There is considerable complaint among local cattle men over the dipping regulations that are being so rigidly enforced. After the first of the year the railroads will not receive cattle for shipment without a permit from a government inspector. Very few cattle in this vicinity are affected with disease and to dip healthy stock is a big handicap, especially to the man who holds a few cattle to sell at odd times. It will probably be necessary to build dipping vats in Heppner.

A carload of 100,000 pounds of sugar beets from the C. R. Lisle farm, near Echo, passed through on No. 24 Friday, to the factory at La Grande, says the East Oregonian. The beets were smooth and finely formed and show every sign of producing a high sugar percentage. They were of uniform size and well proportioned and were not inferior in appearance to the best crops grown in the Grand Ronde beet belt. This is about the last of the crop from Echo, and will be among the last carloads to arrive at the factory as the harvest in Grand Ronde is about over.

Keith Stock Company next Monday night.

Eugene Campbell's residence, which was partially destroyed by fire, is being repaired and will soon be ready for occupancy again.

A good story is told on the Morrow county court. One day last week the county judge and commissioners and clerk drove out to Rhea creek to view a bad road and take notes as to the method of repair. The biggest complaint came from the fact that the road was so narrow that teams could not pass. After reaching the neighborhood from whence the complaint came from, the judge was driving at a good gait when he made a curve and came right face o face with a big freight outfit. The freighter's outfit was the biggest and like Leonidas and his 301 Spartans held the pass. The county court had to unhitch and lift their vehicle to one side. The judge has taken a contract to widen that road him self.

The next attraction booked at the opera house is the Keith Stock Company, headed by a popular leading man, Mr. Del Lawrence, supported by a very strong company of artists especially selected for their various roles. Mr. Lawrence has been connected with some of the best companies in the country, and that is surely a treat in store for the lovers of good, clean comedy and drama. The Keith Stock Company present a repertoire of variety plays with scenery surpassed by no stock company traveling. The opening play, "Power of Truth," is a comedy drama in four acts, intermingled with pathos and laughter. The Keith Co. comes to us well recommended from neighboring cities. Refined vaudeville specialties are introduced between acts, making a continuous performance. The company carries a quartet of excellent singers, special scenery and costumes used in every production. The company will open a week's engagement at the opera house, commencing Monday, Nov. 28th. Prices 25 and 50 cents.
