B. F. Swaggart recently sold to the Peasland Land & Livestock Company 151 head of prime young cattle. While Mr. Swaggart did not make the price public he stated that he was very well satisfied with the price obtained. Mrs. Fred Warnock gave a linen shower at the home on Chase street yesterday afternoon for Miss Mabel Ayers. Thirty-five invited guests were present. Mrs. Warnock was assisted in receiving by Mrs. S. William Spencer. Refreshments were served in the dining room by Misses Nora Matlock, Willetta Leezer, Helena Rhea and Edythe Hager.

Heppner people were well pleased with the orchestra concert given by McMinn's orchestra from Pendleton at Roberts' opera house Monday evening. This orchestra handles a good class of music which was executed exceptionally well especially when it is considered the handicaps that usually attend local musical organizations. The violin solo by M. H. McMinn, the director, was worth the price of admission alone. His bow work was fine and his control of the king of instruments showed proper training coupled with talent. The tones produced in the different positions while distinct were marked with that delicate purity which must attend solo playing. The orchestra is composed of six pieces and all are good players.

Attorney C. E. Redfield returned from Pendleton Tuesday evening.

The Monument Enterprise is proud of the fact that Monument is no longer a mere stopping place, with a store and postoffice, but is now an incorporated city, with a city government of its own.

J. W. Hamilton, of Hamilton, was in this community this week looking for steers. He offers \$15 for yearlings, \$22.50 for twos and \$25 for three-year-olds. He returned home Wednesday and so far as we could learn no deals were made.—Monument Enterprise.

Rev. J. V. Crawford went to Irrigon today on matters connected with church affairs. Rev. McIlvaine, the former pastor of the Irrigon Christian church, has resigned on account of sickness. Rev. Crawford has been assigned the vacancy for one half the time. Rev. Crawford will hold services in the new field Sunday.

The Wallowa county court has appropriated \$1000 to advertise Wallowa county at the Lewis and Clark fair. A development league has been organized and that pros-

perous region far away has determined that it shall be known and that distance to the outside world should be reduced by the iron horse. Wallowa county is the home of a very prosperous and industrious people and its future is the brightest. The fair directors should give it special attention.

Polk county asks for no offices for its delegation in the legislature. It asks for no appropriation for military companies; no bounties for coyote scalps; no fish hatcheries; no portage roads; no appropriation for national, state, district or county fairs located within its borders.—Independence West Side. No, Polk foregoes everything else if it can secure a big, fat appropriation for the normal school at Monmouth, and no doubt it will.—Ex.

Much complaint has come to the Gazette and to the members of the city council during the past week in relation to the water that is being allowed to drain from the roofs of buildings and run across the sidewalks on Main street which is the main thoroughfare of

the city. During the past week the pavement which is at best in very bad condition was covered with ice and was an actual menace to the public. It is the duty of the city council to look after this. Proper attention will be a protection to both the city and the public. The difficulty can be obviated with very little expense and the Gazette is of the opinion that property owners will not object to shutting off this water if their attention is called to it in the proper manner.

GAZETTE CONGRATULATED.
Letter From President of Fair Commission.

Portland, Jan. 9, 1905.
The Gazette is in receipt of the following letter from Jefferson Myers, president of the Lewis and Clark Centennial Exposition committee:

Editor Heppner Gazette, Heppner, Oregon.

My dear Sir:—
I desire to congratulate you on the splendid article on the city of Heppner in your edition of January 5th. I wish that every news-

paper in the state of Oregon would occasionally write similar articles on their cities and counties, and that we could impress upon the subscribers the importance of sending these papers to their many eastern friends. Such would result in an untold amount of good advertising for the state of Oregon, and would be of great value in inducing immigration and the development of our many neglected resources.

Yours very truly,
JEFFERSON MYERS.

Stockholders Meeting.
