After roasting the meat market men of Astoria to a crisp the Herald, in which they do not advertise, says: We pay 15 cents a pound for a steak, and it costs 25 cents to send it to the pulp mill, so it can be eaten, and in nine times out of ten it has to be run through a clothes wringer and a sausage machine and then the editor uses it to half sole his shoes.

The new editor of the Gold Beach Globe announces: Circumstances having forced me to except the position as foreman and Editor of the Globe until such a time as will enable the stockholders to secure an efficient Editor, I will ask of the readers of the Globe not to expect much, and you will certainly not be disappointed. However, the Globe will endeavor to give all the local happenings of the county, together with the transfers and legal happenings. Not only would we give space but earnestly ask that the readers of the Globe discuss any and all questions that is of interest to the public generally.

Frank Kees, warden of the Washington state penitentiary at Walla Walla, has been discharged from office by Governor Mead. Selling grain bags to a firm for speculation is the alleged cause for the removal.

Four potatoes grown on one vine weighing eight pounds and all about the same size, and one that measured 10 inches in length and 11 inches in circumference, are the product of a Klamath Falls garden.

Considerable activity in the construction of business building is going on in North Yakima. This town is said to be growing rapidly.

This year will break the building record in Medford.

Why Don't Homeseekers Come To Morrow County?

Morrow county produces more wealth per capita than any other county in the state of Oregon. Our territory within county lines is 75 miles in length by 35 miles in width, large enough for a state, but with not enough population for a good sized country village. Only 5000 people in the county.

Every year we grow about 1,000,000 bushels of wheat. This is worth about \$700,000.

We have about 225,000 head of sheep worth about \$562,000, after shearing while the wool from these sheep will sell for \$360,000. Then there are horses and cattle worth at least a half a million more.

These are the main items in the wealth producers. It don't take much figuring when you look at these figures to come to the conclusion that Morrow county people make some money. We have the soil, the climate and the goods to make good.

Morrow county's climate is pleasant and healthful.

Morrow county people are prosperous. Morrow county people have money. Here in the town of Heppner we have two banks. The First National in published statements shows deposits running from half a million dollars up. Both banks have a big business. Heppner can show the largest bank deposits of any town of its size in the Northwest, and it should be remembered that Lexington, nine miles away, and Lone, 18 miles from Heppner both have banks doing a good business. This looks like Morrow county people have money.

But look here, almost half the population of Morrow county reside in the towns. This leaves only between 3,000 and 4,000 people in a territory 75 miles in length by 35 miles in width. Don't you think there is room for more people.

Ten or twelve years ago land in Morrow county went begging at from \$100 to \$250 for a quarter section.

Five years ago this land had looked up to \$6.00 and \$7.00 per acre. Today this land is worth \$15 per acre with a few of the choicest lots some times bringing \$20 per acre. Now the old timers are wondering why they did not take advantage of this cheap land. They could have made a barrel of money.

Over in the adjoining county of Umatilla wheat lands today are worth from \$50 to \$75 an acre. On the other side of us is Sherman county with wheat lands selling from \$25 up. Here we are between with just as good land and at \$15 per acre. Our lands are sure to go up in price. In a few years the people here will be again wondering why they did not buy some of this \$15 land. The proposition is the same now as it was a few years ago, but it takes more money. Last year and year before a number of good farmers bought wheat lands and paid for it with the first crop.

Come to Morrow county and investigate this land business.

Following are a few samples of what we have for sale:

No 1—320 acres, 13 miles south of Lone, 220 acres in cultivation and is in crop. One third of crop delivered in lone goes with place. All fenced with 2 wires. Price \$4,500. \$2,500 cash, balance in 2 years, 8 per cent.

No 2—800 acres, 12 miles south of Lone, 500 acres in cultivation 285 acres in grain, will summer fallow balance. Good well water, fair buildings and one mile from school. Price including crop and summer fallow, \$12,500. \$3,000 cash, \$2,000 after harvest, balance in one half crop payments at 8 per cent.

No 3—640 acres, 9 miles south of Lone, 450 acres in cultivation, 100 more can be plowed, 155 acres in wheat. Fair buildings, and all fenced with 2 wires. Price including crop, \$10,500. \$3,500 cash, small payment after harvest, balance to suit purchaser.

No 4—430 acres, 1 1/2 miles from Lexington, all in cultivation but 5 acres, running water, all fenced. Price per acre \$20.00. One half cash, balance on easy terms.

No 5—480 acres, 12 miles from Heppner, 300 acres in cultivation, 60 acres more can be plowed, 150 acres in grain. Windmill and plenty of water at house and running water in pasture. All fenced with 2 wires. Small orchard. Three quarters of mile from school. Price including crop, \$8,000. \$3,500 cash, balance on easy terms.
