mess With Germany.

Washington, Jan. 7 -Trade between the United States and Germany, whose commercial relations are now the subject of negotiations between the two countries, aggregated in the fiscal year 1905 over \$3,000,000. A report issued today by the Bureau of Statistics of the Department of Labor and Commerce

"The imports from Germany were \$118,000,000 in value and exceeded imperts from that country in any earlier year. The exports to Germany were \$194,900,000 in value and exceeded our exports to that country in any earlier year except 1904, in which year the total was over \$214,000,000, this decrease in 1905 compared with 1904 having occurred in raw cotton and being due a tagether to a fall in prices, since the quantity in 1905 was greater than in 1904. Imports from Germany increased \$37,000,000 in the period from 1895 to 1905, and exports to that country increased \$102,000,000 in the same time.

"Germany stands second in the order of magnitude of our trade with foreign countries, both as to imports and ex-

"Manufactures are the bulk of the \$118,800,000 worth of merchandise imported from Germany. These manuactures include cetton goods, about \$14,000,000 in value; chemicals, drugs and dyes, \$15,000,000; iron and steel manufactures, about \$5,000,000; leather manufactures, \$3,000,000; silk manufactures, about \$5,000,000; manufactures of fibers, about \$3,000 000; wool- news

en goods \$3,000,000; paper and manufactures thereof, over \$3,000,000, and toys, \$4,000,000. Raw cotton is by far the largest single item in our exports to Germany, amounting in 1905 to \$87,-000,000 in value, as compared with exports of \$43,000 000 in value in 1895

"Breadstuffs form a 'e-s important factor in our trade with Germany than formerly, owing to the great fa li g off in the quantity which the Uni ed States is now able to spare to the cutside world. Gf wheat, f rexample, our ex ports to Germany, which amounted to more than 10,000,000 bushels in 1901 and practically 20,000,000 bushels in 1902, fell to 14,5000,000 in 1903, 7,5000.-000 in 1904, and 100,000 bushels in 1905, the value in 1905 being but \$84,7000 Flour shows also a considerable decline, but corn showed a marked increase, its total export to Germany being over \$9 .-000,000 in value.

"In manufactures, especially copper, mineral, leather, scien ific instruments and certain ma ufactures of iron and steel, our exports to Germany show a s eady growth. The value of copper in bars and plates exported from the United States to Germany amounted to over \$14.000,000.

"Impor's from Germany formed, in 1905, 10.7 per cen of the total importations into the United States, and exports to that country in t e same year, 127 per cent of the t ta exports to that country. German 's figures show that impo ts from the United States in 1904 formed 14.8 per cent of her total imports, and the exports to the United States formed 9.6 per cent of her total exports.

NO RESERVE RANGE.

To Room for Outside Sheep in Idaho.

There will be no room for outside sheep in Idaho forest reserves this season. J. S. Busic, the well known Morrow county sheepman, recently wrote to Forest Supervisor F. A. Fenn, and | in the reply the supervisor states that local stock will more than fill all the re-

serve range in Idaho this season. Sheepmen who have been looking to Idaho for reserve range this season will be compelled to look elsewhere.
