POPULAR BRAND WITH THE PEOPLE

HERE ARE STATISTICS TO SHOW IT

In the January number of "WHAT TO EAT," there is an interesting article on "Successful Food Advertising" by Mr. Thos. Balmer advertising manager of the Delineator. We quote a portion of the article as follows: "In 1904 I had the pleasure of carrying out one of the most remarkable investigations ever made in regard to over two hundred articles of food, clothing, household goods and luxuries used in Delineator families. The statistics were very complete. They showed what brands were used, why selected etc.

"The general subject of food was very comprehensive. I have made the following extracts from these reports to give some idea of the brand in the way of foods." Two of which we mention below.

MINOR and COMPANY

HOME MINSTRELS.

Best Pleased Audience Ever in Robert's Opera House.

The Home Minstrels are all right. At the performance given at Robert's opera house last Friday evening the audience went fairly wild.

Robert Wylie, Garfield Crawford, Ed Patterson, Will Dutton, H. Wickersham, C. O. Huelat, E. L. Freeland, interlocutor, A. Hayes, Harry Cummings, Jess Hale, Will Bennett, Herb Fant, Earl Conser, Edgar Ayers, Frank Turner and James Hart, all deserve much credit for the way in which the people were so well entertained last Friday evening in the black face specialties and delineations.

Garfield Crawford, Bob Wylie, Will Dutton and C. O. Huelat were end men that certainly played their parts.

Some of Heppner's prominent people were targets for many of the original jokes that brought down the house.

Following is the program:

Program, Part I.

Solo....."Rare Old Bird"
Mr. Snow Ball (Will Dutton)

The program was concluded with a laughable farce entitled Dr. Hyp, the hypnotiser, with the following cast:

Felix.....Olin Hayes
John Jelly Fish.....Will Bennett
Mary Ann Nuffiers.....C. O. Huelat

Each solo deserves especial mention and all were the recipients of encores that almost raised the roof.

Should the Home Minstrels appear again they will certainly get another crowded house. The entertainment was given for the benefit of the Rebekahs. The net proceeds were over \$50.

MUST BE DIPPED.

All Sheep Must Be Dipped Before Leaving County.

The following letter has been received by R. F. Hynd, of this city, in relation to dipping sheep before shipping. In order to be rightly informed as to what is required by the government, Mr. Hynd wrote to the government inspector, M. S. Lantz, at Pendleton, and the reply which follows explains the situation:

Pendleton, Oregon, April 3—Enclosed find a copy of the order which we are following instructions of. In the order you will see that all the sheep are called exposed whether they are actually exposed or not, and therefore all sheep are to be referred to in Inspector Lantz's order:

Salt Lake City, August 1, 1904.
To inspectors and employees, Bureau of Animal Industry.

In order to more effectually prevent the spread of scabier and other infectious diseases, you are directed to observe the following instructions:

All sheep which are for immediate slaughter or destined to market points may be passed if clean without placarding the cars. Exposed or scab by sheep if sold for other purposes than immediate slaughter, they will be clipped at said market point. Sheep that are being shipped into other states for feeding or stocking purposes or for breeding must be dipped once as exposed and twice if infected in some of the one dips approved by this bureau and under the supervision of a Federal employee. In all such cases clean and disinfected cars must be provided as per instructions of June 25, 1904.

GEO. S. HICKETT,
Agent in charge.

Mr. Hynd suggests that a dipping vat be built in Heppner and the most suitable place will be near the depot. He says that the Morrow War house Milling Co. will be glad to furnish land for this purpose at a very reasonable price. According to the instructions received from the Bureau of Animal Industry, it will be necessary to have vats somewhere and for all concerned near the depot in this city would be a handy and suitable place for the building of vats.
