Morrow county experienced the coldest weather during the past week than for a number of years. Everything was frozen up tight and solid. A young man who was in from Hardman sized up the situation as being the worst that he ever saw. "Why," says the young man, "there were a couple of nights that were regular lollygullions." That's a pretty good word; it sounds well, but I don't know what it means, said a bystander. "Don't know what it means," remarked the young man. A run-away horse with harness on caused quite a commotion on Main street Saturday. The frightened animal came down past the power house at break-neck speed and when opposite the blacksmith shop of "Pap" Simons made a quick turn going on to the sidewalk. Straight down the walk he went with the harness rattling and flying in every direction. There certainly was a scattering of people who were on the Main thoroughfare of the city. The horse kept the sidewalk for the full length of the street.
