

DRESSER STRIKES A SNAG.

Simon's Protest May Keep Moores in Oregon City Land Office.

Washington, March 18.—The Oregon delegation has run against an unexpected snag in its effort to secure the appointment of Dresser as Register of the Oregon City Land Office.

More than a week ago it recommended Dresser's appointment, but the President did not send in the nomination. This morning the delegation called at the White House to ascertain the cause for the delay, and the President told the members he was somewhat embarrassed. He said that the time Bibes was appointed Receiver at Oregon City, Senator Simon had complained of being discriminated against in the distribution of patronage, and that he (the President) had promised that Simon could name the successor to Moores. He showed the delegation a copy of his letter to Simon to this effect, and said his promise had been called to mind since Dresser had been recommended.

It is not improbable that the matter may have to be compromised by allowing Moores to continue in office, as there would be great opposition by the delegation to the appointment of George A. Steele, who was Simon's choice for the place.

When the delegation left the White House it did not know what action the President would take on the recommendation.

There was some further surprise later in the day when the President sent in the nomination of Thompson as Receiver at La Grande, but failed to nominate Knowles for Register, who was recommended at the same time as Thompson. It is believed some objection has been found to Knowles, either by Secretary Hitchcock or by Commissioner Richards.

Raise Price of State Land

Salem, Or., March 18.—The fact that on May 21 the price of state land will be doubled, has given great activity to the demand for that class of property. School land at \$1.25 an acre seems like a cheap investment that could scarcely prove unprofitable, and many people are anxious to buy before the price goes up. While the actual sales have not yet increased to a marked degree, it is evident from the number and nature of the inquiries received at the State Land Department that the sales for the remaining 60 days will be great.

The records in the land office are in constant demand by persons who wish to hunt up vacant tracts that are believed to be worth the price.

"The State Land Board should raise the price of land immediately," says Elmon Ford, a Salem attorney, who has been observing the preparations now making for a general scramble for land before the new law goes into effect.

"The board has authority to do so," he continued. "The present law fixes the minimum price of school land at \$1.25 an acre and leaves the board to make the figure as much higher as they wish. It is plain that those who are after state land will buy all the best of it before the price is raised, and they will make the profit. Why not raise the price now and let the state make the profit?"

"What if raising the price does lessen the number of sales—the school fund already contains a surplus of \$700,000, and there is nothing to be gained by selling more land. The legislature has declared that the price should be doubled, and, in my opinion, it should be doubled now."

Appoints an Enemy.

In appointing Charles F. Humphrey Quartermaster-General President Roosevelt promoted a man he dislikes, simply because he is the best man.

There was friction between Colonel Roosevelt, of the Rough Riders, and Colonel Humphrey in Cuba.

When Colonel Humphrey was recommended as the best man and his service in Cuba, China and the Philippines proved it, President Roosevelt forgot Colonel Roosevelt's grudge.

Mitchell's Health Improving.

Washington, March 20.—During the past few days there has been a marked improvement in the condition of Senator Mitchell. Since Senator Fulton has settled in the harness, he has been able to relieve his colleague of many of the burdens he has borne through the Winter, and Senator Mitchell has had more time to visit. By following this course, he has gained considerable strength and is now able to handle his own correspondence as it arrives.

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only cure for Coughs, Colds and Lung diseases. Guaranteed by Shoen Drug Co. Prices 50c and \$1.00. Trial bottles free.

I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.

J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cured by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it be possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proved in all forms of Female Weakness, Proflapsus, or Falling of Womb, and Leucorrhoea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay \$500 in cash for any case of these diseases which he cannot cure.

IT STANDS ALONE.—The "Favorite Prescription" stands alone, as the one and only remedy for these distressing common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in proposing, and binding themselves to forfeit, as we, the undersigned proprietors of that wonderful remedy hereby do, to pay the sum of \$500 in legal money of the United States in any case of the above diseases in which after a fair and reasonable trial of our treatment, we fail to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee; no other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

Therefore, insist on having Dr. Pierce's "Favorite Prescription" and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to feign upon you some inferior substitute, under the plea that "it is just as good." Insist on having the article which has a record of a third of a century of cures and which is backed by those willing to forfeit \$500 if they cannot cure you.

In cases attended by a leucorrhoeal drain a solution of Dr. Pierce's Lotion Tablets should be used conjointly with the use of the "Favorite Prescription." They are sold by all druggists, or sent post-paid to any address, on receipt of 25 cents in stamps. Send 3c in stamps for Dr. Pierce's Common Sense Medical Adviser. Address WORLD'S DISPENSARY, Buffalo, N. Y.

WHY?

The reason One Minute Cough Cure relieves a cough in one minute, is because it acts first on the mucous membrane right where the cough troubles—in the throat or deep-seated on the lungs, destroying the microbes or cough germs and clearing the phlegm. One Minute Cough Cure not only destroys the disease germs and clears out their poison, but it gives strength and elasticity to the delicate membranes which protect the throat and lungs. Opens the air passages and promotes unobstructed breathing. Causes the blood to receive its natural supply of oxygen, thus exhilarating the pulmonary organs with such strength and vigor that the lungs and bronchial tubes become bulwarks against the incursion of disease. Asthma, Bronchitis, La Grippe, Cold on the Lungs and all Pulmonary Complaints that are curable are quickly cured by the use of
