

A Marvelous Aerial Globe.

One of the attractions planned for the St. Louis World's Fair will be an aerial globe, 700 feet high. Some idea of its magnitude can be obtained after comparing it with the popular Ferris wheel, which is considered a crude affair beside it. This statement is also appropriate, after comparing the celebrated Dr. King's Stomach Bitters with the other stomach remedies. Its 50 years' record of cures puts it so far in the lead as a family medicine that the others are considered crude affairs and hardly worth a trial. Then don't delay longer, as delay is always dangerous, especially in cases of indigestion, dyspepsia, constipation, biliousness, insomnia, chills, fevers or malaria, fever and ague. The Bitters positively cures these ailments as thousands have voluntarily testified. Try it and see for yourself.

All the furs stolen from the Silverfield fur parlors at Portland, have been recovered. The stolen goods amounted to \$5,000 worth of the finest furs in the house. Matt Cullen and George Kelly are in jail awaiting trial for the theft.

Harry Cook, an Idaho sheepman, is under arrest at Stanford, Mont., for killing Joseph Vander, in a quarrel over a game of cards. Cook lost his money and then got a Winchester and "shot up" the house, killing Vander as he was crowding out of a rear door.

Escaped an Awful Fate.

Mr. H. Higgins of Melbourne, Fla., writes, "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Sloan Drug Co. Price 50c and \$1.00 trial bottles free.

Only one failure of a private business firm is so far reported as a result of the Baltimore fire. It is W. C. Stewart & Sons, builders' hardware.

Almer McKinley, brother of the late president, lies dangerously ill at Johnstown, Pa.

Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicine I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run-down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by Sloan Drug Co.

Marcus A. Hanna left a fortune of between \$7,000,000 and \$8,000,000 in value, all in active profitable properties.

Leo Pinkus a musician who was injured in the Iroquois theater fire died February 15. He was the 576th victim.

Nearly Forfeits His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. 25c at Sloan Drug Co.

Albert Beckman, the murderer of his sweetheart, Helen Kelly, was sentenced to 99 years imprisonment for the crime, at Butte, on Tuesday.

The entire southern part of West Virginia is under a sheet of ice an inch thick, the effect of heavy sleets.

Mysterious Circumstance.

One was pale and sallow and the other fresh and rosy. Whence the difference? She who is blushing with health uses Dr. King's New Life Pills to maintain it. By gently arousing the lazy organs they compel good digestion and head off constipation. Try them. Only 25c at Sloan's drug store.

The new M. E. church, South, was dedicated Sunday. Rev. H. S. Shangle preached an able sermon, after which the trustees presented the church for dedication. The usual dedicatory ceremony was then performed. Though the weather was very inclement, the church was filled. A collection for the church benevolences was taken and amounted to \$71.89. The building committee reported the cost of the church as \$1992.39. This is exclusive of the bell, two doors, some windows and a few other articles saved from the old church. The building materials were furnished at cost by W. P. McMillan and Nichols & Leach.

If the materials had been paid for at retail rates, the cost would have reached \$2500. The total receipts including some outstanding subscriptions are \$2017.59. This leaves a few dollars surplus to be applied on another coat of paint. All those interested in the church building enterprise are to be congratulated upon their success. May this building prove a blessing to the community. Quite a number of people from Heppner and other points attended the services.

EARLY RAILROADING.

When Twenty-Three Miles an Hour Was Fairly Flying and suggestive of Death.

From the diary of Thomas Creevey, who lived in England during the early part of last century, says the Chicago News, the following is quoted: "Lady Wilton sent over yesterday from Knowsley to say that the Loco Motive machine was to be upon the railway at such a place at 12 o'clock for the Knowsley party to ride in if they liked, and inviting this house to be of the party. So, of course, we were at our post in three carriages, and some horse-men, at the hour appointed. I had the satisfaction, for I can't call it a pleasure, of taking a trip of five miles in it, which we did in just a quarter of an hour—that is, 20 miles an hour. As accuracy upon this subject was my great object, I held my watch in my hand at starting and all the time; and as it had a second hand I knew I could not be deceived; and it so turned out there was not the difference of a second between the coach or conductor and myself. But observe, during these five miles the machine was occasionally made to put itself out or go it, and then we went at the rate of 23 miles an hour, and just with the same ease as to motion or absence of friction as the other normal pace. But the quickest motion is to me frightful; it is really flying, and it is impossible to divest yourself of the notion of instant death to all upon the least accident happening."

CAT FOUGHT AN EAGLE.

Pussy Was Pretty Severely Scared, But Put an End to the War-like Bird.

A cat owned by the engineer of a freight train on a western road seemed to enjoy sitting on the pilot while the train was in motion, says a Chicago paper. A lively adventure befell this fearless pussy during one of his master's trips. As they were slowly rounding a curve one morning the engineer noticed an eagle sitting on a tall dead spruce. Just as the locomotive came abreast of the tree the eagle suddenly swooped downward and fiercely attacked the cat.

For several seconds there was a battle royal. The eagle made half a dozen attempts to carry away the cat bodily, but each time the cat would make a savage onslaught upon the bird with teeth and claws, and the air was full of feathers. As the train pushed ahead, the two men in the cab were filled with apprehension for the cat. The whistle was blown, but neither combatant paid the least attention to the sound.

Finally the engineer armed himself with a bar of iron and started out on the running board to aid his pet; but before he reached the scene of action the cat had torn a great hole in the eagle's throat, and the bird was in its death struggles. It was carried into the locomotive tender, where it died in a few minutes. The cat bore the scars of battle, but recovered.

BURIED BEAUTY IN PARIS.

Magnificent Stonework in the Foundations of the Louvre in the Old City.

It has been known for some time that the roadway in front of the cathedral of Notre Dame, in Paris, is much higher than it originally was, and that the view of the entrance suffers in consequence. The architectural expert of the Louvre museum, M. Redon, has discovered that the Louvre is also buried beneath the ground to a far greater depth than the original plans warranted, writes a Paris correspondent of the London Telegraph. M. Redon concludes from his first investigations that, as planned at first, the Louvre was to have been encompassed by a moat, the excavation of which was

prevented by the houses that surrounded it at the time. Afterward, when the houses were got rid of, the idea of the moat was forgotten, and the land rose naturally to its present height, hiding over 24 1/2 feet of the building. The committee for the preservation of old Paris intends, under M. Redon's supervision, to clear away the tarth and disclose the magnificent stonework of which the base is constructed.
