Boundless.

Far and away stretched the waving grasses and the low hills. On and on wandered the little boy. He did not know where he was, and yet he did not weep.

He was a very brave little lad and a mere child withal, so that, although he had lost his bearings, was not alarmed.

For did he not have his nice new rubber ball with him? And would it not be fine to bounce it about over the hard, smooth ground?

Selecting a spot bare of grass he threw the ball down, with all his might.

But it lay lifeless just where it had alighted.

Again he puzzled laid it threw it down, but the resilient gutta percha spheroid lay dead and inert exactly as it had fallen.

Then, as the fearful truth broke upon the lad, he broke forth into walls of despair. He was on the boundless prairie.—Judge.

Hood's Sarsaparilla

Has surpassed all other medicines, in merit, sales and cures.

Its success, great as it has been, has apparently only just begun. It received more testimonials in the last two years than any previous two—over 40,000.

It has the abiding confidence of the people—the strongest proof of its unequalled worth. It purifies the blood, cures all blood diseases, all humors and all eruptions.

It strengthens the stomach, creates an appetite and builds up the whole system.

It cures that tired feeling and makes the weak strong.

In usual liquid, or in new tablet form, 100 Doses One Dollar.

The Statue to the Pilgrims.

On Plymouth Hill stands the imposing statue to the pilgrims. Its base is granite and supports a seated figure at each of the four corners with eyes searching the surrounding country.

While a woman's figure crowns the top. On the pedestal is inscribed the name of every man, woman and child that came over in the Mayflower.—St. Nicholas.

Her Prettiness Tempted Him.

"Father, it is true the young man kissed me so suddenly that I was not prepared for it, and yet I feel that I am also to blame in the matter."

"To blame? In what way?"

"I'm afraid I was an accessory before the fact."—Cleveland Plain Dealer.

Popular Science.

A steel of special hardness, patented in Germany by F. Munster, results from subjecting the molten metal to a blast of nitrogen.

With a tensile strength often exceeding three hundred thousand pounds per square inch, steel piano wire seems to be the strongest material known, and it possesses the additional valuable property of a very high elastic limit.

A peculiar process for separating non-magnetic particles like gold from sand has been patented by L. T. Weiss. The metallic particles in mass are electroplated with iron, by a special apparatus, and can then be separated by any magnetic method.

Glass water-pipes, which have a covering of asphalt to prevent fracture, are in use in some parts of Germany. They give thorough protection against moisture in the ground, against the action of acids and alkalis, and they cannot be penetrated by gases.

Dr. Max Reithoffer, a professor in the Technical High School of Vienna, in conjunction with Herr Karl Morawetz, the government inspector of clocks, has completed a system for synchronizing clocks by means of wireless telegraphy, and permission has been secured for regulating the public clocks by this agency.

The use of milk of lime for quickly and effectively extinguishing fires in coal mines is recommended by Inspector Wolfgang Kummer, a German. The suggestion is not new, but has been newly tested with satisfactory results. The emulsion—which can be used with hand or power pumps—runs into and fills the crevices of the coal or mineral.

A new type of mitrailleuse is being constructed at the government arms factory of St. Etienne, France. This weapon is far more powerful than the existing type, its firing capacity being three hundred shots per second, with a maximum range of 5,400 yards. The tests with the weapon have proved highly satisfactory, except for a natural tendency to become heated through continued discharge, but this defect is being remedied.

The Gauls of Paris has been investigating that grave question, "Why do men wear mustaches?" About one hundred men answered the question. Six replied that it was too much trouble to shave, one declared that it was to hide his teeth, another that his long nose without it gave him a bad appearance, and three that it avoided colds.

Three others maintained that it improved the air they breathed, and seven were of the opinion that a mustache was necessary to health. Seventeen men were content to state that they did it to please themselves, while only two said it was to please their wives. About sixty gave the reason that women did not like clean-shaven men.

F. Doffein, a German naturalist, has recently seen in Ceylon a species of ant, the oecophylla smaragdina, in the act of "sewing" two leaves together for the purpose of forming a nest. This observation confirms the report of the English naturalist, Ridley, made in 1890. Doffein saw a row of the insects pulling the edges of the leaves together; then others trimmed and fitted the edges, and finally a seam was made by fastening the edges with a silky thread, yielded by larvae of the same species which the workers carried in their mandibles. He made a drawing illustrating the method of working. According to Ridley, the sewing ants pass the thread-giving larvae like shuttles through holes in the edges of the leaves.

JOSEPH CHAMBERLAIN, WHO WON VICTORY IN ENGLAND.

Joseph Chamberlain, who won a notable victory for the tariff unionist cause at Birmingham, England, and who will be one of the few members of the Balfour government returned to Parliament, has been a member of the latter body since 1885. He has been three times Mayor of Birmingham and served as Secretary of the Colonies, President of the Local Government Board, and President of the Board of the Organizers of the Unionist party. Mr. Chamberlain's wife is Mary, daughter of W. C. Endicott, Secretary of War in President Cleveland's first cabinet. He has been Chancellor of the University of Birmingham and also served as Lord Rector of Glasgow University.

Tell an old-fashioned man he eats too much and he will say: "Well, I don't want to owe my stomach anything when I die."

The Jar of Coughing

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

"I always keep Ayer's Cherry Pectoral in the house. It gives perfect relief whenever any of us have coughs or hard colds. I have used it for a great many years and so know all about it."—Mrs. MARY CHURCHMAN, Varysburg, N.Y.

When Lincoln Won His Spurs.

Leaving the question of his relative standing in the profession at large for further consideration, it is confidently submitted that Lincoln won a creditable position at the local bar, almost at the outset of his career, among contemporaries who were not only capable lawyers, but men of exceptional force and character. Indeed, it is exceedingly doubtful if the bar of any other State in the Union possessed as much native talent and ability as the frontier State of Illinois when Lincoln won his spurs.—Century.

Out of the Ordinary.

Author—I have just written a play that contains a new and novel climax. It is bound to make a hit.

Manager—Indeed!

Author—Fact. The plot leads up to a train robbery.

Manager—Huh! I fail to see anything new and novel in that.

Author—But the passengers rise up as one man and put the robbers out of business!

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by DRUGGISTS, 20c. Hall's Family Pills are the best.

"Was your wife angry when you got home so late last night?"

"Angrily? Why, my boy, the dear woman pelted me with flowers!"

"But how did you get that black eye?"

"Well, you see, she neglected to take the flowers out of the pots before she threw them."—Cleveland Leader.

"Oh, no, not at all. I remember now. I thought for a moment that you were the coachman my husband discharged a few weeks ago for trying to make love to the cook, and I wondered how you could afford to eat in such an expensive place."—Denver Post.

"First Aid" to the Bowels

Then he works them (through the nerves) till they get so strong from that Exercise that they don't need any more help to do their duty.

But Dr. Cascaret wants to bring on the spot, in your Pocket or Purse, where he can regulate these Bowel-Muscles all the time, in health, and out of health.

Because, even the strongest Bowel-Muscles may be overworked.

Heavy dinners, late suppers, whiskey, wine, or beer drinking, nervous excitement, sudden exposure to cold or heat and a dozen other every day likelihoods tire the Bowel Muscles.

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

Old Dr. Cascaret carried constantly in your Vest Pocket, or in "My Lady's" Purse is the cheapest kind of Health Insurance, and Happiness—Promotion, that ever happened.
