case it will be very destructive to your ma's plants and we must kill it at once. It will be a very valuable addition to our collecform?

"'What are you going to do with it?' asked Mrs. Professor. She wouldn't trust him with the paregoric without knowing what he was going to do with it, he's so absentminded.

" 'Kill this insect as soon as you have examined it.'

"Well, I guess not, says she, lookinc with much interest at the new specimen. 'I paid two dellars for that insect, as you call it, last week, to wear on my bonnet, and it must have dropped off when I came in. It belongs to the genus millinerae, and baked for a century. Science will have to get on without it, professor; it's already classified."

ity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a perfect tonic and nervine, tranquilizing the nerves, promoting the appetite and in-

ducing refreshing sleep. "When I first wrote you I had been to three different doctors and two of them said I would never get better without going to the hospital for an operation," writes Mrs. Selma Erickson, of 496 Rice Street, St. Paul, Minn. "Was not able to do anything. If I would get up and walk to the kitchen and back I would have to lie in bed for a day or sometimes two days. Now I have used six bottles of Dr. Pierce's Favorite Prescription and six of the 'Golden Medical Discovery,' and the result is just wonderful. I was so nervous I had to have some one by my side all ery," and the result is just wonderful. I was so nervous I had to have some one by my side all the time even in day time, and I could hardly cat anything. I took treatment from a doctor twice a week, and every time I would go there I felt so sick, but since I quit all the doctors and began taking your medicines I gained right along. I weighed 125 pounds, when I began taking your medicines (in August) and now I am up to my usual weight 165. I am as well and feel as good as ever." I am up to my usual we and feel as good as ever.
