

A Hospital Case.

There was a hurry call for the ambulance of the City Hospital. In the course of a few moments a very sick woman was brought in on a stretcher—she was pale as death and evidently suffering keen agony. There was a hasty examination and consultation, and in less than a quarter of an hour the poor creature was on the operating table to undergo an operation for ovaritis.

The above is an accurate account of an incident which occurred in New York recently; the young woman in question had warnings enough of her dangerous condition in the terrible pains and burning sensation low down in her left side. She had no one to advise her, and she suffered torture until it was too late for anything to save her life.

Women should remember that if they do not care to tell a doctor their troubles, they should be willing to tell them to a woman, who stands ever ready to advise and help them. Again we state that Mrs. Pinkham's advice is freely and confidentially given to every one who asks for it. Address, Lynn, Mass.

The following letters prove beyond question that Lydia E. Pinkham's Vegetable Compound has the power to cure, and does cure thousands of cases of inflammation of the ovaries, womb, and all other derangements of the female organism.

MRS. OTTOSON SAVED FROM A SURGICAL OPERATION.

"DEAR MRS. PINKHAM:—I cannot thank you enough for what your Vegetable Compound has done for me. If it had not been for your medicine, I think I would have died.

"I will tell you how I suffered. I could hardly walk, was unable to sleep or eat. Menstruation was irregular. At last I had to stay in my bed, and flowed so badly that they sent for a doctor, who said I had inflammation of the ovaries, and must go through an operation, as no medicine could help me, but I could not do that.

"I received a little book of yours, and after reading it I concluded to try Lydia E. Pinkham's Vegetable Compound, and I am now a well woman. I shall praise your medicine as long as I live, and also recommend the same to any one suffering as I was."—MRS. MINNIE OTTOSON, Ohio, Iowa. (June 9, 1901.)

Follow the record of this medicine, and remember that these thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by Lydia E. Pinkham's Vegetable Compound, the great Woman's Remedy for Woman's Ills.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Moral—Stick to the medicine that you know is best. Write to Mrs. Pinkham for advice.

INFLAMMATION OF THE OVARIES CURED WITHOUT THE KNIFE.

"DEAR MRS. PINKHAM:—I wish to express my gratitude for the restored health and happiness Lydia E. Pinkham's Vegetable Compound has brought into my life.

"I had suffered for three years with terrible pains at the time of menstruation, and did not know what the trouble was until the doctor pronounced it inflammation of the ovaries, and proposed an operation.

"I felt so weak and sick that I felt sure I could not survive the ordeal, and so I told him that I would not undergo it. The following week I read an advertisement in the paper of your Vegetable Compound in such an emergency, and so I decided to try it. Great was my joy to find that I actually improved after taking two bottles, so I kept taking it for ten weeks, and at the end of that time I was cured. I had gained eighteen pounds and was in excellent health, and am now.

"You surely deserve great success, and you have my very best wishes."—MISS ALICE BAILEY, 50 North Boulevard, Atlanta, Ga., Treasurer St. Francis Benevolent Association.

The Stomach is the Man.

A weak stomach weakens the man because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodol Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. Slocum Drug Co. A Remarkable Case.

One of the most remarkable cases of a cold, deë, seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I run down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Slocum Drug Co. Ione Drug Co., Ione.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or any attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by Slocum Drug Co.

Excitement Over Gold Find.

Lewiston, Idaho, March 13.—Herman Wundtman, a well known miner, arrived here tonight with three horses packed with gold ore from a strike made 20 miles from Lewiston on Cave Gulch in the Snake River country. The ore weighs about 400 pounds and its estimated value is from \$1500 to \$2000. Wundtman also bought out gold estimated at \$400, which he panned from a hat full of ore taken from the strike. The strike was made on an abandoned prospect and a five foot lead has been opened. A five-inch streak is marvelously rich in free gold and carries estimated values of \$5000 to \$6000 a ton. The strike has caused much excitement and has resulted in a stampeded in the new district.

New Officials at LaGrande.

Washington, March 14.—The Oregon delegation united in recommending the appointment of John W. Knowles, of La Grande, Register, and Asa B. Thompson, of Pendleton, as Receiver of the Land Office at La Grande, to succeed Edward W. Bartlett and Samuel O. Swackhammer, whose terms have expired.

MODERN SURGERY.

Everything Depends Upon the Cleanliness and Exclusiveness of the Operation.

Your modern surgeon of note is a "sterile" man. The operating room, almost hermetically sealed and at a temperature of 100 degrees or thereabouts, is purified daily by means of a hose throwing a solution of bichloride of mercury over ceiling, walls and floors. The surgeon arrives in an anteroom in his civilian's garb. He is required to be clean shaven, like a monk, says the New York Press. His clothes are removed. Two attendants in the sterilizing room hand him a white duck gown reaching from collar to heel, and a cowl of the same material, which covers tightly every part of his head except eyes, nose and mouth. The sleeves of the gown reach to his elbow. He incises his hands in the thinnest, finest sterilized rubber gloves. These garments are handed to him in sterilized tongs. There has been no human contact. Thus equipped, he is prepared to saw and slice.

INVENTOR OF THE BATON.

How It Caused the Death of the Man Who First Introduced the Band Leader's Wand.

The inventor of the baton has been discovered. According to the investigations of a Frenchman the credit belongs to Lully, the composer, who eventually had cause to regret his invention.

Before he adopted the baton, conductors were in the habit of pounding on the floor with their feet or clapping their hands to mark the time. Lully found it wearisome to keep his foot constantly in motion, and so used a stick to strike the floor and beat time. He used a pole six feet long.

One day he brought down the pole with such force that it struck his foot and made a deep wound. He paid no attention to the matter. The wound grew worse and ultimately caused his death.

After his time conductors tried more and more to improve the baton and it was ultimately brought to its present form.

Tall Men in Indiana.

A record of the height of Indiana soldiers in the civil war shows that out of 118,254 there were 15,047 5 feet 10 inches high, 8,796 5 feet 11 inches, 6,679 6 feet high, 2,614 6 feet 1 inch, 1,357 6 feet two inches, 493 6 feet 3 inches, and 336 over 6 feet 3 inches. Commenting on these statistics, Dr. Gould, actuary of the United States sanitary commission, writes: "It is evident from our statistics that the Indiana men are the tallest of all natives of the United States and these latter the tallest of all civilized countries."

NEGROES DON'T MIGRATE.

Some Interesting Facts About the Colored Race Revealed by the Recent Census.

There were 6,560,000 colored persons in the United States in 1880, 7,500,000 in 1890, and 8,560,000 in 1900. A "general movement" of colored inhabitants from one state to another or from one section of the country to another, due to economic, political or hygienic reasons, has been declared to be in progress at intervals of two or three years since the close of the civil war.

But the figures of each succeeding census prove that the colored population of the United States is by no means migratory; it changes little year by year except as the result of the ordinary increase in population. Various ambitious projects of leaders to "colonize" certain states have failed entirely. In Kansas, for instance, there are only 9,000 more colored inhabitants than there were 20 years ago, though Kansas has long been the mecca of many colored colonizers.
