CONTEST NOTICE.

Department of the Interior,
U. S. Land Office, The Dalles, Oregon,
December 10, 1906.

A contest against a certain claim having been filed in this office by William B. Rhodes, contestant against homestead entry No. 9071, made March 7, 1904, for SW 1/4 Sec. 34, T. 22 N., R. 24 E., W. 4 M., by Stella S. Matteson, Contestee, in which it is alleged that said Stella S. Matteson has totally abandoned said tract, that she has changed her residence therefrom for more than six months last past, that said tract is not settled upon and cultivated by said party, as required by law, that she has never resided upon or cultivated or improved the same, that said abandonment was not due to her employment in the army, navy or marine corps of the United States in time of war, said parties are hereby notified to appear, respond and defend evidence touching said allegation at 10 o'clock a. m. on Feb. 1, 1907, before the Register and Receiver at the United States Land Office in The Dalles, Oregon.

The said contestant having, in a proper affidavit, filed December 10, 1906, set forth facts which show that after due diligence personal service of this notice could not be made, it is her by order and directed that such notice be given by due and proper publication.

GOLDEN NUGGETS FOR SLOW PEOPLE

Everybody wants to know what The Oregonian has to say.

Chinese Doctor.

Mr. J. Mon Foo, an experienced compounder of Chinese medicines, successor to the late Hon. W. Tong, of Albany, Oregon, is now prepared to furnish Chinese medicine to all. The undersigned recommends him and guarantees satisfaction.

Call or write him at No. 117 West Second Street, Albany, Oregon.

JIM WESTFALL.

DIAMONDS.

If You Want to Make Them, Here is the Process of Manufacture.

Would you like to know how to manufacture diamonds—real diamonds? The process is somewhat difficult, requiring time, patience and some outlay of money, but then consider the possible results! The diamond, we know, is simply carbon in a transparent crystalline form. It comes of humble parentage and is brother to the lump of coal.

Unlike easily crystallizable bodies, carbon is insoluble in all ordinary solvents, but molten metals will combine with it. Let the diamond maker choose iron for a solvent for charcoal, melting it in an electric furnace, allowing it to take up as much carbon as it can—in other words, saturate itself with carbon. The crucible containing the white hot metal should then be plunged into a bath of molten lead. The result will be that globules of iron will rise to the surface of the lead and are quickly cooled on the outer surface. Inside the hard crust the iron remains for some time in a molten condition, and as iron expands in solidifying the contents of these little globules receive a pressure unattainable by any other means. When the lead becomes solidified some bullets of iron will be found bound up in the mass. Dissolve with some powerful acid first the lead and then the iron, and a residue of carbonaceous matter will be found to contain tiny crystals—real diamonds. Any chemist with a well equipped laboratory can make diamonds in this way, but the largest of them will not be more than a fiftieth of an inch in diameter.

CHRISTMAS.

Negroes consider Christmas day the best in the year for a wedding. Christmas was first celebrated as a feast of the Christian church about the year 100 A. D.

At Cullin, in Ireland, the game of kamman, a sort of hockey, is played on Christmas day.

A leaf from Christmas decorations is preserved in Yorkshire as a remedy against toothache.

Scottish servants each endeavor to be the first to draw water from the well on Christmas morning.

It is an old Irish superstition that gold should not be paid away on Christmas day nor silver lent.

Christmas day at Cape Town is usually celebrated with picnics. The temperature averages 82 degrees.

On Christmas morning in Norway every gateway, gable or barn door is decorated with a sheet of corn fixed on a tall pole in order that the birds may eat from it their Christmas dinner.

To Make a Canary Sing.

Generally any kind of soft, vibrant noise will tempt a bird to sing. A canary hung in a kitchen will usually start his song if he hears, say, the frizzling of a frying pan. We utilize special devices to tempt the shy singer, who is perhaps rendered the more bashful by finding himself in novel surroundings. For this purpose we employ whistles and song organs, which artificially reproduce the "songs" of the roller. This latter method is found to be irresistible when all other plans have failed. The bird feels apparently that he is being challenged and forthwith responds to the challenge by pouring forth the best of his song.—London Post.

