Address all orders to GAZETTE, Heppner, Oregon.

## OREGON DEVELOPMENT LEAGUE

Portland, August 2, 3--One Fare for Round Trip.

Portland, July 25.—That the Oregon Development League Convention, to be held at the Marquam Grand Theatre, in Portland, under the auspices of the Portland Commercial Club, August 2, and 3, will be a magnificent success is now assured. It is desired that all delegates who can do so will be at the Marquam Grand by 9:30 so as to register and receive badges, as it is especially desired that the convention be called to order not later than 10 o'clock and get down to work immediately for complete and effective organization.

There will be but few set speeches and these will be delivered by practical men in the different industries, and after each address delegates to the convention will be given an opportunity to ask the speakers such questions as they desire and to comment upon the facts presented. It has been suggested that it would add greatly to the effectiveness of the work if the delegates from different communities will perfect an organization of their delegation before leaving home.

If each and every delegation will prepare condensed reports of actual production, giving not only the actual results accomplished by growers and producers but the name of that grower or producer, in the same plain, direct language that an Oregon farmer would use in writing to an old friend in one of the distant states, then we will have matter for the use of the newspapers and the immigration departments of the railroads that will secure results. These reports should be written in duplicate, not only for the use of the Portland papers, but to insure a complete report of the proceedings. If the convention can take the form of an experience meeting, in which long speeches are left unsaid, and bright, pithy, striking points are made, it will insure not only the permanency of the Oregon Development League, but will be of benefit to every section of this state.

A round trip open rate, good for everybody, has been put on by the railroads, and tickets are good on all trains arriving in Portland on the afternoon of August 1 and morning of August 2, good to return until August 4, except that fares of 50 cents or less will not be reduced. It is advisable that those attending the convention should get definite particulars from their local agent as to the time of the departure of trains. Residents of Oregon who take

advantage of this rate and are not delegates to the convention, will be welcome to attend the convention, occupying seats in the balcony and gallery. The seats in the parquet will be used exclusively for delegates. Desiring to keep a record of this convention, not only in type but in illustrated form for general circulation, a snap-shot photograph will be made exactly at eleven o'clock Tuesday morning, August 2. The taking of this picture will occupy a minute or two of the convention's time.

A committee from the Woman's Club of Portland will have charge of a trolley ride to be given to the wives, daughters, sisters and other ladies accompanying delegates to the convention, for which four large cars have been supplied with the compliments of the Oregon Water Power and Railroad Company. This special train of trolley cars will leave the corner of First and Alder streets exactly at 3 p. m., August 2, for a trip to Canamah Park, beyond Oregon City.

Delegates to the convention and ladies accompanying them are cordially invited to attend a reception as the guests of the Commercial Club Tuesday evening from eight to eleven o'clock, and during both days of the convention, the rooms and especially the tower of the Commercial Club, will be open for the use of visitors and delegates. All those who have never had the pleasure of a birds-eye view of Portland should improve this opportunity.

The convention will adjourn in ample time to give all the delegates and the ladies accompanying them an opportunity to enjoy a trolley ride over the city, in which ten open cars will be used, jointly supplied with the compliments of the City & Suburban Railway Co., and the Portland Railway Co. These cars will start from Third and Yamhill streets Wednesday afternoon, promptly at 3 o'clock, and two citizens of Portland will be upon each car to point out places of especial interest.

TOM RICHARDSON,  
Manager Portland Commercial Club.

### Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption; Pneumonia and Grip. Guaranteed by Slocum, Druggist. Trial bottles free, regular sizes 50c, and \$1.00

The estate of the late Charles S. Dewey, of Wheeling, W. Va., which amounted to \$1,000,000, will be squandered in litigation, his heirs having begun suit now for redistribution.

### That Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and build up your health. Only 25c, money back if not cured. Sold by E. J. Slocum, Druggist.

Medals and St. George crosses were distributed by the Russians to Cossack soldiers who carried 50 of their wounded comrades 550 miles after the recent raid in Korea.

## THE MAYFLOWER GROUP.

Arrangements are Being Made to Patent This Property.

Dan Stalter, the discoverer of the Mayflower mine in the Greenhorn mountains, arrived in Canyon City Wednesday. He came over to take the preliminary steps toward securing a government patent for his quartz properties.

The Mayflower quartz property was discovered and located by Mr. Stalter several years ago while working with sheep in the mountains. The group is located on the south slope of the Greenhorn range between what is known as the east fork of Big Boulder creek and Beaver creek. The property was sold to the Heppner Mining Co., and with Mr. Stalter the entire stock of the company is owned by Morrow county people.

This group is composed of ten claims, on which they have five distinct ledges, which average from six to forty feet in width and all have ore that assays well, as far as developed, containing free milling ore except one claim. On the ten claims Mr. Stalter's company has over 1000 feet of tunnel and 200 feet of shaft. They are now working in their longest tunnel which is in at a depth of 400 feet, and expect to continue work until the tunnel on that property is completed to a depth of 800 feet. They have between 200 and 300 tons of free milling ore on the dump at the present time, and with the vast amount of like ore in sight on their group, makes Mr. Stalter confident as to its future. They will erect a five stamp mill next season and from all assays they have had on their ore, their property is destined to become an important producer in the near future.—Long Creek Eagle.

### A Retraction.

Ladies' Home Journal for June.

