HAYSTACK MONUMENT.

Marks Birthplace of Foreign Mission Work in This Country.

Many a visitor to Williams college is taken to the birthplace of American foreign missions, marked by a unique monument in a little park near the college grounds.

For once in the history of the world a prayer meeting is commemorated by a monument. In Mission park in Williams town stands a shaft which was dedicated on Sunday, July 28, 1867, to the memory of five students of Williams college who met at the close of one sultry summer day in the year 1866 to hold a prayer meeting, as was their custom. They were overtaken by a sudden shower of rain and were compelled to seek the friendly shelter afforded them by a neighboring haystack.

The group of young evangelists who were present at the prayer meeting on that particular occasion consisted of Samuel J. Mills, James Richards, Francis L. Robbins, Harvey Loomis and Byron Green.

Sheltered from the rain by the haystack, they continued amid the conflict of the elements their devotional exercises and discussed religious topics of deep interest to themselves. While the storm raged Mills communicated to his fellows the plan of executing a great life work. It was nothing less than a mission to some heathen land and the ultimate evangelization of the world.

They communicated their plan to such of their fellow students as they believed would sympathize with them and organized the Society of Brethren, a secret society, which had for its object the establishment of foreign missions.

The result of the prayer meeting was the organization in Bradford, Mass., in 1810 of the American board of commissioners for foreign missions. From this start grew the great society of the American board, which has distributed millions of dollars. Since the first meeting of five persons its corporate and honorary members have increased to over 70,000.

Years after the students had formed their great scheme of evangelization the spot where they held the prayer meeting was marked by a cedar stake. This led to the purchase of Mission park by the alumni of Williams college and in 1867 to the erection and dedication of what is now known as Haystack monument. The cedar stake monument became marble through Harvey Rice of Cleveland, who designed and at his own expense reared the prayer meeting site marker.

The monument stands on the identical spot where the haystack stood. It is a strictly Berkshire county production, composed of Berkshire marble, quarried at Alford and wrought in the workshops of the Berkshire Marble company. Its height is twelve feet, its shaft, cap and base square polished, its color a silver blue.—New York Tribune.

Hindoo Caste.

The four grades of society among the Hindoos are the Brahmins, or sacerdotal class, who are said at the moment of creation to have issued from the mouth of Brahma; the Kshatrya, or Chutsee, or military class, sprung from the arm of Brahma; the Vaisya, or Bala, or mercantile class, from the thigh of Brahma, and Sudras, or Sooder, or servile class, from the foot of Brahma. The business of the Sudras is to serve the three superior classes, more especially the Brahmins. Their condition is never to be improved, they are not to accumulate property and are unable by any means to approach the dignity of the higher classes. These divisions are hereditary, impassable and indestructible.

Not So Harsh.
