REVISION & ITS FRIENDS

People Want the Tariff Revised by the Republicans.

AFFAIRS IN PHILIPPINES

The Islands Have a Great Future... American Capital Needed to Build Railroads.

Washington, Nov. 8—An interesting feature of the Speakership contest is the declaration of Representative Babcock that the people desire to live under a Republican administration in all its branches, and that the people expect the Republican party in the next congress to undertake tariff revision. He says that had the country elected a Democratic congress it would have prevented tariff revision, but having elected a Republican congress, it means that they want the tariff revised by its friends, and an adjustment of an equitable nature to be made.

Babcock has not announced himself as a Speakership candidate, but his close friends are advising members not to commit themselves, and there is a great deal of talk in his favor. He is put in the list of possible candidates along with Cannon, Dalzell, Littlefield, Sherman and Payne. If Babcock's matters greatly." candidacy is pushed it will mean that Dalzell, Sherman or Littlefield, in so far | Philippines. as knowledge of the rules and presiding over the house goes, and his candidacy will be almost wholly pressed on the ground that a new deal and a "turn down" of the old regime, which has dominated the affairs of the House for so many years, are demanded.

AFFAIRS IN PHILIPPINES.

Vice-Governor Wright Says Government Works Well.

Honolulu, Nov. 1.—The transport Sumner arrived there October 30, en route to San Francisco, with General A. R. Chaffee and Vice-Governor Luke E. Wright, of the Philippines, on board. The steamer passed through a terrible experience in a typhoon soon after leaving Manila. She lost one of her boats and had several damaged, and for a number of hours was in grave danger. In an interview published by the Commercial Advertiser, Governor Wright had the following to say of conditions in the Philippines and their future:

"The developments following the inauguration of the civil government of
the islands have been most satisfactory.
We have now civil government almost
everywhere, and the people seem, to be
learning its advantages. The system of
provincial and municipal government
has worked well. During the spast year
there has not been a single defalcation
and very few thefts. The government
is strictly one of civil service.

"There is a degree of peace and safety in the Philippines now! that was never reached under the Spanish rule.

The Spaniards used to pay the brigands to keep the peace, and we have refused to continue this system. After the passage of the Phillippines bill last year we established the insular constabulary, and we now have 6000 of these police.

We find that they are the best men for the business, and they have cleared the provinces of lawbreakers with great rapidity. The service is one which ap-

peals to the natives for the police are chosen from the tribes where they must serve.

"The future of the islands will be a great one. What is needed most are railroads, and these may be built soon by American capital. There is a trunk line on the Island of Luzon now under consideration, and its building will help matters greatly."

candidacy is pushed it will mean that he is being presented by those Republicans who desire a moderate tariff revision. He is not as well equipped for the Speakership as either Cannon or Dalzell, Sherman or Littlefield, in so far

Consumption

Salt pork is a famous oldfashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

BOWNE, CHEMISTS, 409 Pearl St., N. Y. 50c. and \$1; all druggists. NEW IOWA FIGHT.

Henderson Announces That he Will Come Out for Governor.

Washington, Nov. 7.—The story comes from Iowa that Speaker Henderson has announced himself for Governor of that state in opposition to Cummins. Henderson has said privately that Cummins' opposition to him and the many annoyances the Governer subjected him to caused him to get out of the Congressional fight. It is said that Henderson, in order to vindicate himself, will make the campaign on the protection issue as againts Cummins and his tariff revision idea.

There is an intimation that Henderson has combined with Secretary Shaw in this fight, although considerable doubt is cast upon this statement, as it is believed that Shaw would hesitate before entering such a combination while remaining in President Roosevelt's Cabinet. The President could not allow his Administration to be identified with any such factional fight. It may be that Shaw has recognized his unfitness for the Treasury portfolio and is getting ready to retire. He has been compelled by some force to rescind his order regarding security for Government deposits, an act which caused a great deal of criticism at the time.

Many financiers have represented to President Reosevelt that Shaw paved the way for an inflationist at the head of the Treasury Department to work great harm by accepting any kind of bonds in place of Government securities.

December Delineator.

A magazine 30 years old. The Christmas (December) number of the Delineator is also the Thirtieth Anniversary Number. To do justice to this number, which for beauty and utility touches the highest mark, it would be necessary to print the entire list of contents. It is sufficient to state that in it the best writers and artists are generally represented. The book contains over 200 pages, with 34 full page illustrations, of which 20 are in two or more colors. The magnitude of this December number, for which 728 tons of paper and six tons of ink have been used, may be underderstood from the fact that 91 presses running 14 hours a day, have been required to print it; the binding alone of the edition of 915,000 copies representing over 20,000,000 sections which had to be gathered individually by human hands.
