Japan's Large Navy.

The diet today voted \$135,000,000 for a program of improvement of the navy, the extension to cover a period of eight years, \$12,000,000 of this sum to be used to repair present vessels, among them being the former Russian vessels captured and raised. Many vessels in the service are now to be replaced.

The new program provides for a battleship squadron of eight vessels representing the strongest and newest types, two armoured cruisers, squadrons of eight ships each and three fast cruiser squadrons of four ships each. The government has now under construction, or about to be laid down, three battleships, nine armoured cruisers, and 10 fast cruisers which will be added to the proposed program. It is intended that two battleships shall be of the Satsuma and Aki class (now building) of 19,000 tons each and four of the Kishima and Katori class of 16,500 tons. Of the captured battleships but two, the Orse and Retyivan are considered competent to take place with the new style warships.

The minister of the navy in demanding the appropriation said his opinion was that the naval policy should be based upon the national burdens, which were heavy already, of course, always arranging that the nation's naval efficiency be not impaired.

Several Bend families have returned from a trip to Willamette valley to procure fruit. They had a hard time pulling over the muddy mountains. One of them was offered \$10 by a stranger who was "stuck" to help pull him out, but the Bend man refused—but did it for nothing.

The Klamath Falls council is awakening to the urgent need of cleaning up.

From 14 rows 72 feet in length a butter Creek man has gathered and sold already \$185 worth of tomatoes and will have 200 boxes yet to market of the ripe ones besides 600 pounds of green tomatoes.

Mules are scarce in Lake county. One man succeeded in buying 25 head but says only three are left in northern Lake county, and that these can't be bought with all the money in the Klamath Falls banks.

Chinese Doctor.

Everything and everybody is rushing in about Harney. One cannot hire a man, and many Indians are employed.

Why Don't Homeseekers Come To Morrow County?

Morrow county produces more wealth per capita than any other county in the state of Oregon. Our territory within county lines is 75 miles in length by 3 miles in width, large enough for a state, but with not enough population for a good sized country village. Only 5000 people in the county.

Every year we grow about 1,000,000 bushels of wheat. This is worth about \$700,000.

We have about 225,000 head of sheep worth about \$562,000, after shearing while the wool from these sheep will sell for \$360,000. Then there are horses and cattle worth at least a half a million more.

These are the main items in the wealth producers.

It don't take much figuring when you look at these figures to come to the conclusion that Morrow county people make some money. We have the soil, the climate and the goods to make good.

Morrow county's climate is pleasant and healthful.

Morrow county people are prosperous. Morrow county people have money. Here in the town of Heppner we have two banks. The First National in published statements shows deposits running from half a million dollars up. Both banks have a big business. Heppner can show the largest bank deposits of any town of its size in the Northwest, and it should be remembered that Lexington, nine miles away, and Ione, 18 miles from Heppner both have banks doing a good business. This looks like Morrow county people have money.

But look here, almost half the population of Morrow county reside in the towns. This leaves only between 3,000 and 4,000 people in a territory 75 miles in length by 35 miles in width. Don't you think there is room for more people?

Ten or twelve years ago land in Morrow county went begging at from \$100 to \$250 for a quarter section.

Five years ago this land had looked up to \$600 and \$700 per acre. Today this land is worth \$15 per acre with a few of the choicest lots some times bringing \$20 per acre. Now the old timers are wondering why they did not take advantage of this cheap land. They could have made a barrel of money.

Over in the adjoining county of Umatilla wheat lands today are worth from \$50 to \$75 an acre. On the other side of us is Sherman county with wheat lands selling from \$25 up. Here we are between with just as good land at \$15 per acre. Our lands are sure to go up in price. In a few years the people here will be again wondering why they did not buy some of this \$15 land. The proposition is the same now as it was a few years ago, but it takes more money. Last year and year before a number of good farmers bought wheat lands and paid for it with their first crop.

Come to Morrow county and investigate this land business.

Following are a few samples of what we have for sale:

Passed Stone and Gravel With Excruciating Pains
A. H. Thurnes, Mgr. Willis Creek Coal Co., Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pains. Other medicines only gave relief. After taking FOLEY'S KIDNEY CURE the result was surprising. A few doses started the brick dust, like fine stones, etc., and now I have no pain across my kidneys and I feel like a new man. FOLEY'S KIDNEY CURE has done me \$1,000 worth of good."

No Other Remedy Can Compare With It
Thos. W. Carter, of Ashboro, N. C., had Kidney Trouble and one bottle of FOLEY'S KIDNEY CURE effected a perfect cure, and he says there is no remedy that will compare with it.