ENGLISH ETCHINGS.

In England, where fads and fashions change slowly and the roads are good, bicycle manufacturers are still doing a good business.

A Liverpool man of wealth supplies envelopes free to all business houses willing to permit him to print upon the backs texts from the Scriptures. He spends \$2,000 or \$3,000 a year in this curious way.

The Nelson statue in Trafalgar square, London, is already decaying. It is found that the only stone that resists the foggy atmosphere in London is Portland Limestone, of which St. Paul's cathedral is built.

Why Don't Homeseekers Come To Morrow County?

Morrow county produces more wealth per capita than any other county in the state of Oregon. Our territory within county lines is 75 miles in length by 35 miles in width, large enough for a state, but with not enough population for a good sized country village. Only 5,000 people in the county.

Every year we grow about 1,000,000 bushels of wheat. This is worth about \$700,000.

We have about 225,000 head of sheep worth about \$500,000, after shearing while the wool from these sheep will sell for \$300,000. Then there are horses and cattle worth at least a half a million more.

These are the main items in the wealth producers. It don't take much figuring when you look at these figures to come to the conclusion that Morrow county people make some money. We have the soil, the climate and the goods to make good.

Morrow county's climate is pleasant and healthful.

Morrow county people are prosperous. Morrow county people have money. Here in the town of Heppner we have two banks. The First National in published statements shows deposits running from half a million dollars up. Both banks have a big business. Heppner can show the largest bank deposits of any town of its size in the Northwest, and it should be remembered that Lexington, nine miles away, and Ione, 18 miles from Heppner both have banks doing a good business. This looks like Morrow county people have money.

But look here, almost half the population of Morrow county reside in the towns. This leaves only between 3,000 and 4,000 people in a territory 75 miles in length by 35 miles in width. Don't you think there is room for more people.

Ten or twelve years ago land in Morrow county went begging at from \$100 to \$250 for a quarter section.

Five years ago this land had looked up to \$6.00 and \$7.00 per acre. Today this land is worth \$15 per acre with a few of the choicest lots some times bringing \$20 per acre. Now the old timers are wondering why they did not take advantage of this cheap land. They could have made a barrel of money.

Over in the adjoining county of Umatilla wheat lands today are worth from \$50 to \$75 an acre. On the other side of us is Sherman county with wheat lands selling from \$25 up. Here we are between with just as good land at \$15 per acre. Our lands are sure to go up in price. In a few years the people here will be again wondering why they did not buy some of this \$15 land. The proposition is the same now as it was a few years ago, but it takes more money. Last year and year before a number of good farmers bought wheat lands and paid for it with the first crop.

Come to Morrow county and investigate this land business.

Following are a few samples of what we have for sale:

No 1—320 acres, 13 miles south of Ione, 220 acres in cultivation and is in crop. One third of crop delivered in Ione goes with place. All fenced with 2 wires. Price \$4,500. \$2,500 cash, balance in 2 years, 8 per cent.

No 2—800 acres, 12 miles south of Ione, 500 acres in cultivation 285 acres in grain, will summer fallow balance. Good well water, fair buildings and one mile from school. Price including crop and summer fallow, \$12,500. \$3,000 cash, \$2,000 after harvest, balance in one half crop payments at 8 per cent.

No 3—640 acres, 9 miles south of Ione, 450 acres in cultivation, 100 more can be plowed, 155 acres in wheat. Fair buildings, and all fenced with 2 wires. Price including crop, \$10,500. \$3,500 cash, small payment after harvest, balance to suit purchaser.

No 4—430 acres, 1 1/2 miles from Lexington, all in cultivation but 5 acres, running water, all fenced. Price per acre \$20.00. One half cash, balance on easy terms.

