

EX-GOVERNOR OF OREGON

Makes Use of His Family Pe-ru-na in For Colds

CAPITOL BUILDING, SALEM, OREGON

Peruna is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Peruna as a catarrh remedy are pouring in from every state in the Union. Dr. Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Peruna is the catarrh remedy of the age. The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well nigh universal. Peruna is the best safeguard known.

A Letter From the Ex-Governor of Oregon.

The ex-governor of Oregon is an ardent admirer of Peruna. He keeps it continually in the house. In a letter to Dr. Hartman, he says:

State of Oregon, Executive Department, The Peruna Medicine Co., Columbus, O.

Dear Sirs—I have had occasion to use your Peruna medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly, W. M. Lord.

It will be noticed that the governor says he has not had occasion to use Peruna for other ailments. The reason for this is, most other ailments begin with a cold.

Little Lessons in Patriotism

Charles Ewing was the youngest son of Thomas Ewing, the distinguished whig statesman. When the war broke out he was practicing law in St. Louis. He had already had a course in military instruction under the tutelage of General Sherman, who had seen the approach of the storm of war. When Sherman was appointed colonel of the Thirtieth Regular Infantry he had Ewing appointed captain of company A of the regiment.

In Sherman's first assault on Vicksburg May 19, 1863, a battalion of the Thirtieth Regulars, led by Captain Washington, had the advance. As they struggled up the rugged hill, into the ditch, and on to the parapet, Captain Washington was killed, and the command devolved upon Captain Ewing. The color-bearer fell mortally wounded; then a second was shot down; then a third fell in the advance. Amid a rain of bullets that descended upon every side of him Ewing seized the flag, and, rushing forward in front of his men, planted it upon the parapet. He was shot through the hand and the hat, and the flagstaff was shattered in his grasp. Over half his command was lost in the terrible destruction. But his courageous example inspired a second attack.

It was in this second attack that Ewing saved the life of General Grant, who was riding straight into certain death, by seizing the bridle rein of Grant's horse and backing him down an embankment out of the deadly fire.

CHICAGO'S OUTER BELT PARKS.

Tentative System Provided for in the Forest Preserve Act.

In general form the tentative system of forest preserves suggested by Chicago's outer belt park commission is a huge crescent of irregular shape, with one horn stretching above Evanston and the other touching Lake Michigan below the Calumet River. The plan drawn by the commission, after a careful study of the available lands, is not final, but it is of educational value in showing the territory in which the country playfields may be secured. In

drawing the plan the district was divided into zones, depending on distance from the lake shore. Chicago has been reared upon a level plain that was once the bed of the lake. Along its western edge is a ridge which in the southwest rises into hills. In this territory are all the necessary features for recreation grounds of forest and meadow, affording an endless variety of picturesque scenery. This stretch forms the western part of the system. It extends through the Salt Creek dale and down the Des Plaines valley. On the south it merges into the Calumet River area, while to the north it runs into the Skokie marshes. Inside this superior belt is a smaller belt on the north, extending in a curve from the neighborhood of Norwood Park along the North Branch area and running into the lake above the Grosse Point lighthouse. Zone 2 is farther to the southwest. In this division it is proposed to lay out smaller parks near to the present resident districts and to connect them with a series of beautiful drives and boulevards.

An Old Master.

Mrs. Parvenue—That picture in the corner is by an old master. Mrs. Swartleigh—Indeed! I would never have guessed it. Mrs. Parvenue—Yes. The man I bought it from gave me a written guarantee that the painter was past seventy-five before he did a stroke on it.

A Blow to the Gossips.

"Why are all you women down on Mrs. Weedles? You were very sorry for her when her husband died." "Yes, and how did she repay our interest in her? She fixed things so that none of the papers would publish the amount of money her husband left." Philadelphia Press.

Man wants a great deal here below. For further information see the "want" columns.

A Natural Remedy.

That the remedy is sometimes worse than the disease is again shown by an incident chronicled in the New York Times. A prominent politician has a wife who is a model of domestic carefulness. She has a talent for making bread, and takes great pride in having her loaves turn out well. One evening she had set the batch of dough to rise in the kitchen and was reading in the parlor, when her 6-year-old boy came running to her, crying, "Mamma, mamma, there's a mouse jumped into your bread-pan!" The good woman sprang from her seat. "Did you take him out?" she asked, frantically. "No'm, but I done just as good. I threw the cat in, and she's digging after him to beat the band!"

