

Oregon Legislature This Winter Will Consider Deposit Matter.

Orogon has had eight Tressurers, since the state government was instituted in 1859, a'l of whom have made fortunes by absorbing interest accretions of state funds. It the Wisconsin case should be followed here, the state would be barred from recovering the interest for more than six years back, by the statute of limitations. This statute was amended by the Legislature in 1903 so as to remove in future the limitatio from the state, and from counties and other public corporations. tion. The Legislaure next Winter probably Other states that have provided for will be asked to pass a bill to provide for lending state funds to banks which will pay to the state interest on daily balances. This will divert from the pockets of the Theasurer money which rightfully belongs to the public. The demand for this change will have more force than at any previous session, because the next Taeasurer is to be paid a flat salary of \$4500 a year, whereas his predecessors have been receiving as lawful compensation only \$800 a year. shall be in no danger of loss. The rate For this reason, the interest heretofore has been accorded to State Treasurers by common consent as part of the compensation of the office. It has been the custom in the past for State Treasurers to deposit the state funds in banks, and for the banks to pay the State Treasurers for the use of ment takes actual possession of the money. Though the lending of \$\$0,000,000 worth of property

declaring it has been upheld by the Supreme Court, it is evident that the framers of the constitution contemp'st-\$800 a year was a sum for which no competent man would serve if he re-

c ived no more. Since the constitution was adopted, the compensation of the T easurer has been increased by the a lowance of various fees and perquisites, until there is no longer any excuse for his taking interest on public funds. Indeed, the last Legislature passed a flat-salary law which provides compensation adequate to the service rendered, and this act will take effect at thr beginning of the next administra-

Sheep Supplanting Cattle.

In the Salmon riv-r country where every inch of he range has for time immemorable been jealously guard d by the cattlemen, and where blood has been shed beconse the sheep owners made so bold as to invade the territory, the beef steers are to give way and sheep ars to be driven on the ranges.

"Yes," confersed S. Rhoades. when seen today by a representative of the Lewiston Evening Teller, "I never hated to do a thing so badly in my life, but I am taking a big verd of sheep into the Salmon river to turn on the range." Other such prominent m-n in the attle business as C. J. Hall, the Read boys and numerous others are changing

their herds, and oing into the sheep business. Old-timers are grieved to see the

custom change. Sa'mon river has always been a cattle country. Some of the largest cattle raisers in the country have operated from this territory and the beef raised has brought faucy prices is Omaha and Chicag ma, kets. Bunch grees cattle they are called and every dealer knows the value of bunch grass as feed for beel. At certain seasons of the year the cattle would actually fatten enough for the market on the bunch grass.

It is learned that the stockraisers have decided that there is more money in sheep in this country than in cattle and although their sentiment has always been in favor of the cattle busi ness, judgment has overcome their sentiment, and the sheep are to be given the range.

It is understood that the cattlemen who as an organized body have always opposed the ranging of sheep in their territory, are to lay down their opposition and the immigration of the sheep is to be praceable.

The general missionary committee of the Methodist Episcopal church, in session at Buffalo, reports appropriations for 1906-07 ed that the Treasurer should make a amoun ing to \$852,093 for foreign missions.

> Taken as directed, it becomes the stock from the same territory. greatest curative agent for the relief of suffering humanity ever devised. Such Lexington Oregon.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are effected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It anriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema,

tetter, or salt-rhoum, hives and other manifestations of impure blood. . ۲ In the cure of scrofulous swellings, en-

larged glands, open eating ulcers, or old sores, the "Golden Medical Discovery " has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery " as 's blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it. by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

۲ . . . You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine OF KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellots regulate and invigorate stomach, liver and bowels

After the Rallroads.

Frye & Bruhm, the big Seattle packers, bave filed with the interstate com merce commission a complaint alleging discrimination on the part of the Northern Pacific and the Burlington railroads against Pacific coast shippers in the matter of freight rates from Missouri river territory.
