BLUE MOUNTAIN RESERVE

Creation Finally Determined by Secretary Hitchcock.

PRESENT LIMITS MODIFIED

Many Objectionable Features Will be Eliminated by Most Careful Inspection.

WASHINGTON, Nov. 15.—Secretary Hitchcock has finally determined that a forest reserve shall be created in the Blue and Strawberry Mountains of Eastern Oregon, but the lands included by the Presidential proclamation will be only Government timber lands or worthless mountain summits. The proclamation will not issue until the Interior Department shall have inspected every acre to be included in the reserve, and to eliminate such lands now included in the withdrawal as have been denuded of timber or are owned or occupied by large holders. All towns or settlements and all school lands and all private ranges will also be excluded. But, above all else, the Secretary will exclude those lands which were entered for speculative purpose just prior to the department withdrawal by parties who are believed to have received tips as to the intention of creating a Blue Mountain forest reserve. This information the Secretary today gave to Colonel Emmett Callahan, of Baker City, who has been urging the establishment of a reserve from which all private holdings shall have been eliminated.

Secretary Hitchcock says it is his purpose to create no lieu base in making the Blue Mountain reserve or to permit chances for frauds of any kind. The reserve he favors will be irregular in shape, a checker-board in some sections but will be all government land. He finds that much opposition that has been manifested by Oregon people was based on misconception of the purpose of forest reservations. He gives assurance that the timber reservation will not in any way interfere with the location of mining claims; neither will it prevent cutting of mature timber. It will, however, prevent corporations and speculators from acquiring title to large areas of valuable land in this region, to the detriment of the interests of settlers. Protection of water supply is of equal importance to timber preservation, he holds, and to this end the forests of the Blue Mountains will be perpetuated. It may be six months or a year, says the Secretary, before the reserve shall finally be established, but when it is created its lines will be permanent. There will be no just ground for continued hagglng for the exclusion of some areas or the addition of others, as has been the case with almost every reserve heretofore created.

Can Bury Wife Alive.
Emporia Kan., Nov. 15.—Judge Madden, in the District Court last night, decided that a man had the right to bury his wife alive. The case was the City of Emporia vs. Professor Vanora et al., an injunction being asked to prohibit the professor giving an exhibition of hypnotism by burying his wife underground and leaving her buried six days. The city claimed the exhibition endangered life. The hypnotists claimed the city had no right to draw a distinction against this kind of exhibition.

Thanks To Americans.
London, Nov. 14.—In acknowledging the final installment of \$75,000 contrib-

uted by Americans toward the Queen Victoria memorial fund, Lord Mayor Samuel today wrote Chairman Van Duser, of the American committee, as follows:
"The liberality shown by your countrymen is a practical demonstration of the regard and esteem entertained for Her Majesty in the United States. This generous tribute will touch the hearts of the English people."

Engineer Foils Hold-up.
Frankfort, Ind., Nov. 14.—Four men attempted to hold up the south-bound Monon Express at Cyclone today. The train slackened speed on striking torpedoes on the trail, but when the engineer faced four revolvers he threw open the throttle. The four men fired rapidly and often, but all the trainmen and passengers escaped injury. Sheriff Corns and deputies afterward caught the men who gave the names of Charles Johnson, James Mock, Frank Smith and Harry Gray. All claim to live in Cincinnati.

Hotel Porter's Big Steals.
New York, Nov. 13.—Patrick Bolan, for seven years a trusted porter at the Holland House, has been arrested in a Bowery pawn shop, where he was endeavoring to pledge for \$35 a necklace of pearls valued at \$2,500. The prisoner was taken to police headquarters, where he is said to have given information which will lead to the recovery of jewels valued at \$12,000 stolen some time ago from the apartments of Mrs. W. J. Matheson, wife of a wealthy manufacturer.

The police have been much worked up over the robbery, as there was absolutely no clew, and had almost given

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphites especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.
Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

up the hope of success, when two detectives observed Bolan entering the pawnshop. The robbery is supposed to have been effected by gaining entrance to the apartments through a window.

To Help Panama Canal.

New York, Nov. 14.—General Fernandez, Minister of War, who has resumed his duties after a period of illness, says he is favorably disposed toward entering into a canal treaty with the United States, cables the Bogota, Columbia, correspondent of the Herald. If necessary, he added, Congress will be convoked for that purpose as soon as circumstances will permit.

Dr. Carlos Martinez Silva, ex Colombian Minister to the United States, and other influential men are still in prison. There have been no changes in the Colombian Ministry, and there will probably be none soon.

Died Trying to Save a Flag.

San Francisco, Nov. 15.—John Nyström, a Swedish sailor on the United States army transport Summer, sacrificed his life while attempting to save an American flag which had been torn by a gust of wind from the stern of the vessel's steam launch. He plunged into the water and secured the banner, but was caught by the strong ebb tide and drowned before he could be reached.

Puget Sound Fish of 600 Pounds.

Seattle, Nov. 14.—The biggest fish ever taken from Puget Sound was brought here today by a crew of Greek fisherman. It weighs 600 pounds and is nine feet long. Whether it is a shark or a blackfish will be determined tomorrow. The fish was netted in a seine which was badly torn by the monster's struggles, the catch of salmon escaping.

A Startling Surprise.

Very few could believe in look at A. T. Hoadly, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cures Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50 cents at Slocum Drug Co's.
