Thos. Schneider's mill flume was slightly damaged Friday afternoon by a big rock that rolled down the mountain side next to the flume. The rock struck the flume near where it leaves Willow creek, knocking a big hole in the bottom and tearing the timbers from the sides. The damage was soon repaired, and the delay was only for a short time. Mr. Schneider was at first of the opinion that the damage was the result of an explosion, but investigation found the rock which had bounced about 50 feet after striking the flume. The rock was probably started by some boys that were playing on the hill.

The heavy rains of last week while being of great benefit to the country, also caused some damage. In some portions of Morrow county, threshing is not yet finished and grain in the stack has been slightly damaged. Threshed grain in the sack which is still in the field has been somewhat damaged where it was not properly taken care of. Quite a lot of Fall wheat has already been sown. The moisture will be of great benefit to this and will give it a good start. In some places the ground is wet enough for Fall plowing. Grass on the ranges is taking on new life and is springing up fresh and green which will benefit the stockmen.

The GAZETTE has added a new blank to its list—Contest Affidavit.

Forest Supervisor M. P. Isenberg was in town Friday, attending the stockmen's meeting. Mr. Isenberg informs us that a change has been made in the matter of allotment of range in the reserve. By a ruling of the Secretary of the Interior, made February 8, 1902, the allotment of range in reserve was placed in the hands of wool-growers associations, where such associations included a majority of the sheepmen in their membership. On October 24th, last, this authority was taken from the stock associations and placed entirely in the hands of the forest supervisors. The rules governing the allotment are the same as heretofore. — Antelope Herald.

Services at the M. E. Church, South.

Rev. F. C. Adkins delivered a very able sermon at the M. E. church, South, last Sunday evening and chose for his text, "Am I my Brothers Keeper." It was for the benefit of fraternal orders of the city and many high tributes were paid to the orders. Rev. Adkins stated that the different lodges were doing the work the churches could not unless it formed itself into a secret organization. In his remarks he said it was an easy matter for an imposter to claim to be a member of a church and thereby receive benefits, but when applying to a secret order for aid it would be necessary to prove himself worthy before he could receive it.

Rev. Adkins spoke briefly in regard to foreign missions and said that while some people did not favor them, it was the means of opening up trade with these uncivilized nations. When they become civilized they clothe themselves as we do and eat the same food, which had to be, to a certain extent, shipped to them, and thereby furnished us a new field for our products.

The church was crowded, and many different orders were present, who will always feel kindly toward Rev. Adkins for his complimentary remarks.
