Deschutes Irrigation.

Washington, Feb. 14.—President Roosevelt this afternoon advised Representative Moody that he today approved the map and contract with the state of Oregon permanently segregating 84,707 acres of land in the Deschutes Valley, which it is proposed shall be reclaimed under the Carey act by the Pilot Butte Development Company, of which A. M. Drake is president.

This action ends the long controversy, and so far as the general Government is concerned, gives this company the right to proceed with the immediate construction of its irrigation system, according to the approved plans. Government officials here regard this as the most important and most promising Carey act proposition in the state, and see no reason why the project should not be carried through in the ten years allowed by law to successful completion.

Under the terms of the contract with the state, the Pilot Butte Company will be allowed to charge an annual water rental on reclaimed lands of \$1 per acre, in lieu of the company amounting to \$848,557.

This case is the first one in Oregon under the Carey act to be approved by the President. It has been hung up in the Land Office since early last Summer. Representative Moody, throughout the session, has been urging immediate action on all Carey act cases in Oregon, but it was not until Commissioner Richards took hold that he was able to get this case "jarred loose."

Pearls Becoming Scarce.

It is reported that a famine of pearls has set in, due to the large demand for these lovely gems. It is claimed that no other stone is so becoming to youth and beauty, but the majority of people throughout the country are not able to purchase these costly gems. However, as long as they enjoy good health they are far richer and will always look better than if they possessed all the pearls in the world. If you have lost the precious possession—health—you should try Hostetter's Stomach Bitters because it is recognized as the best health maker in existence. It will cure headache, nervousness, indigestion, liver and kidney troubles and malaria fever and ague. Our Private Stamp is on the neck of the bottle.

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. WHEELER, Northwood, N. Y. For sale by Slocum Drug Co.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. IRA O. BROWN, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

VOICE OF PEOPLE.

Has Reached Senate Regarding Trusts.

Washington, Feb. 15.—There is possibly some embarrassment ahead of those Senators who have arranged that there shall be no more trust legislation than is contained in the Elkins and Nelson amendment. Here is the judiciary committee of the Senate pounding away on a measure, and it may report the Littlefield bill, so as to make it more drastic than as it passed the House. Should the committee report it, it would mean that the skillfully arranged programme of the Senate leaders might be upset. Men who know something about the feeling against trusts in their states will not be willing to sidetrack legislation like the Littlefield bill has passed the House unanimously.

More than this, the reports that have been so generally circulated that the Littlefield bill was only a "bluff" have caused comment throughout the country of a character to disturb Senators who are closely identified with big corporations.

The imputation of bad faith on the part of the President may also have some effect. Because the President urged the Elkins bill and the Nelson amendment it has been asserted that he was a party to a programme of "mild" trust legislation. As a matter of fact, the policy of the President has been to get all he could when he could. He found that the Nelson amendment could be procured, and that the Elkins bill could be passed, and he accepted both. By threats and methods scarcely in keeping with his office, he might have forced more drastic legislation, but as the two propositions offered were assured, he gladly accepted them. If more can be obtained he will be pleased, but if not, he, as Chief Executive, will see what an enforcement of the new legislation will bring about, and when the next Congress assembles he can urge such additions as are found necessary.

Although the unusual activity on the part of the Senate judiciary committee in favor of more effective legislation is disturbing the Senate managers, the short time remaining of the session makes it well-nigh impossible to secure action before adjournment.