In the May number of the Ladies' Home Journal we published, in the article entitled "The Patent Medicine Curse," an analysis of "Dr. Pierce's Favorite Prescription," in which that preparation was represented as containing, among other ingredients, tincture of digitalis, tincture of opium and alcohol. Immediately on publication of the number a suit for damages was instituted by the R. V. Pierce Medical Co., of Buffalo, N. Y., proprietors of the preparation in question, against the Curtis Publishing Company, based upon the claim that none of the three ingredients were contained in the medicine:

\* \* \* Upon the filing of the suit we, of course, immediately looked into the published analysis. It appears that this particular analysis had been made, if made at all, fully twenty-five years ago. We thereupon employed three leading chemists in different cities to make an analysis of the preparation from bottles bought in the open market. These analyses, one and all, now show to us conclusively that not a single one of the ingredients mentioned by us in the analysis quoted—that is, either digitalis, opium or alcohol—was contained in the bottles analyzed. We then, the president of this company and the writer, personally visited the R. V. Pierce Medical Company, at Buffalo, and were there convinced that the officers of the company were absolutely truthful in their claim that not one of these injurious ingredients was contained in "Dr. Pierce's Favorite Prescription." Naturally, since the analysis we printed has been proven erroneous, the deductions made in connection with this preparation were unwarranted and unfounded.

Under these circumstances it is now perfectly plain to us that this magazine was unintentionally, but nevertheless

absolutely misled in making the original statement, and we hereby, of our own volition, make this unqualified acknowledgment of our mistake to the R. V. Pierce Medical Company and to our readers.

The mistake was honestly made, but it was a mistake.

### Attention Exhibitors.

To the Editor:—We are making an effort to secure for Morrow County a creditable exhibit to go to the Lewis and Clark Exhibition at Portland next year. Considerations of pride as well as our material interests require us to make the best display our county can afford. To this end we are asking our people to furnish us anything of exceptional excellence produced in the county. We want a large collection of our best grasses, in the straw and in the berry, of our best grasses, fruits, in fact anything of exceptional quality produced within our limits. We want the people of every district in the county to give us samples of their best products. We will gladly furnish jars and preservatives for all products which require this mode of preservation. Every sample will be labeled so that each locality will get proper credit for what it furnishes.

We have safe and ample storage room for all products in the basement of the courthouse at Heppner, where they will eventually be brought to await shipment. To facilitate the gathering of material, however, we have established local depositories throughout the county. Leave your samples with Nichols & Leach, Lexington, J. A. Woolery or C. T. Walker, Ione, A. C. Morgan, Douglas, F. B. Holbrook, Irrigon, H. E. Warren or Geo. Bleakman, Hardman, or at The First National Bank in Heppner. Let us all take an interest in this matter and get together a display which will be a credit to Morrow County.

Very truly yours,  
GEO. CONSER, Commissioner.

### Worst of all Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years, she writes, 'I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered.'" For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is only medicine. Only 50c. It's guaranteed by E. J. Slocum, Druggist.

Cattlemen of Montana met in Butte Friday, for the purpose of securing more uniform observance of laws regulating stock diseases.

## SENATOR MITCHELL HOME.

Hon. John H. Mitchell, senior Senator from Oregon in the National Congress, has arrived in Portland, much wearied from his legislative duties and pleased of the opportunity to secure a rest. He will remain during the summer. According to an interview had with the Senator, published in the Portland Telegram, he has not the slightest doubt of the re-election of President Roosevelt, this fall, and thinks that the only state Parker stands a show of carrying, if any at all, will be New York, and there are grave doubts of his ability to carry that. When asked as to the outcome of the election Senator Mitchell said: "Everybody in the East feels confident of President Roosevelt's election. I believe that he will be elected by a greater popular and electoral majority than was the late President McKinley." He intends stumping the state in the interest of President Roosevelt's candidacy. In regard to irrigation in Oregon, he said:

"Yes, the Government is going to do a great deal for irrigation in Oregon. The greatest difficulty thus far encountered has been that of conflict with private irrigation schemes. Delay has been occasioned through the occupancy of rights of way by private companies and the adjustment of these differences has served to retard progress of the Government's work. The Department of the interior has set aside \$300,000 for carrying on irrigation work in Oregon, and I believe the enterprise will be pushed. This will in the end be of very material assistance to the state by way of developing its latent resources through the reclamation of new arid tracts, and will lend a special impetus to encouraging Westward immigration."

Irrigation in the vicinity of Kennewick, Wash., has increased the value of land from \$15 and \$25 per acre to \$500 per acre, and the returns received by the farmers are sufficient to warrant the prices now paid. Similar results are in sight for the land around Pasco, for years regarded as one of the most worthless portions of the entire Pacific Northwest. One advantage accruing from the cultivation of these irrigated lands is that the farmers cannot grow wheat at a profit on \$500 per acre land. This results in more "intense" farming, and, instead of one family on a thousand acres, as is frequently the case with wheat farmers, there will be ten families on a 100-acre tract, and all of them will be making something more than a living. If all of the land susceptible to cultivation in Oregon and Washington were farmed as carefully and to such good advantage as is the case with the irrigated districts, the population would run into millions.—Oregonian.

Pendleton Tribune: The first serious grain fire of the year occurred Saturday on the farm of Lowell Rogers, about one and a half miles from Adams, destroying 500 sacks of wheat, three wagons, including the cook wagon, a haystack consisting of several hundred tons, and burning a horse so badly that it died in a few minutes. The loss is estimated at nearly \$2000. The fire was caused by the two little daughters of the woman engaged by Mr. Rogers to cook for his crew during the harvest season.

About a month ago the Great Southern Railway Company made a proposition to The Dalles that if a certain amount of money be subscribed by the citizens of The Dalles for a right of way through land belonging to Seufert Bros. and B. F. Laughlin, that the terminus would be located at The Dalles. The amount necessary to consummate the transaction was \$6,500, which has been subscribed. The road will be in operation on or before Aug. 1, 1896.
