E. L. Thomas was granted a license to operate a ferry across the Columbia river at Cast's Rock.

The court ordered that a new J. P. district for Irrigon precinct be created.

E. C. Hamilton was appointed justice of the peace, and H. A. Prost was appointed constable.

CELEBRATED ENTERTAINER.

Cyrus Brownlee Newton Will Appear at Opera House.

Cyrus Brownlee Newton, the celebrated humorist and entertainer, will appear at Roberts' opera house on Monday, January 30. Mr. Newton is a native of California. For some time he

was engaged as a teacher of elocution in a number of the leading educational institutions.

His splendid humorous entertainments attracted wide attention in his native state. He has appeared over fifty years in San Francisco alone, before clubs, lodges, churches, etc. He is without doubt the most finished entertainer this state has produced. He has toured extensively in every state in the Union with the exception of Maine, New Hampshire and Vermont. He has made a successful tour of the Hawaiian Islands, New Zealand, Australia and Canada, appearing in most of the large cities. Among the pleasing features of his entertainments are rare simplicity and naturalness of his humor, refined personality, remarkably melodious voice and great versatility. "As an entertainer he has no superior and few equals."

School children will be admitted for 25 cents. General admission 35 cents and 50 cents.

WILL REBUILD.

Union Meat Market Will Replace Plant.

A new and improved plant will be put in by the Union Meat Company, where fire destroyed the building and practically all of its contents Tuesday night. This is the statement made by President J. F. O'Shea.

Destruction of the building and plant threw 150 employes out of work, entailing much loss in that manner, as the payroll was large. With the other machinery and fixtures was burned the complete canning plant, which had but recently been added to the concern, this department alone keeping 18 men and women busy. The loss there was \$18,000.

Statement of losses—President J. F. O'Shea now estimates the total losses in the big Union Meat Company's fire at from \$150,000 to \$200,000. He says it is impossible to make a closer figure, because much meat may yet be saved from the basement.

The Pacific Coast.

The Pacific Coast is coming to its own. The talisman that is producing this consummation so devoutly to be wished is the splendid Exposition that is to be held in Portland next year. The Coast is just beginning to awaken to a realization of the great opportunity that is being presented to it. California usually alive to its opportunity, is considering the expenditure of a quarter of a million dollars on the Lewis and Clark Exposition. It now remains for Washington and other states to get in on line in the proper manner. This Exposition, while held in Portland, is going to be a tremendous factor in the upbuilding of the Pacific Coast. The eyes of the world are being turned toward us, and it behooves every one of us to do his duty toward his state and toward this Coast. Let us cement the people of this great Western region into a unified body, bent upon the upbuilding of our unparalleled land and the exploitation of our marvelous resources and advantages. We need people. We need nothing else. We have it all. No other people in the world are so fortunate as we. Let us tell the world what we have; but let us go forward in an unbroken phalanx to triumph and a permanent and increasing prosperity.—From The Pacific Monthly for January.

CATTLE MEN ENCOURAGED

GOOD FEELING PREVAILS IN BUTTER CREEK.

Stockmen Say That 15 Per cent is Saved by Using Hay Choppers.

George Vincent, the well known stockman and all 'round prosperous ranchman, came in from his Butter creek place this week.

Mr. Vincent states that Butter creek people are prosperous and all are in exceptionally good spirits over the prospects of the cattle market which is a prominent factor in the Butter creek district.

In the past two weeks 17 carloads of beef cattle have been shipped to Seattle markets at prices ranging from \$3.45 for steers and \$2.50 for cows which is an advance that has caused much good feeling.

The above prices when compared with previous conditions are encouraging, especially when the demand is greater than the supply which is the case in the Butter creek feeding grounds.

After the middle of the month and specially along in the latter part of January the feeders expect to have a larger supply to turn off and feel confident of a still better market.

Owing to a decided scarcity of beef stock among Western growers, a condition has arisen that is encouraging to men who are handling cattle.

Mr. Vincent states that an agreement between Seattle and Portland buyers has been in force for the past three years which has given Portland exclusive privileges over the Butter creek territory, and these people have been at the mercy of Portland buyers.

Owing to a great scarcity in the Okanogan country in Washington, in Idaho and bad shipping prospects in Montana, Seattle buyers have been forced to come to Butter creek. The consequences are that the head buyer of Frye-Bruh & Co., the big Seattle dealers, have sent a man direct to Butter creek, which is the direct cause of the present activity.

It is estimated that 5000 head of beef cattle will be fed on Butter creek this season. Mr. Vincent is feeding 250 head.

Mr. Vincent predicts that the new cutting machines now being introduced on Butter creek will be a great success. The machines cut the hay into pieces all the way from an inch to four inches in length, giving the stock a better chance to get it all, thus saving at least 15 per cent from being tramped and wasted. When it is considered that Butter creek feeders use thousands of tons each year a saving of 15 per cent is not to be overlooked.

The machine belonging to Messrs. Thompson, Saylor and Stanfield is being operated to its fullest capacity and an output of 40 tons per day is being turned out. The owners of this machine have enough cattle to consume the entire output of the machine.

T. D. Matthews and H. E. Batholomew have purchased a new machine which will be put in operation at Pine City.

Mr. Vincent predicts that in the near future all the Butter creek feeders will be using choppers.
