REGULATIONS OF FOREST RESERVE

Allotment of Territory by
the Stockmen.

COMMITTEES WORK HARD
Only two Allotments to be Made
This Year.

The meeting of stockmen in-
terested in the Heppner Forest
Reserve, held in Heppner last
week, came to a close last Satur-
day evening after a strenuous
week's work.

Everything was settled as well
as could have been expected under
the circumstances.

While a number of stockmen
are not entirely satisfied with the
results of the meeting, still a great
many are inclined to believe that
ultimately the reserve policy will
be for the best.

Anyhow, the stockmen in gen-
eral have been impressed with the
objects of the meeting.

Now, that the reserve has been
created, conditions that are differ-
ent from former times are here and
must be confronted.

In order to establish the forest
reserve policy, a meeting was ab-
solutely necessary in order for the
men in charge of the forestry de-
partment to get at the actual facts
in determining a solution as to
the equitable adjustment of the
questions involved.

Who could be better acquainted
with the facts than the stockmen
themselves?

The main question was: Who
was really entitled to graze in the
Heppner forest reserve? The
Gazette hopes that this has been
settled right.

The next question was the
allotment of the range privileges.
In this the representatives of the
stockmen in their committees have
spoken as published below:

The Heppner forest reserve con-
tains 292,176 acres. For this
amount of public range there are
approximately 250 stockmen ask-
ing for grazing or trail privileges.
For grazing purposes alone per-
mits were asked for 122,185 sheep,
19,215 being rejected; 222 horses
were rejected out of the applica-
tions for 831; permits for 13,275
cattle were asked for; out of this
number 11,259 were approved.

With the exception of John
Madden and the Butte Creek Land
& Livestock Co., no allotments
will be made this year. The two
allotments will be made owing to
the fact that the parties are now
running sheep within the limits of
the Lone Rock cattle range.

Reports of Committees.

A serious problem and a heavy
burden of the work in arriving at
conclusions and results rested up-
on the members of the different
committees appointed by both the
sheep and cattle interests.

The fact is apparent that the
sentiment of fairness and a desire
to furnish a report that would be
as free from favoritism as possible
was uppermost in the minds of the
men in charge of the committee
work.

The question of territory allot-
ment coming under what is the
start of a system which is entirely
new and different from the condi-
tions which have prevailed for
many years was certainly difficult
to handle.

The committeemen worked hard
and exhibited patience indeed in
their deliberations.

AVOID ALUM

**AN UNSEEN DANGER
IN FOOD**

TO GUARD SHIPS against the unseen dangers at sea,
the United States Government maintains lighthouses.

To guard your home against the un-
seen dangers of food products, the Govern-
ment has enacted a pure food law. The
law compels the manufacturers of baking
powder to print the ingredients on the
label of each can.

The Government has made the label your protection—
so that you can avoid alum—read it carefully, if it does not
say pure cream of tartar hand it back and

Say plainly—
**ROYAL BAKING
POWDER**

ROYAL is a pure, cream of tartar baking powder—a pure
product of grapes—aids the digestion—adds to the health-
fulness of food.

The work required both day and
night sessions from Tuesday after-
noon until Saturday evening at
8 o'clock when the work was fin-
ished. The reports follow:
