

## MAYOR OF SUNBURY Says Per-na is a Good Medicine.

Hon. C. C. Brooks, mayor of Sunbury, Ohio, also attorney for Farmers' Bank and Sunbury Building and Loan Co., writes:

"I have the utmost confidence in the virtue of Per-na. It is a great medicine. I have used it and I have known many of my friends who have obtained beneficial results from its use. I cannot praise Per-na too highly."

HON. C. C. BROOKS.

There are a host of petty ailments which are the direct result of the weather. This is more true of the excessive heat of summer and the intense cold of winter, but it is partly true of all seasons of the year.

Whether it be a cold or a cough, catarrh of the head or bowel complaint, whether the liver be affected or the kidneys, the cause is very liable to be the same.

The weather slightly deranges the mucous membranes of the organs and the result is some functional disease.

Per-na has become a standby in thousands of homes for minor ailments of this sort.

### AWFUL ATTACKS OF PAIN.

#### A Most Dreadful Case of Kidney Trouble and How it Was Cured.

Thomas N. McCullough, 321 South Weber St., Colorado Springs, Colo., says: "For twelve or fifteen years I was suffering frequent attacks of pain in the back and kidneys that lasted for three weeks at a time. I would be unable to turn in bed. The urine was in a terrible condition, at times a complete stoppage occurring. I began with Dean's Kidney Pills, and soon felt better. Keeping on, I found complete freedom from kidney trouble. The cure has been permanent. I owe my good health to Dean's Kidney Pills."

## SKIN DISEASES HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

**No Chance for Argument.**  
"George," said Mrs. McSkullip to her liege lord, who was toasting his shins before the fire, "I suppose you get the credit for sweeping the snow off our front walk?"  
"I reckon I do, Cynthia," responded George.  
"And you know you don't do a lick of it. You know I do it myself."  
"You do, Cynthia. There can't be any doubt about that."  
"Well, what sort of a man do you think you are?"  
"I'm a blamed small specimen of a man, Cynthia," said George, still serenely toasting his shins. "I have no doubt I am a madder and more contemptible man than you think. Lord, love you, Cynthia, you can't get into any argument with me on that proposition. I'm the laziest, good for nothing, oneriest man in the neighborhood. If it wasn't that I've got such a good wife, I'd go and blow my worthless brains out. Super ready yet, dear?"—Philadelphia Index.

**Sudden Reform.**  
"You usually give your husband a box of cigars for Christmas, don't you?"  
"Yes. But I'll have to think of something else this year."  
"How is that?"  
"Why, I told him I was going to do my Christmas shopping tomorrow and he spoke right up and said he had concluded to give up smoking."  
—Cleveland Plain Dealer.

**Thoroughly Reliable.**  
If ever there was a reliable and safe remedy it is that old and famous porous plaster—Alleck's. It has been in use for sixty years, and is as potent today as ever. And we don't think there is a civilized community on the face of the globe where this wonderful pain reliever is not found. In the selection of the ingredients, and in their manufacture the greatest care is taken to keep each plaster up to the highest standard of excellence, and so pure and simple are the ingredients that even a child can use them. Alleck's are the original and genuine porous plasters, and are sold by Druggists in every part of the civilized world.

Capt. Kidd was burying his treasure. "It's better than putting it in suburban lots," he chuckled. "The money will always be there."  
Fully aware, too, that the authorities couldn't rob him of it by taxes and special assessments, he satisfied himself that no meddling reporter was nosing around in the neighborhood and beset himself again to the long, low, rakish craft that lay waiting for him two cables' length from shore.

## LITERARY LITTLEBITS

Henry Holt & Co. have concluded arrangements to publish in 1927 a new novel by William deMorgan, whose "Joseph Vance" has received such remarkable praise from leading critics both here and abroad. The new book (about which no particulars have as yet been given out) will bear the rather striking title, "Alice for Short."

The Harpers have arranged for publication in 1927 of books by President Roosevelt, William Dean Howells, Sir Gilbert Parker, Mark Twain, Norman Duncan, Mary E. Wilkins Freeman, Robert Hichens, Margaret Potter, Henry James, May Sinclair, Theodore Watts-Dunton, Thomas A. Janvier, Frederick Trevor Hill, Gertrude Atherton, Florence Morse Kingsley and numerous others.

