Why Don't Homeseekers Come To Morrow County?

Morrow county produces more wealth pir c pits than any other county in the state of Oregon. Our territory within county lines is 75 miles in length by 35 miles in width, large enough for a state, but with not enough population for a good sized country village. Only 1000 people in the county.

Every year we grow about 1,070,000 bushels of wheat. This is worth about \$700,000.

We have about 225.000 head of sheep worth about \$"62,000, after shearing w' ile the wool from these sheep will sell for \$360, 0). Then there are horses and sattle worth at east a half a million more.

These are the main items in the wealth producers.

It don't take much figuring when you look at these figures to come to the conclusion that Morrow county people make some money. We have the soil, the climate and the goods to make good.

Morrow county's climate is pleasent and healthful.

Morrow county people are prosperous. Mo row county peop's have money. Here in the town of Heppner we have two banks. The First National in published statements shows deposits running from half a million dollars up. Both banks have a big business. Heppner can show the largest bank deposits of any town of he size in the Northwest, and it should be remembered that Lexington, nine miles away, and lone, 18 miles from Heppner both have banks doing a good business. This looks like Morrow county people have money.

But look here, almost half the population of Morrow county reside in the towns. This leaves only between 8,000 and 4,000 people in a territory 75 miles in hength by 35 miles in wealth. Don't you think there is room for more people.

Ten or twelve years ago land in Merrow county went begging at from \$100 to \$250 for a quarter section.

Five years ago this land had looked up to \$6.00 and \$7.00 per acre. Today this land is worth \$15 per acre with a few of the choicest lots some times bringing \$20 per scre. Now the old timers are wondering why they did not take advantage of this cheap land. They could have made a barrel of money.

Over in the adjoining county of Umatilla wheat lands today are worth from \$50 to \$75 an acre. On the other side of us is Sherman county with wheat lands selling from \$25 up. Here we are between with just as good land land at \$15 per scre. Our lands are sure to go up in price. In a few years the people here will be sgain wondering why they did not buy some of this \$15 land. The proposition is the same now as it was a few years ago, but it takes more money. Last year and year before a number of good farmers bought wheat lands and paid for it with the first crop.

Come to Morrow county and investigate this land business. Following are a few samples of what we have for sale:

WASHINGTON LETTER

[Special Correspondence.] White ribbon advocates are once more camping on the trail of the makers and consumers of liquor in the District of Columbia. It is not long since the W. C. T. E. and other advocates of temperance made a campaign against the sale of liquor in the capitol of the nation. Their campaign was successful, and now they feel encouraged to try to stop the liquor traffic throughout

the District of Columbia. It is true that there is much talk

about the facilities that will be afforded for sideboards and sideboard Jelongings in the rooms of the new louse and senate office buildings, and It may be that in case the legislation now being sought gets through there will not be absolute prohibition in the District. At any rate, the white ribboners are strongly urging the bill which has been introduced by Representative Webber of Ohio and which provides for absolute prohibition of manufacture and sale, except for certaih prescribed purposes.

Memorials of the Revolution.

Numerous bills are being introduced for the suitable commemoration of events in the Revolution by the erection of monuments or otherwise. One of these measures is for a monument to commemorate the battle of Princeton and appropriates \$30,000 therefor. The Princeton Battle Monument association has been formed in New Jersey to promote this enterprise, and it is making a strong effort to get congress to provide for a memorial column on the site of the struggle in which Wash-

ington defeated the British. Another bill is for the appropriation of \$100,000 to erect a monument in York county, S. C., on the field of the battle of King's Mountain to the memory of General William Campbell and the men who fought there.

Still another bill is for the appropriation of \$25,000 to erect a monument in Cherokee county, S. C., on the field of the battle of Cowpens, in memory of General Daniel Morgan and his men. who defeated a part of Cornwallis' command under Tarleton at this point.

Supreme Court Building.

A government edifice likely to be constructed in the near future and for which it is generally agreed there is need is a supreme court building. Representative Littlefield introduced a measure authorizing the purchase of a site for such a structure.

It is proposed to buy a plot about 500 feet square a short distance to the northwest of the grounds of the library of congress. The bill has been referred to the committee on public buildings and grounds.

Whether Senator Smoot of Utah is to be expelled from the senate on the ground of Mormonism is a question that promises to arouse much strike in the under house in the near future. The Smoot case has dragged along most tediously, but it is now understood that Senator Burrows, chairman of the committee on privileges and elections, is anxious to bring the matter to a conclusion, and now that the boliday recess is over he will take more tastimony and his committee will

The Iowa man is rated against Smoot's retention, especially as the women of the Hawkeye State are making a concerted effort for expulsion. Moreover, there is a large colony of non-polygamous Latter Day Saints in Senator Dolliver's state which is opposed to Smoot's continuance in the senate.
