## WILL MEET IN PORTLAND

The 1904 Convention of National Woolgrowers.

### THE INDUSTRY PROSPEROUS

The Wool Outlook is Encouraging --At Present There is no Surplus.

Kansas City, Mo., Jan. 17.—The next annual convention of the National Woolgrowers' Association will be held in Portland, Or., the second Monday in January, 1904, one day prior to the convention of the National Livestock Association. Senator F. E. Warren, of Wyoming, was re-elected president, and Frank P. Bennett, of Boston, will serve another year as vice-president. The president will appoint a secretary and treasurer. Resolutions relating to the forest reserves and the disease known as "scab" among sheep provoked the principal discussion of the session today.

A resolution extending the thanks of the convention to the Bureau of Animal Industry for its activity in combatting the "scab" disease, and asking that Government inspectors be appointed to investigate and fight the disease, caused a lively debate between Utah and Idaho delegates. J. H. Moyle and Jesse Smith, of Utah, endorsed the resolution, and Darlow Ferguson, of Idaho, said it was not necessary to ask Government assistance, as the few states affected are amply able to fight the disease. The resolution was finally tabled.

Speechmaking, reports of officers and consideration of resolutions took up the time. Senator Francis E. Warren, of Wyoming, president of the association, delivered his annual address, which was followed by the reports of the executive committee and the treasurer.

The programme included addresses as follows: "How Knowledge Pertaining to the Sheep and Woolen Industry, Both National and International, Can Be Brought to the Attention of Those Interested," by Hon. Frank P. Bennett, Boston; "State and Federal Inspection," Dr. D. E. Salmon, Washington, Chief of the Bureau of Animal Industry; "The Costly Sheep," Frank W. Harding, Wisconsin; "Mutual Interests of Woolgrowers and Wool Manufacturers," S. D. North, Boston; "Benefits to Be Derived From Organization and Co-operation," Hon. Jesse M. Smith, Utah; "The Sheep That Produces 100 Per Cent Fine Delaine Wool," L. L. Harsh, Michigan; "Transportation of Livestock to Market," R. F. Buller, Idaho, and "Co-operative Wool-Selling," Joseph E. Wing, Ohio.

In his address, President Warren said the woolgrowers of the country were in better condition now than they had been for years past. The country, he said, is practically free from old wool stored in former years by speculators and with the market in general clip this year he believed better prices would prevail. Take it all the way from the sheep's back to the clothing of the consumer, there is no surplus in this country at this time. President Warren said the United States seemed to have become a mutton-eating country.

### Coal by the Shipload.

Boston, Jan. 15.—A wholesale coal firm in this city announced that, as a result of the removal of duty on coal, it has closed charters on 40 or 50 steamers to bring coal to this port, about 300,000 tons in all.

### State Prison Report.

Salem, Or., Jan. 15.—The quarterly report of Superintendent Lee, of the State Penitentiary, filed in the office of the Secretary of State today, shows an increase in the population of that institution of 16 during the three months ending on December 31, last. There were received during the quarter, 58 men; discharged, 35; transferred to the asylum, 4; died, 3; daily average, 310.7. The earnings of the institution for the same period amounted to \$3377.16, as follows: Board of United States prisoners, \$368; convict labor in the Northwest stove foundry, \$3009.16. The expenses of the institution for the three months aggregated \$11,238.77, as follows: Salaries of the officers and employes, \$5328.50; supplies, etc., \$5366.95; improvements and repairs, \$543.31.

H. Williams, San Antonio, Tex., writes: Little Early Riser Pills are the best I ever used in my family. I unhesitatingly recommend them to everybody. They cure Constipation, Biliousness, Sick Headache, Torpid Liver, Jaundice, malaria and all other liver troubles. Slogum Drug Co. Ione Drug Co., Ione.

### Coal Lies in Railroad Yards.

New York, Jan. 15.—The statement that thousands of tons of anthracite coal were awaiting delivery to retail dealers at the docks of the New Jersey Central Railroad at Elizabethport, N. J., has been verified in detail by a photograph of the yards, practically blocked by loaded cars. There were easily 400 cars

## RUTS

The walking sick, what a crowd of them there are: Persons who are thin and weak but not sick enough to go to bed.

"Chronic cases" that's what the doctors call them, which in common English means—long sickness.

To stop the continued loss of flesh they need Scott's Emulsion. For the feeling of weakness they need Scott's Emulsion.

It makes new flesh and gives new life to the weak system.

Scott's Emulsion gets thin and weak persons out of the rut. It makes new, rich blood, strengthens the nerves and gives appetite for ordinary food.

Scott's Emulsion can be taken as long as sickness lasts and do good all the time.

There's new strength and flesh in every dose.

We will be glad to send you a few doses free.

Be sure that this picture is the mark of a trial on the wrapper of every bottle of Emulsion you buy.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. 50c. and \$1; all druggists.

## THE OLD RELIABLE

THERE IS NO SUBSTITUTE

in the yards and more than 100 additional on main tracks leading into the yards waiting to be taken in by drill engines. Averaging the 500 cars' capacity at 60,000 pounds each, would make the total coal in Elizabethport at the hour of the court 15,000 tons.

At other points there is also a congestion of coal-laden cars, which the officers of some of the coal-carrying roads say is mainly due to the confusion caused by the separating of cars containing independent coal from those bearing the company coal.

### FULTON LEADS.

The first ballot for United States senator at Salem, resulted as follows:

Fulton	28
Geer	20
Wood	18
Scattering	21
Absent	3
Total	90

### Alaska Canneries Merge.

Seattle, Jan. 15.—The 14 independent canneries of Southeastern Alaska were merged at a meeting here today, and the entire pack amounting at the present time to between 600,000 and 800,000 cases per annum, passed to the control of Griffith, Durney & Co., San Francisco, who will establish headquarters here. The new firm will invest about \$1,000,000 in warehouses in Seattle and in rendering assistance to the Northern points, in order to increase their output.

The pricelist for Alaska pinks will be advanced 15 cents a dozen on the average and new lists will be issued at once. The cause of the merger is alleged to be from hostile rulings on the part of the Treasury Department, which threatened to drive many of the canneries out of the business with a total loss of their investments. While the plants will continue to be operated by the individual owners the product, as put up, will be shipped here to Griffith, Durney & Co., and will be disposed of at a uniform price. All competition in the salmon pack of the North is removed and a unity of action will be maintained in the operation of the plants and a compliance with the department rulings. It is estimated that the advance in the list will net the canneries about \$300,000 a year on the pack at the present time. This is the intention to increase as soon as possible.

A syndicate of Vancouver canners is endeavoring to arrange for the establishment of a chain of cannery plants on the Eastern coast of Siberia. John Houston, manager of the syndicate, has started for St. Petersburg to complete arrangements with the Russian fisheries department.
