Address all orders to GAZETTE, Heppner, Oregon.

After a series of feeding experiments dating over about eight weeks, W. J. Townley, a prominent hog raiser of Union, says he has demonstrated that he can secure \$42.05 worth of pork with \$28.66 worth of feed. He selected six hogs of about equal possibilities for the experiment, separated them into three pens of two each, and weighed them at the end of each week, giving each pen separate classes of feed. To the first pen he fed a mixture of two parts shorts and one part bran for a period of 62 days. To the second he fed chopped wheat for 49 days. To the third pen he fed a mixture of shorts, chopped wheat and bran in the ratio of 10 to seven to three. Mr. Townley has just made out a summary showing that the six hogs consumed 2829 pounds of various kinds of feed during the experiments. The aggregate cost of this feed at current prices was \$28.66. The gain in pork was 647 pounds, which at \$6.50 per hundred weight is \$42.05.

Hired help is reported scarce in much of Eastern Oregon and south of Snake river, in eastern Washington, this spring. The call for men to assist in seeding on the wheat ranches was unusually heavy because much more spring wheat is being put in than usual. Breaking out so much new land this spring has created a demand for experienced ranch hands. Simultaneously came the cry for men to help in the sheep camps, where lambing was about to begin, and stockmen are looking out for men to go into the mountains for the summer. Between railroad construction, irrigation ditches, wood camps and a dozen other occupations, not many available men are left in the country, and the result has been a cry about scarcity from many parts. Men can find employment at good wages almost anywhere in the southern portion of the Inland Empire today.

PALACE SUNDAY DINNER.

April 12, 1903. Price 50 cents. Weekly boarders will not be charged extra.

BILL-OF-FARE

LEXINGTON NEWS.

LEXINGTON, April 8, 1903.

Miss Minnie Burgoyne has been sick for several days.

Some of the eighth grade pupils are taking examination this week.

Perry Snyder, who has been taking a course in medicine at Salem, returned home last week.

R. M. Needham is trying to organize a camp of Modern Woodmen at this place.

Frank Smith is drilling a well for W. T. Campbell this week.

The stockholders of the Artesian Building Association held a meeting last Saturday. A board of directors was elected, consisting of H. E. Burchell, W. E. Leach, C. R. McAlister, W. P. McMillan, S. E. Notson, W. J. Davis and W. B. McAlister.

J. R. Cypert expects to move out on his ranch this week.

Uncle John McMillan is rejoicing in the fact that he now has a well on his ranch. It is 173 feet deep and contains 85 feet of water. The well was located by J. S. Boothby, who can see water underground if anyone can; and Jo Bob Johnson will find the water if it is there.

Word was received here a few days ago that Ed Lienallyn, son of Ransom Lienallyn, formerly of this place, had died at Walla Walla. The family have the sympathy of this community.

If W. J. Bryan discovers the error in the Declaration of Independence in the Oregon code, he will find some fault with our state printer.

Worthy Society.

The John Burroughs Society of Portland has, through the generosity of Mrs. Rosa F. Barrrell, two cash prizes to award for knowledge of the native birds of Oregon. Those prizes are given yearly to the classes of the highest grade in the elementary schools of the state.

The first prize is \$12.00, the second \$8.00, to be awarded to those who can name the most birds by sight and song, and who write a sufficiently excellent composition on the subject. The relative markings for the two examinations will be, upon a scale of 100, 60 per cent for the field test and 40 per cent for the composition test. That is, actual knowledge of the birds will count for more than excellence in composition.

The competition is open to the class graduating in February as well as to the class graduating in June. The compositions must be in the hands of the corresponding secretary of the John Burroughs Society 634 Williams avenue, Portland, Oregon, not later than June 1.

Any subject based upon personal observation of our native birds will be acceptable. One particular bird may be selected for study; or some such subject as the following may be chosen: "Nests of Oregon Birds," "Feeding Habbits of Our Native Birds," "Birds Friends of the Farmer," etc. In all observations time and place should be carefully recorded.

The field examinations will be given the last week in May and the first week in June. All who send compositions will be considered as applicants for a field examination, and the address of each writer should be enclosed with the composition.

Almost Completed.

The Lyle Go. dendale Road is now fast nearing completion. The roadbed is all graded and the contractors are out of the way. There is a large crew at work laying the track as fast as possible, in order to get the road completed before the last of April. Track is now laid for a distance of 27 miles from Lyle, to near Swail Canyon, and it is expected that the work will be completed as far as Centerville by the 20th of April. After this, it will be only a few days' work to complete the whole.

Spring Medicine

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

"Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last spring I was all run down and got a bottle of it, and as usual received great benefit." Miss BEulah Boyce, Stowe, Vt.

Hood's Sarsaparilla promises to cure and keeps the promise.

An April fool joke caused a \$200,000 run on a private bank of Chicago.

The first class of 12 students graduated from the Naval Medical School at Washington yesterday.

Mrs. Hetty Green has left Hoboken, N. J., for all time. She was annoyed at the attempt to collect dog license.

The Earl of Yarmouth's bride, who was Miss Alice Thaw, having come of age, will come into an estate of \$2,000,000.

The State National Bank and the Colonial National Bank, of Cleveland, Ohio, will merge, with combined resources of \$12,000,000.

The Marchese Carlo di Radini, son of a former Italian Premier, broke a bank at Monte Carlo. His winnings amounted to \$40,000.

Sixty Chinese, gathered from Northern New York and Vermont, arrived at Providence, R. I., yesterday, to be deported by way of San Francisco.

Four members of the Philadelphia Schol Board have been found guilty of accepting bribes from women candidates for positions as school teachers.

Victor D. Withstandley, cashier of the Hecker-Jones-Jewell Milling Company, of New York, has been missing for a week and experts are engaged in examining his accounts.

English papers are alarmed at a rumor that Emperor William is making efforts to induce British governmental co-operation in the construction of the Bagdad Railway.

J. L. McGinn, of Portland, has resigned as district attorney at Nome.

Dr. Franklin H. Giddings, of Columbia University, predicts that in 50 to 75 years the cities and towns between Lynn, Mass., and Mount Vernon, Va., will have grown together until they will form a continuous city, joined by trolley lines.

The Alaska Construction Company has advertised for bids on 50,000 standard-gauge railroad ties to be delivered at the mouth of Soloman River, Alaska, by June 15.

Several Umatilla farmers are experimenting this year with the new method of raising alfalfa without irrigation. The seed is supplied by Colonel R. C. Judson of Portland, industrial agent of the O. R. & N. Co., who will send any rancher sample packages sufficient for a year's experiment on application. Colonel Judson claims to have alfalfa seed which will grow in the most arid district Eastern Oregon boasts. He says splendid results were secured in the experiments at Coyote station, on the Columbia, in northern Morrow, one of the sandiest and most arid spots in the state.

Chronic Diarrhoea.

M. C. B. Wingfield, of Fair Play, Mo., who suffered from chronic dysentery for thirty-five years, says Chamberlain's Colic, Cholera and Diarrhoea Remedy did him more good than any other medicine he had ever used. For sale by Slocum Drug Co.