Christian Science. In the United States there are about 400 Christian Science churches, with about 100,000 adherents. According to Mrs. Eddy, its founder, the church is making tremendous strides in popularity, in which respect it resembles Pillsbury's Vitos, the popular cereal food.

Beggars in London.

It is calculated that 4,000 persons make a living in London by begging and that their average income amounts to over \$1,500,000 a year. Last year 1,925 persons were arrested for begging in the streets, of whom more than 1,500 were sentenced to terms of imprisonment varying from one week to three months. Many of these objects of charity were found in possession of sums of money and even bank books showing very handsome deposits.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by E. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by E. J. Cheney & Co. Testimonials free. Sold by druggists, price 50c. per bottle. Hall's Family Pills are the best.

Lucky Ghost.

And it came to pass that the Hamlet troupe was stranded at a water tank twenty miles from the nearest farm house. A roving tramp crept out of the shadows and, approaching the leading man, said in awe: "Mister, are you really Hamlet?" "Yes," replied the barnstormer, "but I wish I was the ghost." "Why so?" "Ghosts don't get hungry."—Columbus Dispatch.

Lincoln's Hay Crop.

The stories that Kansas newspapers are now printing of the big corn crop recalls Lincoln's story of the big hay crop in southern Illinois. "What," inquired a visitor, "do you do with such a big crop of hay?" "We stack all we can on the ground," replied the veteran story teller, "and the rest we put in the barn."—Detroit News.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Day to be Remembered.

"I dread to think of my thirtieth birthday," began Miss Passy. "Yes," replied Miss Port, "something dreadful must have happened to you then or you wouldn't remember it this long."—Philadelphia Ledger.

Cable Tolls to Japan.

It costs \$1.76 a word to send a message to Japan, and, with war raging in the Far East, the cable tolls for war news are something tremendous. But as the people will have the war news in connection with their morning dish of Pillsbury's Vitos, the cables are kept busy day and night.

BLOOD POISON THE BLACK FLAG

The black flag is an emblem of horror and dread. When it is hoisted by an army, the order has gone forth that "no quarter" will be given, everything must be destroyed. Helpless women and children, as well as opposing soldiers, meet the same fate, and a trail of desolation, suffering and death is left behind. Contagious Blood Poison is the black flag of the great army of disease. This vile disorder is known as the blackest and most hideous of all human afflictions, overthrowing its victims and crushing out the life. It is no respecter of persons; no matter how pure the blood may be or how innocently the disease is contracted, when this awful virus enters the circulation the hideous, hateful and humiliating symptoms begin to appear, and the sufferer feels that his very presence is polluting and contaminating. Usually the first sign of the disease is a little sore or ulcer, but as the blood becomes more deeply poisoned the severer symptoms are manifested, the mouth and throat ulcerate, the glands in the groins swell, a red rash breaks out on the body, the hair and eyebrows come out, and often the body is covered with copper-colored spots, pustular eruptions and sores. In its worst stages the disease affects the nerves, attacks the bones and sometimes causes tumors to form on the brain, producing insanity and death. Not only those who contract the poison suffer, but unless the virus is driven from the blood the awful taint is handed down to offspring, and they are its innocent victims. Blood Poison is indeed a "black flag." Mercury and Potash, so often used, never can cure the trouble. These minerals merely drive the symptoms away for awhile and shut the disease up in the system, and when they are left off it returns worse than before. This treatment not only fails to cure blood poison but eats out the delicate lining of the stomach and bowels, produces chronic dyspepsia, loosens the teeth and frequently causes mercurial rheumatism to add to the patient's suffering. S. S. S., the great vegetable medicine, is the conqueror of this vile disease. It goes down to the very root of the trouble and cures by cleansing the blood of every particle of the poison. S. S. S. does not hide or cover up anything but clears the entire circulation of the virus and puts the system in good healthy condition. It cures safely as well as certainly, because there is not a particle of mineral in it. We offer a reward of \$1,000.00 for proof that S. S. S. is not purely vegetable. When the blood is purified and strengthened with this great remedy the symptoms all pass away and no sign of the disease is ever seen again; nor is there left the least trace to be handed down to posterity. Special book with instructions for self-treatment and any medical advice desired will be sent without charge to all who write.