No 5—480 acres, 12 miles from Heppner, 300 acres in cultivation, 60 acres more can be plowed, 150 acres in grain. Windmill and plenty of water at house and running water in pasture. All fenced with 2 wires. Small orchard. Three quarters of mile from school. Price including crop, \$8,000. \$3,500 cash, balance on easy terms.

No 6—640 acres, 5 miles from Heppner, all tillable but 50 acres, 300 acres in wheat. Plenty of water, and fair buildings. Young orchard. Price including crop \$20.00 per acre. One half cash balance on easy terms.

No 7—Stock ranch, 7200 acres all fenced with 3 wires, watered by several

spring branches and creeks. There is about 75 acres set to alfalfa, 250 more in cultivation, two fair houses, two good sheep sheds. Located in the best grass section in Morrow county. Price per acre \$6.50. One third cash, balance on easy terms.

No 8—280 acres timber land, good house and barn, all fenced, 25 acres meadow or bottom land. One mile from good saw mill, 1 1/2 miles from school, 10 miles from Heppner. Price per acre \$10.00. \$500.00 cash, balance to suit purchaser.

No 9—320 acres timber and grass land, 3 miles from saw mill, all fenced, plenty of running water, small house. Price \$1600. Small payment down, balance on easy terms.

No 10—640 acres, 825 acres in cultivation, balance can be farmed, 300 acres in summer fallow, fair house and barn and other out buildings, fenced and cross fenced with 2 wires, county road runs on one side, one half mile from good school, 8 miles from railroad station. Price \$20.00 per acre, including summer fallow. One third cash, balance on easy terms, 8 per cent.

No 11—160 acres, 6 miles from Harman, well watered by springs, plenty of timber for home use, comfortable five room frame house, cellar, milk house, smoke house, wood house and shop, barn room for 12 head of stock. Hay barn 24x34, cattle shed 24x60, wagon and tool shed 16x40. About 40 acres in cultivation, more could easily be put in cultivation. Orchard of apple, plum, prune, pear and cherry trees just beginning to bear, one half mile from school house 3 miles from saw mill. Price \$2,000 \$1,400 down balance to suit purchaser

Timber Land, Act June 3, 1878.

NOTICE FOR PUBLICATION.

United States Land Office, La Grande, Ore.,

October 24th, 1906.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Margaret D. Justus, of Heppner, county of Morrow State of Oregon, has this day filed in this office her sworn statement No. 147, for the purchase of the SW 1/4 of Section No. 35 in Township No. 3 S., Range No. 28 E., W. 4 M., and will offer proof to show that the land sought is more valuable for its timber or some than for agricultural purposes, and to establish her claim to said land before Register and Receiver at La Grande, Oregon on Tuesday, the 24th day of January, 1907.

See names as witnesses: William T. McRoberts, John N. Boelter, Harry Hayes and Gideon B. Battall of Heppner, Oregon.

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 24th day of January, 1907.

WHEN YOU CATCH COLD

Do not take chances on it wearing away or experiment with some unknown preparation which may leave the bronchial tubes and lungs weakened and susceptible to attack from the germs of Pneumonia or Consumption.

FOLEY'S HONEY AND TAR

not only stops the cough but heals and strengthens the lungs and prevents serious results from a cold. Contains no opiates.

It Saved His Life After the Doctor Said He Had Consumption.

W. R. Davis, Vissalia, California, writes: "There is no doubt but what **Foley's Honey and Tar** saved my life. I had an awful cough on my lungs and the doctor told me I had consumption. I commenced taking **Foley's Honey and Tar** and found relief from the first and three bottles cured me completely."

Three sizes—25c, 50c and \$1.00. The 50-cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much. Refuse Substitutes.

SOLD AND RECOMMENDED BY
SLOCUM DRUG COMPANY, HEPPNER, OREGON

A Policeman's Testimony.

J. N. Patterson, night policeman, of Nashua, Iowa, writes: "Last winter I had a bad cold on my lungs and tried at least a half-dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended **Foley's Honey and Tar** and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world."
