## RAM'S HORN BLASTS.

Warning Notes Calling the Wicked to Repentance.

It takes more than an annual wave of religion to wipe out the reefs of sin. You cannot lead a man to God except you love him. No one can love the Savior without loathing his sins.

Repining is not repenting. Vanity is the mother of vice. Purity and piety are not the same. Heaven-born love makes the higher life.

The praise of holiness is not its pursuit. No good work was ever done by accident. Souls are not caught in cobwebs on the brain.

It's your life that lifts the prayer of your lips. You don't have to quit trying to begin to trust.

The parlor-car church gets hooked on the wrong train. He who has glad news need not be afraid of making a noise.

You cannot feed the saints by running the church into a kitchen. Some people buy Bibles for the gilt on them, others for the gold in them. It doesn't matter what kind of gambling you follow. They all lead you down.

It is the last resort of weak minds to seek to be interesting through their melancholy. Dewdrops of pity are very pretty, but they evaporate before any thirsty ones get to them.

The church usher soon learns to look at a woman's hat before he decides where to seat her.

## ONAS ARE A GIANT TRIBE.

Sierra del Fuego Indians Are Spectacles of Perfect Physical Frames. The Onas, a tribe of Indians inhabiting the mainland of the Tierra del Fuego island, are physical giants. Their average height is over 6 feet—a few are 7½ feet, a few fall below 6 feet. The women are more corpulent and not so tall. There is no race in the world with a more perfect physical development than the Ona Indians. This is partly due to the topography of the country and the distribution of game, which makes long marches across the country a necessity.

In mentality they fall far below their physical attainments. In the past their supply of game has been plentiful and this may account for the lack of inventive genius among them. This lack of progressive skill is portrayed in their home life, clothing and homes. Their children suffer from it. For, contrary to the practice common among most Indians of feeding, dressing and training the children well, the Onas' little ones are mostly naked, poorly fed and altogether neglected. They have abundant material for supplying themselves with clothing and homes and yet they throw a few branches together, put skins over the windward side and then sliver under the miserable shelter.

Scientists who have made a study of the subject say the language of the Onas is the strangest ever listened to. Many of the words are not difficult to pronounce, nor is the construction of the sentences difficult, but every few words are interrupted by a sound which is impossible to produce. The speaker hacks, coughs and grunts, distorting his face in the most inhuman manner, and then passes on to the next stumbling block. The Onas live principally upon meat, which in former years was obtained from the guanaco.

## Peril in Diamond Cutting.

Many people are unaware that a considerable danger menaces the cutters of diamonds in the form of that dreaded malady, lead poisoning. In the cutting of diamonds the gem to be operated upon is fixed in a "dope," consisting of a hemispherical brass pan at the end of a rod of thick copper wire. The stone can then be set in any desired position relatively to the cutting wheel by bending the copper wire. The cutting wheel or disk, which revolves extremely rapidly, is fed by a polishing medium, consisting of pulverized diamond and olive oil. As the work proceeds the diamond is constantly wiped with the bare hand to clear it of this medium and ascertain how far the cutting process has progressed. The diamond is set in the dope by means of a solder which is an alloy of lead and tin. This is heated until it is kneadable, when it is pressed into the dope and smoothed by means of the fingers around the projecting diamond, which is thus held firmly in place. One setter handles about 200 dopes every day, and both he and the diamond polisher get numerous particles of lead alloy into their fingers and the palms of their hands, and sooner or later lead poisoning is apt to result. The government of the Netherlands has offered a prize of 6,000 florins for a medium which shall replace the lead alloy for fixing the diamond in the dope. The medium must be sufficiently cheap to be adopted by the diamond setters and it must fulfill the various conditions of the work. The present alloy, being a good conductor, allows the heat of polishing to be drawn away by the copper rod, whereas an ordinary cement would itself become melted.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. ## RHEUMATISM

### BODY RACKED WITH PAIN

No other bodily suffering is equal to that produced by the pain of Rheumatism. When the poisons and acids, which cause this disease, become entrenched in the blood there is hardly any part of the body that is not affected. The muscles become sore and drawn, the nerves twitch and sting, the joints inflame and swell, the bones ache, every movement is one of agony, and the entire body is racked with pain. Rheumatism is brought on by indigestion, stomach troubles, torpid liver, weak kidneys and a general inactive state of the system. The refuse matter instead of passing off through nature's avenues is left to sour and form uric acid, and other acid poisons which are absorbed into the blood. Rheumatism does not affect all alike. In some cases it takes a wandering form; it may be in the arms or legs one day and in the shoulders, feet, hands, back or other parts of the body the next. Others suffer more seriously, and are never free from pain. The uric acid and other irritating substances find lodgment in the muscles and joints and as these deposits increase the muscles become stiff and the joints locked and immovable. It matters not in what form the disease may be the cause is always the same—a sour acid condition of the blood. This vital stream has lost its purity and freshness, and instead of nourishing and feeding the different parts with health-giving properties, it fills them with the acids and salts of this painful and far-reaching disease. The cold and dampness of Winter always intensify the pains of Rheumatism, and the sufferer to get relief from the agony, rubs the affected parts with liniments, oils, lotions, etc., or uses plasters and other home remedies. These are desirable because they give temporary ease and comfort but have no effect on the real trouble which is in the blood and beyond the reach of such treatment. S. S. S. is the best remedy for Rheumatism. It goes into the blood and attacks the disease at its head, and by neutralizing and driving out the acids and building up the thin, sour blood it cures the disease permanently. While cleansing the blood S. S. S. tones up the stomach, digestion and every other part of the system, soothes the excited nerves, reduces the inflammation, dissolves the deposits in the joints, relieves all pain and completely cures this distressing disease. S. S. S. is a certain cure for Rheumatism in any form; Muscular, Inflammatory, Articular or Sciatic. Special book on the disease and any medical advice, without charge, to all who write. ## WHAT JOY THEY BRING TO EVERY HOME

as with joyous hearts and smiling faces they romp and play—when in health—and how conducive to health the games in which they indulge, the outdoor life they enjoy, the cleanly, regular habits they should be taught to form and the wholesome diet of which they should partake. How tenderly their health should be preserved, not by constant medication, but by careful avoidance of every medicine of an injurious or objectionable nature and if at any time a remedial agent is required, to assist nature, only those of known excellence should be used; remedies which are pure and wholesome and truly beneficial in effect, like the pleasant laxative remedy, Syrup of Figs, manufactured by the California Fig Syrup Co. Syrup of Figs has come into general favor in many millions of well informed families, whose estimate of its quality and excellence is based upon personal knowledge and use.

Syrup of Figs has also met with the approval of physicians generally, because they know it is wholesome, simple and gentle in its action. We inform all reputable physicians as to the medicinal principles of Syrup of Figs, obtained, by an original method, from certain plants known to them to act most beneficially and presented in an agreeable syrup in which the wholesome Californian blue figs are used to promote the pleasant taste; therefore it is not a secret remedy and hence we are free to refer to all well informed physicians, who do not approve of patent medicines and never favor indiscriminate self-medication.

Please to remember and teach your children also that the genuine Syrup of Figs always has the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package and that it is for sale in bottles of one size only. If any dealer offers any other than the regular Fifty cent size, or having printed thereon the name of any other company, do not accept it. If you fail to get the genuine you will not get its beneficial effects. Every family should always have a bottle on hand, as it is equally beneficial for the parents and the children, whenever a laxative remedy is required.
