Herb Bartholomew of this city, met with a very painful accident at Ione Tuesday morning in which he lost the thumb of his right hand. While holding a pack horse, the animal got scared and in pulling away the rope became wrapped around Mr. Bartholomew's thumb tearing the member off at the middle joint. Drs. McSwords and Kistner found it necessary to amputate the entire thumb.

A good many experiments have been made in recent years to determine the relative value of large plump seeds and those which are small or shrunken. It has been found that there is a very large margin in favor of the plump seed. In fact the case of wheat the Ontario Experiment Station found that in six successive years plump seed gave an average yield of nearly eight bushels per acre more than was obtained from shrunken seed.—Oregon Agriculturist.

For Railroad to Burns.

Baker City, Or., Dec. 18.—N. U. Carpenter, cashier of the First National Bank of Burns, and H. C. Levins, of Harney County, and about 20 other prominent citizens of the county, have written a letter to the president and members of the Chamber of Commerce asking aid in their efforts to persuade the owners of the Sumpter Valley Railroad to extend their road from Whitney to Burns. They state, among other things, that the wool clip of Harney County amounts to over 2,000,000 pounds. They have 20,000 head of cattle in the country, 3000 horses, 2000 mules, all of which must find a ready road to market. In addition to the freight inducement they state that there are 500,000 acres of arid land that can be easily irrigated. It is by far the largest single irrigation proposition in the state. The gentlemen urge that the Sumpter Valley road be extended from Whitney, and they offer to raise a cash bonus to assist in building the proposed extension. The chamber unanimously endorsed the proposition, and urged that all who are interested in the growth and prosperity of Baker City to join in the movement to press the extension of the road.

What's in a Name?

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for Piles. For Blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Slocum Drug Co., Heppner, and Ione Drug Co., Ione.
