FORGET YOURSELF.

No One Can Grow While His Thoughts Are Self-Centered.

Forget yourself. You will never do anything great until you do. Self-consciousness is a disease with many. No matter what they do, they can never get away from themselves. They become warped upon the subject of self analysis, wondering how they look, how they appear, what others will think of them and how they can enhance their own interests. In other words, every thought and every effort seems to focus upon self; nothing radiates from them.

No one can grow while his thoughts are self-centered. The sympathies of the man who thinks only of himself are soon dried up. Self-consciousness acts as a paralysis to all expansion, strangles enlargement, kills aspiration, cripples executive ability. The mind which accomplishes things looks out, not in; it is focused upon its object, not upon itself.

The immortal acts have been unconsciously performed. The greatest prayers have been the silent longings, the secret yearnings of the heart, not those which have been delivered facing a critical audience. The daily desire is the perpetual prayer, the prayer that is heard and answered.—Success.

What the Blind See.

"I can always tell when people are looking at me," said a blind man. "Indeed, nearly all blind persons can tell when people are looking at them. I have always about me a soft golden glow of light. When people whom I like come into my presence this glow becomes paler, lovelier. When those I dislike are about the glow is darkened and besmirched. I can tell what kind of characters people have by the touch of their hands. There is individuality in the touch. A man's touch shows me whether he is alert or sluggish, cold or passionate, kind or cruel."

Stone in the Heart.

A Greek woman employed in the American hospital in Caesarea, Turkey, was stirred by a revival. She straightway asked leave to visit a woman whom she had injured and to whom she had not spoken for ten years. When she trudged through the snow three or four miles to ask her "enemy's" forgiveness her relatives were sure she had gone daft, but the next day, when she came back to the hospital, she said, "We made peace, and the stone in my heart is gone."

Not So Resourceful as Most Girls.

Nell—Some of our proverbs are so ridiculous. For instance, "Where ignorance is bliss"—Belle—What's the matter now? Nell—Why, you know, Charlie gave me my engagement ring last week, and I simply can't find out how much it cost him.—Philadelphia Ledger.

Not Altogether Unsuccessful.

Bobby—Went fishing yesterday instead of going to school. Tommy—Catch anything? Bobby—Not until I got home.

He Was Tender.

"Young Mr. Softy paralyzed Dr. Simton when he went to be vaccinated," observed Gaswell to Dukane.

"How was that?"

"He asked the doctor to put him under the influence of anaesthetics."

A Farsighted Girl.

"I will work night and day to make you happy," he said.

"No," she answered thoughtfully, "don't do that. Just work during the day and stay at home at night."

Patting yourself on the back is a difficult task—seldom done gracefully.

Why Don't Homeseekers Come To Morrow County?

Morrow county produces more wealth per capita than any other county in the state of Oregon. Our territory within county lines is 75 miles in length by 3 miles in width, large enough for a state, but with not enough population for a good sized country village. Only 5000 people in the county.

Every year we grow about 1,000,000 bushels of wheat. This is worth about \$700,000.

We have about 225,000 head of sheep worth about \$502,000, after shearing while the wool from these sheep will sell for \$360,000. Then there are horses and cattle worth at least a half a million more.

These are the main items in the wealth producers.

It don't take much figuring when you look at these figures to come to the conclusion that Morrow county people make some money. We have the soil, the climate and the goods to make good.

Morrow county's climate is pleasant and healthful.

Morrow county people are prosperous. Morrow county people have money. Here in the town of Heppner we have two banks. The First National in published statements shows deposits running from half a million dollars up. Both banks have a big business. Heppner can show the largest bank deposits of any town of its size in the Northwest, and it should be remembered that Lexington, nine miles away, and Ione, 18 miles from Heppner both have banks doing a good business. This looks like Morrow county people have money.

But look here, almost half the population of Morrow county reside in the towns. This leaves only between 3,000 and 4,000 people in a territory 75 miles in length by 3 miles in width. Don't you think there is room for more people.

