

The Heppner Gazette

Established March 30, 1883.
ISSUED THURSDAY MORNING.

Entered at the Postoffice at Heppner Oregon, as second-class matter.

THURSDAY.....Dec. 22, 1904

The enterprise shown by Doctors Higgs, Winnard and Kistner in giving to Heppner a first-class hospital deserves the hearty co-operation and help not only of the citizens of Heppner, but of every one in Morow county. This is something that is badly needed in this county. Heretofore we have had no hospital conveniences whatever and it was necessary to send the sick people away who needed the advantages of hospital treatment. This not only caused much extra expense, but also unnecessary suffering to the patients, owing to a long and tedious railroad ride. All this can now be overcome by having good hospital accommodation right here at home. The physicians in charge are going to heavy expense in fitting up for what is needed.

The warm chinook wind which has prevailed for several days, accompanied by rain is welcomed by all and especially the farmers. The moisture from the melting snow and the rain has gone into the ground and the soil is now in good condition for plowing. Winter wheat will make a good growth during this kind of weather and from the splendid stand there is every indication that the coming crop will be a big one. Grass is also growing and stock is doing well on the range.

In no other part of eastern Oregon is there as many irrigation schemes under way as along the Umatilla river between Echo and Pendleton on the east and Echo and Umatilla on the Columbia river. Echo is the center of this unusual activity in irrigation enterprises. The Echo News mentions 12 irrigation companies and projects in that territory.
