BETTER UNITED

Organization of Third Eastern Oregon De-
velopment League.

HARMONY AND GOOD FEELING

Pendleton Was Well Represented -- Much
Enthusiasm Manifested by Every-
one Present.

December 11, 1906
T. D. D. L.
BOOST! BOOST!!
Umatilla & Morrow

Third District Development
League.

This sounds good because it is a
reality.

The Umatilla County Develop-
ment League and the Morrow
County Development League were
united with great enthusiasm.

The bond of good feeling be-
tween Morrow and our sister
county and especially between the
owns of Pendleton and Heppner
has been sealed.

The special train that came from
Pendleton Tuesday evening bear-
ing the visitors was well loaded
with enthusiastic business people.
Between 150 and 200 people were
on the train. The special was
scheduled to arrive at 4 o'clock
but owing to the time taken up at
the stops at Echo, Herimston,
Umatilla, Irrigon, Ione and Lex-
ington where the excursionists
were greeted with great enthu-
siasm, the train did not get to
Heppner until 5:30.

On Tuesday morning's train
from Heppner, Mayor Gillham,
Judge Ayers and a number of
Heppner business men went to
Ione, to meet the visitors. At
Ione there was a big demonstra-
tion. Fully 500 people turned out
to extend greetings to the people
who were coming with the open
hand of fellowship. The Leaguers
were welcomed at Ione by At-
torney White. Then were re-
sponses by T. C. Taylor and H. E.
Willis.

The Eagles band which accom-
panied the Leaguers furnished
music during all of the stops. In
justice to the band, it is well to
say that the Eagles band is a good
musical organization and the
musicians were willing and ready
at all times to entertain the people
with their splendid music, notwith-
standing the fact that the weather
was very disagreeable.

Owing to the fact that there was
a snow storm late in the afternoon
and evening and that the depot
is unhandy to get to there was not
a large crowd to meet the excu-
sionists at the Heppner depot.

The reception committee de-
serves credit for successful man-
agement of every detail in enter-
taining the many visitors.

While the hotels were filled to
overflowing, ample preparation
had been made to take care of all.
Plenty of rooms had been secured
at private residences and there
was no trouble experienced by any
one in securing good accomoda-
tions.

The commercial club rooms were
thrown open where a large number

of the visitors were entertained
prior to the main meeting at
Roberts' hall.

At seven o'clock the Eagle's
band started the ball to rolling by
rendering a selection on the street,
and soon the streets were crowded
by people on their way to Robert's
hall where it had been arranged
for the exercises to take place.

At the hall, even standing room
was not to be found. Every nook
and corner was literally packed
with people.

Judge T. W. Ayers, president of
the Morrow County League called
the meeting to order, and with a
few appropriate remarks turned
the meeting over to President
Johns of the Umatilla County De-
velopment League.

Mr. Johns opened the meeting
by stating the object and in a few
words made some good points as
to the benefits of proper organiza-
tion and good feeling.

The presidents remarks were
pleasing and there was an apparent
ripple of good humor. He said
that we have accomplished a great
deal if we have united Umatilla
and Morrow counties.

Rev. Joseph Buis offered prayer.
The address of welcome by
Attorney S. E. VanVactor was
well received and worthy of the
many compliments tendered the
popular attorney who welcomed
the visitors in such away as to
make every one feel welcome in
reality.

Mr. VanVactor said in part:
"In welcoming you to Morrow
county today we do so realizing
our inability to express to you the
feeling of welcome with which our
hearts are over pouring, and es-
pecially to you of Umatilla."

"The ties binding us are strong-
er than ordinarily exist between
edjoining counties. Morrow to a
certain extent is the offspring of
Umatilla. The two constitute a
judicial and legislative district and
the interest of one is the interest
of the other. The institutions
that are ours are yours. Our
progress, our prosperity and our
development materially depend
upon your progress, your prosper-
ity and your development, and
linked together as we are, your
success shall be our success and
your greatness shall be our great-
ness," said Mr. VanVactor.

The speaker referred to the
"magical touch of the hand of the
Development League which will
reclaim our vast territory and
supply homes for countless thou-
sands and furnish an abundance for
the keeping of a mighty popula-
tion."

Mr. VanVactor was roundly
applauded.

Ex-Governor T. T. Geer, now
editor of the Pendleton Trib-
une, was the next speaker in-

Does your baking powder contain alum? Look upon the label. Use only a powder whose label shows it to be made with cream of tartar.

NOTE.—Safety lies in buying
only the Royal Baking Powder,
which is the best cream of tartar
baking powder that can be had.

roduced.

Mr. Geer does not need much
introduction to an Oregon audi-
ence. While the time was limited,
the speaker launched right off
with enthusiasm and made a good
impression. He said that while
there was evidence of considerable
hot air, it was something that was
necessary. No question or enter-
prise could be successfully carried
out without a certain amount of
the warm atmosphere.

Mr. Geer referred to the re-
sults accomplished by the Leagues
in the Willamette Valley, and said
that we must have unity of pur-
pose before doing things.

He said that it was certainly a
mistaken idea to think that we
could help ourselves by being
jealous of any other district.
That the spirit of rivalry and
jealousy must cease. If other
districts prosper, we will help
share prosperity with them. If he
did not believe in this spirit he
would stay at home and growl.

He stated that Umatilla was
always at the service of Morrow
that we could both prosper. "We
need more people," said Mr. Geer.
If Oregon was as thickly settled as
Massachusetts we would have a
population of 28,000,000.

Following Governor Geer, At-
torney S. E. Notson addressed the
large audience on the benefits of
co-operation.

"Co-operation is the nature of
our being ever since the beginning,"
said Mr. Notson.

"Almost everything in civiliza-
tion is the result of co-operation.
The fact that our interests are
identical shows every reason that
we should work together. The

DIAMONDS.

if You Want to Make Them, Here Is
the Process of Manufacture.

Would you like to know how to man-
ufacture diamonds—real diamonds? The
process is somewhat difficult, requiring
time, patience and some outlay of mon-
ey, but then consider the possible re-
sults! The diamond, we know, is sim-
ply carbon in a transparent crystalline
form. It comes of humble parentage
and is brother to the lump of coal.

Unlike easily crystallizable bodies,
carbon is insoluble in all ordinary sol-
vents, but molten metals will combine
with it. Let the diamond maker choose
iron for a solvent for charcoal, melting
it in an electric furnace, allowing it to
take up as much carbon as it can—in
other words, saturate itself with car-
bon. The crucible containing the white
hot metal should then be plunged into a
bath of molten lead. The result will be
that globules of iron will rise to the
surface of the lead and are quickly
cooled on the outer surface. Inside the
hard crust the iron remains for some
time in a molten condition, and as iron
expands in solidifying the contents of
these little globules receive a pressure
unattainable by any other means.

When the lead becomes solidified some
bullets of iron will be found bound up
in the mass. Dissolve with some pow-
erful acid first the lead and then the
iron, and a residuum of carbonaceous
matter will be found to contain tiny
crystals—real diamonds. Any chemist
with a well equipped laboratory can
make diamonds in this way, but the
largest of them will not be more than a
fiftieth of an inch in diameter.