Ten or twelve years ago land in Morrow county went begging at from \$100 to \$250 for a quarter section.

Five years ago this land had looked up to \$6.00 and \$7.00 per acre. Today this land is worth \$15 per acre with a few of the choicest lots some times bringing \$20 per acre. Now the old timers are wondering why they did not take advantage of this cheap land. They could have made a barrel of money.

Over in the adjoining county of Umatilla wheat lands today are worth from \$50 to \$75 an acre. On the other side of us is Sherman county with wheat lands selling from \$25 up. Here we are between with just as good land land at \$15 per acre. Our lands are sure to go up in price. In a few years the people here will be again wondering why they did not buy some of this \$15 land. The proposition is the same now as it was a few years ago, but it takes more money. Last year and year before a number of good farmers bought wheat lands and paid for it with the first crop.

Come to Morrow county and investigate this land business.

Following are a few samples of what we have for sale:

No 1—320 acres, 13 miles south of Ione, 220 acres in cultivation and in crop. One third of crop delivered in Ione goes with place. All fenced with 2 wires. Price \$4,500. \$2,500 cash, balance in 2 years, 8 per cent.

No 2—800 acres, 12 miles south of Ione, 500 acres in cultivation 285 acres in grain, will summer fallow balance. Good well water, fair buildings and one mile from school. Price including crop and summer fallow, \$12,500. \$3,000 cash, \$2,000 after harvest, balance in one half crop payments at 8 per cent.

No 3—640 acres, 9 miles south of Ione, 450 acres in cultivation, 100 more can be plowed, 155 acres in wheat. Fair buildings, and all fenced with 2 wires. Price including crop, \$10,500. \$3,500 cash, small payment after harvest, balance to suit purchaser.

No 4—430 acres, 1 1/2 miles from Lexington, all in cultivation but 5 acres, running water, all fenced. Price per acre \$20.00. One half cash, balance on easy terms.

No 5—480 acres, 12 miles from Heppner, 300 acres in cultivation, 60 acres more can be plowed, 150 acres in grain. Windmill and plenty of water at house and running water in pasture. All fenced with 2 wires. Small orchard. Three quarters of mile from school. Price including crop, \$8,000. \$3,500 cash, balance on easy terms.

No 6—640 acres, 5 miles from Heppner, all tillable but 50 acres, 300 acres in wheat. Plenty of water, and fair buildings. Young orchard. Price including crop \$20.00 per acre. One half cash balance on easy terms.

Meysterbeer.

Meysterbeer was so nervous and "fidgety" about his works that when they were in course of preparation or rehearsal or performance he never gave himself or any one else concerned a moment's peace of mind. He was constantly making changes or alterations in the score and would sometimes write a passage in three or four different colored inks in order to try the different effects and then could not make up his mind which was the best. He worried over his opera "L'Africaine" so long, delaying, retouching and polishing, even while it was in rehearsal, that the self imposed labor made him ill, and he died before the first public performance.

Dynamite Whiskers.

The name "whiskers" is applied to feathery crystals which gather upon the outside of the wrapping of frozen dynamite. The "whiskers" are more "irritable" than dynamite itself. A case is on record where sticks of dynamite had been thawed out in hot water and the can of hot water in which it was done left in the blacksmith shop without being emptied of the residual sum of grease and whiskers. The first blow of the blacksmith's hammer on a nearby anvil was sufficient to set off the whiskers by concussion. The can was blown to pieces, but fortunately no one was hurt.

The Kafirs.

The Kafirs are great philosophers. If an ox should die the owner never grieves, but remarks: "Now I must go to work for master (all white men who treat them well are called masters), and in six months he will give me a cow. It will have a calf. If it is a bull calf in a year I'll have a pair of oxen, but should it be a heifer calf I'm all the richer, for the next year I'll have two calves instead of one."

The opinions of the misanthropical rest upon this very positive basis, they adopt the bad faith of a few as evidence of the worthlessness of all.—Beva.
