Wells & Warnock will handle your real estate and charge only the usual commission.

Five-room house with about an acre of ground under irrigation ditch, for sale, near the depot. Apply, R. F. Hynd.

Dr. and Mrs. Hunlock returned from Portland, Thursday evening. Mrs. Hunlock who underwent an operation for appendicitis is rapidly improving.

Lambing will commence about April 1st in this vicinity, and the sheepmen are busy preparing their lambing camps and hiring their help, says the Monument Enterprise.

M. J. Devin brought two mammoth parsnips to the Gazette office this week. They are fully three feet in length and the largest one was about six inches in diameter at the largest place. Morrow county soil is hard to beat.

Jos. T. Peters, of The Dalles, was a Heppner visitor this week. Mr. Peters is one of the purchasers of the Lesly Macklock place of 2500 acres and is well satisfied with Morrow county investments. Morrow county certainly has a bright future.

To all of our readers who would like to take an Eastern paper we have made arrangements to club with one of the very best—the Thrice-a-week New York World. The World in coming three times a week makes it almost equal to a daily. It is a great newspaper, giving all the news and able opinions. Both papers, the Gazette and Thrice-a-Week World only \$1.65 per year.

The Gazette has been fortunate in making special arrangements with the Semi-Weekly Journal, of Portland, whereby we can furnish this excellent paper with the Gazette for the very low price of \$1.75 per year. The Journal is fast coming to the front as a great news paper. The semi-weekly contains 8 to 12 pages and 40 to 50 columns each issue of coast and general news. It has an exceptionally strong market page, said to be the best market news printed on the coast. The Journal is mailed at the Portland postoffice before one o'clock p. m. on Tuesdays and Fridays, thus enabling it to reach Oregon subscribers on Wednesdays and Saturdays.

The heavy rains of the past week have been of great value to Morrow county. While crops and ranges were not really suffering for want of moisture, thorough saturation of the soil at this time will be of lasting benefit and insures a good winter wheat crop. The warm weather with the early spring which is fully a month earlier than last year has caused vegetable growth to spring up with unusual activity. The crops and ranges are much farther advanced than usual. In fact, prospects at this time were never better in the history of the county. Wheat is making a remarkable growth and indications are that this year will be the banner wheat year of this county. Stockmen generally are as well encouraged as the farmers. Grass is big enough right now to make good sheep feed. Sheep are strong and in good condition and growers feel confident of being able to save a big per cent of lambs.

Some marriages come rather high. It cost Lee Pleuard of Cottage Grove, \$53—\$3 for license and \$50 as a fine for marrying his cousin in violation of the state law. It also cost him his wife, who is a young girl and who has been sent to the boys' and girls' society at Portland.—Eugene Register.

Judge Ayers has been engaged during the past week in road making. The big road grader belonging to the county was sent out Tuesday in charge of John Bellenbrock with an eight mule team to open up and grade the thoroughfare known as the Howard-Lindsay road. An effort has been made for a long time to secure the opening of this road and now that the work is under way quite a number of people will be benefited by placing the road in condition

for travel. Judge Ayers is much interested in road work this year and hopes to make a good showing on the roads of Morrow county.

An energetic lady can secure the agency for this city and surrounding country for a high grade line of Flavoring Extracts, Perfumes, Toilet Articles, Toilet Soaps, etc., by addressing the Peareall Manufacturing Company, Des Moines, Iowa. They allow a big commission, also give premiums. Write them for sample outfit.

Sunday afternoon there was an exhibition of bronco busting on one of the back streets which attracted a large audience. There were several bad horses to ride, but such things are so common in this country that it is not a question of who is going to stick on the

backs of the wild jumping animals, for all the riders do this, but is a question of who can do it with the most grace and ease. Ad Moore tackled the first "outlaw" and after a little fancy bucking the frightened horse took a run for Willow creek and after going through a barbed wire fence in which the horse got the worst of it finally jumped over a high embankment and fell down in the water which finished this part of the entertainment. Two more bad ones were brought out and were mounted by Newt Jones and Henry Cannon. It was kind of a two ring circus proposition being hard to watch both of them. Jones who is considered one of the best riders in the west easily outclassed the other riders in ease and grace. It seemed to be no harder for him than to hold down the seat of a palace car. Its dead easy to ride a bucking horse, especially for the man who is looking on.