B. Putnam Weale, author of "The Reshaping of the Far East," has written a new book on the eastern question entitled "The Truce in the East," which is likely to attract considerable attention. Mr. Weale believes that the eastern question is in many respects more threatening to-day than ever before. The enormous borrowings of Japan, and the likelihood that the Korean question will come up again within a few months, are indications of an approaching crisis in Japanese affairs that make this work particularly timely.

After many years as a sailor, Joseph Conrad, whose latest book, "The Mirror of the Sea," was recently published by the Harpers, is living in a quiet, slant-roofed cottage near Hythe in Kent, England. In front of his house is an irregular old stone wall, separating it from the roadway, and about the house are thick-clustering vines and a garden filled with old-fashioned flowers. A seaman could not live comfortably with a restricted outlook, and so one is not surprised to find wide sweeps of charming country in view from the cottage windows.

The news of the death of Charlotte Brontë's husband, Rev. Arthur Bell Nicholls, says the London Academy, came as a surprise to many people who were not aware he had survived his first wife so long. The courtship was a fine instance of "dogged does it." Mr. Nicholls, a strict, decorous, tactful man, and a poor curate, made up his mind to marry "Currer Bell," and proposed to her at the height of her fame. The lady seems to have been indifferent; her father, the vicar, was furious; Mr. Nicholls had to leave the parish. But he held to his point, corresponding privately with Charlotte Brontë until her father's opposition was sufficiently worn down to admit of the curate being recalled and the marriage taking place, though without the final sanction of Rev. Patrick Brontë's presence. The simple curate and the lady of genius lived very happily together for something less than a year, when death severed the union. For more than fifty years Mr. Nicholls lived, mainly upon a farm in Ireland, honoring the memory of his wife and—what is more—respecting her family secrets.

**DOG MEAT IS NOT SO BAD.**

**First Choice of the Eskimo and of Many Indian Tribes.**  
Last year over 1,500 dogs were slaughtered for food in Prussia. Probably one could eat dog from choice any more than one could be a cannibal from choice. But many Indian tribes have eaten dog for generations. The Eskimos eat dogs when they can catch them. Arctic explorers from all countries, looking for the pole, have eaten dog without compunction and on several occasions have eaten their comrades of human kind. Dog meat is sweet, like mule meat, and the best part of it is not next to the bone, as is the case with other meats, but that lying next to the skin, which must be baked to a crisp.  
That able general, Chief Joseph, of the Nez Percés, prefers dog to all other meats. His second choice always was grizzly and his third Rocky mountain sheep. When Watkinson of the Umatillas heard of the drowning of enormous quantities of dogs impounded in New York he wept. When the Umatillas have a great feast dog is the piece de resistance. The browned skin, with the hair on it, is served to the hi-muck-a-mucks, or chief guests, and if you happen to be one of the muck-a-mucks you must gnaw this bit of skin as you would a rib of beef in camp. Many palefaces have done it and come from the feast liking dog. The Caucasian's prejudice comes from that little word "pet." A dog is a pet and practically a member of the family cannot stomach the idea of eating a pet.

And a bee in your bonnet too,  
And an elephant on your hands, it is clear  
We must call it a horse on you.  
—Nixon Waterman.

It cannot be too often repeated that of all food that comes to table there is nothing so pure as bread.—London Bakers' Times.

**Deafness Cannot Be Cured**  
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Sarsaparilla. Send for circulars, free.

## Blue Blooded Salvationists.

The Salvation Army bids fair to become an aristocratic body. Major Mary Murray, who supervises the military and naval league of the Salvationists, is a daughter of the late Sir John Murray, K. C. B., and Lieut. Col. Minnie Reid, who recently married Commissioner Booth-Tucker, is a daughter of a former acting governor of Bombay. The commissioner himself, resigned a judgeship in India, with all the wealth and special position attached to it, to devote himself to Salvation Army work.

Lady Sarah Sladen is a Salvationist, and the countess dowager of Teafeld is a member of the auxiliary of the army. Two daughters of Mr. Onslow, late member of parliament for Guildford, have together steadily risen in the ranks. Intimately connected with the work in Australasia is the Hon. Mrs. Bird, wife of the former prime minister of Tasmania. She is said to be as ardent as any Salvation Army lass in disposing of the "War Cry." The daughter of the late Lady Gait, wife of the Lieutenant governor of Ontario, is working in Canada.—Answers.
