"Only a few days before we left Santa Cruz we experienced several quakes, and one of them was quite severe. It is generally believed by the pessimists of that section San Francisco is built right over a volcanic crater."

In answer to the question whether or not San Francisco would ever be the city that it once was Mr. Sweeney replied emphatically that he was sure it would not.

"The earthquakes have been so frequent since the 15th day of April," he said, "that many contemplated stone structures have been given up entirely."

"San Francisco's destruction has been a great blow to California," concluded Mr. Sweeney.

Frank Clark, a Tacoma diver, recently found in 24 feet of water the skeleton of a man, one hand of which was grasping the handle of a wheelbarrow. The gruesome find was near the smelter, and is supposed to reveal the secret of the disappearance of a smelter-employee last year.

Fire Warden H. C. Keeler and 23 assistants have been almost incessantly at work for a month past fighting forest fires in the neighborhood of Waterville, Wash. The men worked in relays, so as to have someone on duty at all times of the day and night, and are very near exhaustion.

Evil Days Have Fallen on Frisco.

The earth continues to tremble at intervals in the earthquake belt of California, says a fugitive from San Francisco to the Yakima Republic.

The people of San Francisco and within a radius of 200 miles of that city are kept in continual fear by the spasmodic trembling of the earth, which sometimes grows violent. Emigration from that section is larger now than it was immediately after the great catastrophe, when the California metropolis was wiped off the map.

E. K. Sweeney and wife arrived here from Santa Cruz, Cal., yesterday. They came to visit Mr. and Mrs. A. B. Sweeney of 601 North Fourth street, but it is quite probable that the visitors

will decide to make this city their future home.

Mr. Sweeney talked interestingly of California and particularly referred to the earthquake belt. He said that while the earthquakes had been more or less frequent there in the past two decades that they had never been so frequent prior to the San Francisco disaster, and had never caused the uneasiness among the people that now is everywhere apparent.

"The people down there are living in continual fear," said Mr. Sweeney today. "This anxiety is not only apparent in San Francisco, but all the towns and cities in that vicinity share the feeling. If a business man or property owner gets an opportunity to sell out, he does not hesitate. The

A DEEP MYSTERY SOLVED.

Women Blinded by Science.

The Doctor writes his prescription in Latin and the patient shuts her eyes to what she is swallowing. She takes that much on faith. If it should cure her she doesn't know what cured her. If the prescription injures her she doesn't know what did the injury. The physician is experimenting with different prescriptions all the time. Sometimes his medicine is successful in the case but often not. This mystery of a concealed prescription is intended to mystify and blind the patient. One physician writes that he has treated many women of wide experience and national reputation does not believe in mystifying the public, nor does he grasp at the stars, but believes that Nature provides that which is necessary for our health and happiness.

When the womanly system is deranged beyond the stage where it will respond to sunshine, good air, cheerfulness and proper rest; when the balance of health is seriously disturbed this doctor believes that Nature has planned at your hand the balance of power for good. Hidden in our American forests are many plants which correct and cure those distressing ailments which cause women to suffer with backache, bearing-down pains, pain to the back or front of the head, nervousness and lassitude. Most all women who love Nature, who like to wander through her woods, have at one time or another picked the beautiful blossom of the Lady Slipper (Cypripedium). This is not only a beautiful but a very useful plant. The root of this plant when treated properly with glycerine to extract its medicinal virtues is valuable in all cases of nervous excitability or irritability," says Prof. John M. Scudder, M. D., American Dispensary says of this plant, that it "possesses a decidedly beneficial influence in an embolic condition of the general system, with weakness or dull pain in the renal or lumbar region. In diseases of the womanly organs, it is one of our most valuable agents, acting as a uterine tonic and gradually removing abnormal conditions, while at the same time it imparts tone and vigor to the organs." Hence, it is much used in catarrhal, pelvic, chronic, irregular and painful periods. Prof. King further says, of Unicorn root: "A particular phase removed by it is the irritability and despondency that attend the menstrual troubles referring to the ailments just mentioned. It has been found especially adapted to those cases in which pelvic fullness, and the aching, bearing-down feeling as if they would fall out of the body."

Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., says that a combination of the active principles of these two native plants together with Golden Seal root, Black Cohosh and Blue Cohosh roots when extracted by the use of pure, triple-refined glycerine of propolis strength (which is used instead of alcohol), will almost invariably cure those peculiar weaknesses and maladies incident to women. That is why Dr. Pierce, nearly forty years ago, deeded up all his ready-to-use form, a "Prescription" which he had found so useful in his large practice.

Dr. Pierce's frank and open about his ready-prepared medicine called Dr. Pierce's Favorite Prescription—He tells just what is contained in it—he says it is not a cure-all, as it serves only a singleness of purpose, and maladies, the only medicine put up for sale through druggists for the cure of such maladies, all the ingredients of which have the endorsement of those scientific medical practitioners and writers, as being the very best known remedies for the ailments for which "Favorite Prescription" is advised. All this will be learned to the reader's full satisfaction by perusing a booklet of extracts compiled by Dr. Pierce from standard authorities of the several schools of practice, and which will be sent free to any address on request for same, mailed to Dr. R. V. Pierce, Buffalo, N. Y.

It stands alone, Dr. Pierce's Favorite Prescription is the only medicine for woman's peculiar weaknesses and affections, all the ingredients of which are benedictions for those afflictions peculiar to women because the after-effect of spirituous wines or alcoholic medicines is harmful for weak, invalid, nervous women. "Favorite Prescription" has done for others it will no doubt, do for you, if similarly afflicted, and you give it a good, fair and faithful trial.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
