W. W. Stabler came in from Wyoming, Monday. Mr. Stabler has finally succeeded in securing cars for the shipment of his sheep. He is a big buyer and has been coming to Heppner for the past ten years. Since that time he was engaged in the mercantile business, was state senator and collector of internal revenues under the administration of President Cleveland.

John Hager was taken before Judge T. W. Ayers and was examined by Drs. Winnard and Phelps, Tuesday and adjudged insane. His trouble has been apparent for some time but it was thought by careful treatment that he might recover, but instead of getting better the unfortunate man has grown worse gradually. Early Tuesday morning he secured a butcher knife and a hammer and was greatly agitated being in great fear that some one was in the house to do him bodily harm. Mrs. Hager who was with him became alarmed and called for help when he was taken in charge by officers. Two attendants came up yesterday evening from Salem. He will be taken to the Oregon State Insane Asylum today.

At the Home of Sincerity Clothes

Our Showing of Fall Styles is Unexcelled in Desirability or Value

When we speak of values; we imply two things, moderate price and unquestionable quality.

Sincerity Clothes—And we are exclusive agents for this great line of clothing, combines these two very attractive features. The fame of Sincerity Clothes rests on their unquestioned quality of materials and workmanship. Its claimed that 80 per cent. of all clothes are doctored with the hot flat iron in course of making. Faults that occur in the cutting or sewing, that should be corrected by hand needle work, are covered up by shrinking or stretching by Doctor Goose, the Hot Flat Iron.

Sincerity Clothes are revised when necessary by old fashioned hand needle work, and its this fact that enables us to guarantee them against the faults of ordinary clothing.

MINOR & COMPANY

WOMAN

"Woman" is the name of a new magazine for women. The first number is just issued. Your newsdealer has it. You can get it from him, and it is worth your while getting it. There is nothing startling about this magazine. There should be nothing startling about a decent magazine for women and the home. But this particular magazine is unique among all the so-called publications for women. You might not like it a little bit, and then, again, it might hit your fancy good and hard.

If you like fiction—good, wide-awake, snappy stories—both serials and short stories—you will like "Woman." In fact, fiction is the big feature of the magazine.

All the other magazines for women are cast on the same model—a little bit of fiction, a few articles, more or less chit chat, some wise advice, a fashion department and a smattering of general miscellany. "WOMAN" doesn't look any more like this conventional model than a yellow dog looks like a race horse. It is built on new lines for a strictly woman's publication. To know what it is like you will have to get a copy of it. It would cost too much to tell you all about it in this advertisement.

The price of "WOMAN" is TEN CENTS A COPY, and the magazine is a very big one—192 pages.

By the way, two rattling good serial stories begin in this first number and it contains a big lot of other good things. You would do well to ask your dealer for it before his supply is exhausted.
